### NUTRITION A LA CARTE

- Remember your first ice cream cone — your first dish of corn flakes? I remember the twenties when I had my first Eskimo Pie and when men trucked fruits and vegetables to our neighborhood and sold them door to door. But the good old days didn't allow us to have fresh or frozen fruits and vegetables all year 'round. Now we can enjoy better nutrition, with fruits and vegetables available every day.
- Legend has it a sausage vender at the Chicago World's Fair in 1883 provided his customers with a white glove to hold their sizzling frankfurters while they ate them. When customers didn't return the glove, he lost money and hit on the idea of wrapping the franks in a bun. The hot dog was born.
- How did men first discover butter? It's believed that nomadic tribes carried cream or milk in bags of skin on the backs of horses or camels and the movements of the animal churned the cream until butter was formed. This probably first happened by accident. Today's modern stainless steel churns turn out 5,000 pounds of butter in an hour.
- Anemia is a frequent problem among women of childbearing age. It is caused by inadequate iron reserves in the body and not enough iron in the diet. Teen-age girls, too, frequently do not get enough iron in their diets. Good food sources of iron include whole grain and enriched cereal products, eggs, meat and poultry, apricots, prunes, raisins, green leafy vegetables, dried beans and peas.
- Because they are in their most rapid growth period, teen-age boys need more protein, calcium, and more of most nutrients than at any other time in their lives. Their energy needs, too, are high. Thus, between-meal snacks are usually needed and should be chosen from the four food groups — meat, milk, fruits and vegetables, breads and cereals.
- It's true that ounce for ounce, fats contain about twice the calories of protein or carbohydrates. But even if you are trying to lose weight you need some fats in your meals. Essential fatty acids perform certain specific tasks in keeping you healthy. Fats also make our food taste delicious. Just don't overdo fats.
- Two eight ounce glasses of milk furnish about three-fourths of the calcium an adult needs daily. Along with the calcium you get a favorable amount of phosphorus, top quality protein, and riboflavin (a most important vitamin), as well as other vitamins and minerals. It's almost impossible to get enough calcium in your diet without milk.
- It is commonplace to say that water is essential in all animal and plant nutrition. Still, many people don't think of water as a nutrient, along with such substances as proteins, carbohydrates, fats, vitamins, and minerals. Put them all together, however, and add water and you have six vital nutrients that we must have to be healthy and to survive.

### Nurses Needed

FRANKFORT, Ky. — The Kentucky Nurses Association says in a report that the state needs nearly 3,000 more registered nurses—plus a \$1,000 annual boost in the current \$6,500 minimum salaries.

### World Headcount

GENEVA, Switzerland — The number of Lutherans in the world has passed the 75 million mark, climbing 600,000 last year to a total of 75,006,748, the Lutheran World Federation reports. In America, the total rose from 9,170,298 to 9,226,623.

Policyholder Questions Answered by the Health Insurance Institute, 277 Park Ave., N. Y., N. Y., 10017

Q. I have a "major medical" health insurance policy where I work, that also covers my wife. I want to be sure that it covers our needs fully — in other words, do I need any additional insurance?

MAJOR MEDICAL COVERAGE

A. Generally speaking, no additional insurance for your medical care costs may be needed if you have major medical coverage, since your policy is probably sufficiently comprehensive to protect the average family from the larger expenses of serious illness or accident. Group health insurance policies are designed for realistic protection against medical expenses in their local area, and will include coverage for hospital expense and probably convalescent nursing home expense, in addition to out-of-hospital diagnosis, surgery, and doctor bills and other related expenses, in or out of hospital. Benefit payments are provided for 75-80 percent of all treatment after a co-insurance factor — which you pay — has been met. Maximum benefits will range anywhere from \$5,000 to \$15,000 and sometimes higher. There is also a deductible amount to be paid by you, usually between \$50 and \$150 for a group policy.

Q. I have a moderate to serious heart condition which has prevented me from obtaining health insurance in the past. Is there any hope of being covered with some kind of health insurance policy?

A. Yes. Many people have health conditions that prevent them from receiving benefits under the usual type of health insurance policy. However, under "special class" health insurance, now offered by an increasing number of health insurance companies, a policy may be issued to a person unable to meet the normal health requirements of a standard policy. A period of recovery or adjustment is required and the policy is issued on individual merits of the case, the particular condition, the degree of damage, and in all instances, is up to the individual judgments of the company. For group health insurance coverage, health is generally not a criterion.

Q. My mother-in-law has come to live with us after her husband died four months ago. She has a health insurance policy but now the premiums are too high for her to pay and she has six years to go before she is eligible for Medicare. Could I have her included

on my family policy? I'm trying to find the most economical method of having her adequately covered.

A. No, your family policy provides health insurance only for your wife and children. For adequate economic coverage, you might consider a major medical policy, choosing a deductible you could manage in case of a serious illness or accident. This plan would be designed to meet the rising medical costs and is less expensive than first dollar coverage. In view of your mother-in-law's limited income, she may be eligible for medical benefits under a state's medical assistance laws which are available in some 37 states. Looking to the future, make sure she will be eligible for Medicare since the law now requires a basic number of units of employment before a person is qualified; in her case it would be 20 units, or five years of work under Social Security.

