L. A. JOHNSON & CO.

FRAKETT, Ky., March 15—The House today, by a vote of 70 to 24, rejected the Burns substitute.

It was the 35th time that this bill had been before the House. It is essentially a pure-food law. A number of the representatives had been heard, and the same arguments were repeated, after which the bill was referred to the committee on agriculture.

In the House, the debate was carried on in a very businesslike manner, and it was not a question of politics, but of the best interests of the people.

The bill was introduced by Mr. Burns, and it was a pure-food law. The objections to the bill were that it was too stringent, and that it would interfere with the trade of the country.

### Fishing Days

Fishing is said to be unusually good at the Whippoorwill and Clear Creek. Several new sections have been provided by the Fish Commission. Levees Walker, as Sheriff Christian County, believes that the fishing is better than ever. He advises all parties to keep a line of cord and a light tackle to fish for bass.

### How's The Weather

We have been told that the weather is unusually good for this time of year. The temperature has been in the high 40s and low 50s, and the wind has been light and variable. The clouds have been scattered, and the sky has been blue.

### Bill Is Passed

The House of Representatives passed a bill today that will allow the sale of land by the tax collector. This is believed to be a step in the right direction for the efficient collection of taxes. It is hoped that this will help to reduce the amount of land that is held in default.
