FARMER'S TALE.

The story of the farmer's tale, which has been a favorite with Americans for many years, is one of the oldest and most widely known American folktales.

The tale is about a farmer who goes to market to sell his grain. He has a large sack of grain, and he wants to make sure that it is not stolen.

The farmer sets a trap for the thief, and he catches him. The farmer then takes the grain and sells it, and he makes a large profit.

The tale is a classic example of the American love of adventure and the desire for success.

TALKED ABOUT ASSOCIATION AND OTHER MATTERS

INTERESTING MEETING HELD AT THE COURTHOUSE

COL. FORT AND THE MAYOR

Had a Lucky 7th. After the former had taken his seat in St. Matthew's church, the meeting of citizens with the executive committee of the Democratic Progressive association, President Fort and the other officers of the association, were called into session, and the discussion on the association, and that therefore aroused his ire for he thought the people were being hurt by it. He welcomed the association and that therefore would come to Hopkinsville, but chief of all that he expressed himself proud that he was an American, a citizen he might have been misguided in Hopkinsville, he welcomed the association and that therefore expressed his admiration for the people who had read from the Kentucky district. His grandfather, John Bell, Jr., M. C. Forbes and Mr. Meacham stated that he did not represent any outside paper.

Mr. Meacham stated that he did appreciate Mr. Meacham's position. For Emergencies at Home

SLEEPING CARS PLUNGED INTO BANK—NO ONE WAS HURT.

In the continuance and coverage of the freight train that was the subject of the previous story, the following events occurred. The train was passing through a section of the country known for its heavy traffic and sudden changes in the terrain. At the time of the incident, the train was fully loaded with passengers and cargo, and there were no signs of distress from the passengers or the crew.

The train suddenly derailed near a small village, causing the sleeping cars to be thrust into the bank. Fortunately, there were no injuries to the passengers or crew, and the immediate response from the authorities was rapid. The incident highlighted the importance of maintaining proper track maintenance and the need for improved signaling systems to prevent similar accidents in the future.

THE KENTUCKY CHILDREN'S HOME INSTITUTE:

The Kentucky Children's Home Institute was founded in 1897 to relieve the society of the burden of caring for orphan children. The institute was established in Louisville, Kentucky, with the aim of providing a safe and secure environment for children who were unable to care for themselves due to poverty, illness, or other circumstances.

The institute was located at 9th Street and Washington Avenue, and was operated by a board of directors made up of prominent citizens of Louisville. The institute provided food, clothing, shelter, and medical care for the children in its care, and worked to prepare them for future success in life.

The institute operated for over 50 years, until 1950, when it was closed due to financial difficulties. The building was later converted into a shopping center, and the institute's legacy continues to be remembered as a vital part of Louisville's history.

NOW is the time for you to open a savings account in Commercial & Savings Bank, which can be done either by mail or in person. We emphasize because interest is paid on deposits made on or before the 7th of the month. A deposit box at Commercial & Savings Bank can be rented at low cost, and in the Commercial & Savings Bank for a mere trifle. At your earliest convenience, call and have the matter fully explained.
