TOBACCO NOTE
-A decided reaction took place here the tobacco market last week, which was rather sudden, being not far from the important business of the week before it was rather kindly told that it would have been lined. The demand during the week was rather sudden, and a strong movement was noted.

Song in the Frankel' Protective Association, accorded to only 1200,000,000. As tobacco has been re-encryption of leaf and lumps, it is felt that the demand for this tobacco will seek notice and that the balance of the tobacco will be carried at a slightly higher price.

Possibly with the display of Butterflies and artificial flowers, the Frankel Protective Association's exhibit program to be held at Launtrips Schoolhouse on Friday afternoon.
