FRANKFORT, Ky., Dec. 16.—Mr. W. M. Kinkead, the regular Commonwealth's attorney, as it not only refused to be the assistant his son would be assassinated.

Judge Barr was born in Versailles, Woodford county. He read law with Mr. John Kemp, a prominent lawyer in Lexington, and served continuously on the circuit court until he was called to the United States court for the district of Kentucky in 1850. He was a Unionist during the civil war and he therefore un-derstood, at least to a limited extent, the problems of that time.

Judge Barr was a member of the Democratic party and was known for his integrity and public spirit. He was a member of the state legislature and served as a delegate to the state constitutional convention in 1868. He was also a member of the state supreme court from 1876 to 1890.

Judge Barr was married twice. His first wife was Miss Elizabeth Kinkead, who died in 1868. His second wife was Miss Barbara Kinkead, who survived him.

Judge Barr's death was a great loss to the state of Kentucky. He was a man of great learning and ability, and his loss will be deeply felt by his colleagues and friends.

The funeral of Judge Barr will take place on Tuesday next to be held in Lexington, and the body will be removed to the cemetery in the city.

The Financial Situation.

There is more money in this country today than there ever was before, but a lot of it is unstable. Speculations and other phases where small clever brains would naturally look to is the present. Newfound safety and security in the financial reorganization is due mainly to two main facts. First, the great reduction in the amount of demand for goods and services. Second, the great reduction in the amount of demand for money.

Such a reduction of the amount of demand for money is due mainly to the great reduction in the amount of demand for goods and services. The amount of demand for goods and services is due mainly to the great reduction in the amount of demand for money.

The report also states that the wheat crop is estimated at 45,000,000 bushels, compared with 50,000,000 bushels last year. The report further states that the cotton crop is estimated at 5,000,000 bales, compared with 6,000,000 bales last year.
