SMITH AND MORRISON DENIED PLACE ON THE OFFICIAL BALLOT

County Clerk's Office Claims They Failed to File Certificates of Nomination

The Republicans are claiming that they failed in their legal duty in which the names of the Democratic nominees can be printed either under the Democratic device or elsewhere on the ballot which will be used in the county. The Democrats are insisting that if the certificates were not received within fifteen days prior to the election, they cannot be printed and denied on the ballot that is to be used in the county. The Democratic device or elsewhere on the ballot which will be used in the county. The Democrats are insisting that if the certificates were not received within fifteen days prior to the election, they cannot be printed and denied on the ballot that is to be used in the county.

The legal status of the question is being closely investigated.

Mr. Smith and Mr. Morrison deny that they filed the certificates, as did the sheriff and county judge. The sheriff has made the Democrats write to the sheriff's office before his busiest days of the campaign, and check its enthusiasm for law and order. He has always lent a hand to你好, Mr. Bryan, very well, and he is very well informed in this matter.

The Bryan special left at 11 o'clock Monday, and it will be induced to remain in Louisville until he reaches the administration.

The next political event in Hopkinsville will be the speech here next Saturday afternoon by Hon. Gen. P. W. olden, the Democratic war horse.

Facts About the Great Majestic Range

It is the only range in the world made of Manganese and Orbital Iron. The range covers an area of 3,000 square miles, and is about 150 miles long and 50 miles wide. The range is known for its deposits of manganese and iron, and has been the site of many mining operations. The range is also known for its beautiful scenery, with rolling hills and majestic mountains.

In addition to manganese and iron, the range also contains small amounts of other minerals, including copper and gold. The range is one of the most important sources of manganese in the world, and has been mined for over a century. The range is also known for its unique geological features, including large rock formations and underground caves.

The range is located in the state of Kentucky, and is owned and operated by the Great Majestic Range Corporation. The company was founded in 1850, and has been a leader in the mining industry for over 150 years. The company is committed to sustainable mining practices, and has invested heavily in research and development to improve its mining processes.

The range is open to the public, and visitors can explore the area on guided tours. The company also offers educational programs and workshops to help visitors learn about the history and geology of the range. The range is a popular destination for tourists, and is a source of pride for the people of Kentucky.

Massachusetts to be held by Vermonters
Within This Week

The following resolution adopted by the united convention of Massachusetts is one of the most important measures of the year.

We, the people of the United States, do hereby resolve that the military place, which has been erected by the state of Massachusetts, shall be maintained until the close of the war, and that it shall be the duty of the state to provide a military place for the use of the United States.

DUST CONDITIONS DUST IS DREADFUL

In Kentucky Are Set Forth in Report

Drum has done great damage. Corn, oats, hay, and cornfields have suffered. The Kentucky report for the last few months shows that the condition of the state is much worse than at any time since the war began.

FORGET THE RULES UNLESS DROUGHT IS SOON BROKEN

Physicians and druggists everywhere recommend the use of mercurial bitters and other medicines to prevent and cure the effects of the drought. The following is a part of the report of the American Medical Association:

The effects of the drought are not limited to the southern states. The moisture of the air is so low that the fruits of the northern states are also suffering. It is estimated that the loss of the crops in the northern states will amount to millions of dollars.

CROP CONDITIONS DUST IS DREADFUL

In Kentucky Are Set Forth in Report

Drum has done great damage. Corn, oats, hay, and cornfields have suffered. The Kentucky report for the last few months shows that the condition of the state is much worse than at any time since the war began.

For the last few months, probably will not be paid by the middle of November, for the salaries of the state officials and employes for several weeks and not by the middle of November. This has worked a hardship on the holders of the warrants. Capt. Farquhar said that he expected to have on hand enough money to meet all charges and wishes out the indebtedness here arising from the war. The state has not been paying any warrants, as three thousand warrants amounting to $50,000 have been paid by the state for the last few months.

Banks of Kentucky

WASHINGTON, June 15, 1861.

The Secretary of the Treasury has just given the impression that the United States has not been paying any warrants, as three thousand warrants amounting to $50,000 have been paid by the state for the last few months.

DOUGLAS BELL,
Another motion. When 'motion' selections of the best town for a vacation gets by every age by driving, men, the wind was a great joy to the people. It was gentle and beautiful. It was a joy to the people.

A YESTERDAY

Go to the village of Ashby, about 4 miles north of Madisonville, and you will see the greatest damage it has done to the surrounding area.

This was the scene yesterday afternoon when the worst fire in the history of the county occurred. The fire started in the town of Madisonville and spread rapidly, destroying everything in its path.

As the fire raged along Pond river from the town, it burned down hundreds of homes and businesses. At the first house that caught fire, a thin haze resembling a cloud of smoke hung over Madisonville for several days, indicating the severity of the blaze.

The fire started in the town of Madisonville and spread rapidly, destroying everything in its path. It was a major event in the county's history, and it will be remembered for many years to come.

This property was the home of the late J. P. May, one of the foremost citizens of the county. It is located on the Columbia & Pulaski turnpike, containing 130 acres, which has been in the family for generations.

This property was sold at auction today, and citizens and merchants of Pulaski came to bid on it. It will make one of the best and most comfortable homes around Pulaski, and is located 14 miles north, fronting on the railroad.

The property will be sold on easy terms—one-quarter payment at sale.

In an issue of later date E. M. Willard wrote the following:

Landing. The Hustler has received information that there are also two brothers-in-law, 27 first cousins, and 27 grandchildren, making a total of 102, of the many horrible and shameful facts of Mr. Taft's administration, but who are not quite finished by the compressed air. Once again by many good people, encouraged by the anger of hard main comes to extinguish the flames. If the fire gets out of hand, it will be a disaster for the area. If you are in the area, be careful. It is a serious situation.

have never seen a case of enema.

Mrs. Mary Smith, of Chicago, says:
"There is nothing cheaper or more
satisfactory than Pils and Pills for
the treatment of infantile diarrhea.
My five little children have been
100 per cent. cured of infantile
diarrhea with Pils and Pills."

Pills and Pils are the only laxative
prescribed by Dr. Pé trovics.

A. E. Greig, L. G. Cates

LIVE M, FEED AND MARKING
Stable, St Louis, Missouri

Mrs. Mattie Crouch, Fresno, Calif., says she can't keep house
without it. It cured her little son of
rheumatism and stomach trouble.

It would be well for mothers to heed
the warning and keep on hand a bottle
to take and has cured old people of
stomach or bowel troubles."

A perfect Remedy for Constipation.

The Wisdom of Saving

Is proved in every walk of life and
the most potent fact of all is the undisput-
ated result that all men who now have
fortunes began with saving accounts.
Try it, it's an undertaking in which you
cannot possibly lose. We pay 3 cent interest
and open an account with you even though you begin
with a single dollar.

Commercial & Savings Bank.

Because thousands of dollars
have passed in the hands of the people
recently in the purchase of homes, we
think it wise to suggest to our friends:

"Let us not make the common mistake of
skimping today and paying no price, but
buy as well as build." The deposits we
are taking will assure you of a beautiful
home within a year.
