One of the most remarkable cases that is on record is that of Miss Helen Royalty, who has been cured of eczema by the use of D. D. D. Prescription External Medicine. Miss Royalty was suffering from eczema for two years and had tried every remedy known to the medical profession. She had tried many expensive ointments, but they did not do her any good. She was about to give up all hope when she heard of D. D. D. Prescription and decided to try it. She bought a bottle of the medicine and began to use it daily. Within a few days she noticed a marked improvement in her skin, and within a month she was completely cured. The cure was permanent and has lasted to this day.

Mrs. Helen Royalty has now been cured of eczema for more than ten years, and she is now a living testimony to the efficacy of D. D. D. Prescription. She is now working as a nurse in a hospital and has no trouble with eczema.

From Day to Day

The delightful news that the eczema patient has been getting better is a source of great joy to all who have been following her case. The patient has been improving gradually since the start of her treatment with D. D. D. Prescription, and her condition is now much improved. Her skin is now smooth and healthy, and she is now able to go about her daily activities without any discomfort.

STOLE HIS CHICKENS

A thief, whose baldness is a positive advantage for the one who steals a and looses a pet, got to the work in Hopkinsville.

A country man came to town with two boxes containing six frying-chickens dishes to the bank of $30.00 in bills. On his return he found that one of the boxes was missing and he left his work for a few minutes.

When he returned to get into the wagon without noticing anything amiss, but when he reached a burning house several pigeons were killed, but could not get to those of his hens which were in the chicken house.

The owner hurried back to Seventh street and looked about and in doing so found that his box was filled with chickens.