Q. All these years I thought that a person's health insurance policy was always renewable without a change in premium. Now I find out this isn't true. Could you explain why?

A. The only policy in which the premium can't be changed is the non-cancellable guaranteed renewable policy. However, most policies, including guaranteed renewable and renewable at the option of the company, are subject to a change in premium.

Q. I was hurt in an automobile accident one year ago and have been receiving disability income checks for the past nine months. This has been most helpful since my wife is unable to work because of the baby. The policy will pay me for a period of two years, according to the way I understand it, but if I am still unable to work after this time is there any way in which I can extend these payments or take out another policy that would cover me?

A. There is no way you can extend your present coverage to cover this particular disability. When you are well again, you may want to see about revising your program to get a longer disability benefit period. A more immediate answer to your current needs, and one you are perhaps not aware of, is the disability provision under Social Security.

## That Should Boost His Ego

WASHINGTON — Maxine Cheshire, Washington Post columnist, says Defense Secretary Melvin Laird boosts his spirits every morning by tying his tie in front of a mirror framed to look like the cover of Time magazine. The bottom of the mirror bears the inscription "Man of the year."

## After 23 Sons, A Daughter

WALNUT CREEK, Calif. — Over the past two years, 23 members of Walnut Creek's 53-man police force became fathers—every offspring a son. The spell was broken Saturday when officer Sherwood Smith's wife gave birth to a 7-pound, 12-ounce daughter.

## Tells Sheriff He Killed Man 17 Years Ago

CENTERVILLE, Tenn. — A Hickman County farmer walked into the county jail Tuesday, Sheriff Frank Atkinson said, and told officers he shot and killed a country grocer nearly 17 years ago. Atkinson said Lester A. McMeen, 63, said he killed Earnest Love, owner of a grocery store at Duck River. McMeen, who waived preliminary hearing, has been bound over to the grand jury under \$5,000 bond. Officers said the farmer was questioned in connection with the slaying at the time, but released for lack of evidence. A bachelor, McMeen has lived in the same community since Love's death.

## Dresden Man Dies In Wreck

A Dresden father of two young daughters was killed almost instantly about 5:15 p. m. Sunday when his car ran out of control on the Dresden - Palmersville road in Weakley County and slammed sideways into a house, causing major damage to the house and injuring three persons inside. Tennessee Highway Patrol Sgt. Wayne Hood of Martin said Henry F. Sanderson, 30, an employee of the Milan Ammunition Plant at Milan, was dead when he and State Trooper Homer Swayne of Paris arrived at the scene. Weakley County Sheriff Harold Cooper also assisted in the investigation.

Those in the house who were injured included: Mrs. Mollie Moubay, 68, wife of Burk Moubay, owner of the one-story frame house; J. C. Tucker, 49, a visitor at the home, and his wife, Mrs. Sudie Tucker, 48.

Mrs. Moubay suffered apparently minor bruises and shock and was admitted to Weakley County Hospital at Martin. Mr. and Mrs. Tucker also suffered apparently minor bruises and told investigating officers they planned to visit a private physician in Dresden.

Sgt. Hood said Mr. Sanderson was driving toward Palmersville in a 1966 Chevrolet and lost control as he came to the crest of a hill on the blacktop road.

## County Register

### Plans To Retire

#### After 20 Years

Serving as Obion County Register since 1950 "has been one of the most rewarding experiences of my life," Mrs. Rubye Oliver Armstrong said Friday in announcing that she had decided not to seek re-election.

"It's been a wonderful experience and I will remain deeply interested in the welfare of the office," Mrs. Oliver said. "The person who succeeds me will have many important responsibilities."

"Most of the longtime citizens of the county are aware of the functions of the register's office but, for the information of the many new people moving to our county, I might explain that the office of County Register might be better known as the recorder's office."

"One of the principal duties of the office is the recording of deed transfers to real estate holdings and the recording of many other legal documents pertaining to real estate."

"The preservation of these records and the necessity for accuracy in the office can't be overemphasized," Mrs. Oliver continued.

"In making plans for retirement at the end of my term of office Sept. 1, 1970, I have mixed emotions. I have loved my work and I am indebted to the wonderful people of Obion County for granting me the opportunity to serve them."

One candidate, Miss Evelyn Hogins of Woodland Mills, already has announced plans to seek the Democratic nomination for the office in the August primary. Miss Hogins has served as deputy register since 1959.

## Mother-Of-Year Nominations Requested

LOUISVILLE, Ky.

Nominations for Kentucky Mother of the Year must be made by Saturday, and this year's winner will be announced at a convention here April 12.

Mrs. W. F. Aton, chairman of this year's contest, says her selection committee will meet soon after the nomination deadline to begin the process of choosing the state's No. 1 mother.

The winner of the state contest will travel to Los Angeles for the national contest April 27. The nationwide contest is sponsored by the American Mothers Committee, Inc.

Last year's Kentucky Mother of the Year was Mrs. Mac Swinford of Cynthiana, wife of U.S. District Judge Mac Swinford.

NOW OPEN FOR BUSINESS: The handsome new A&P food store in downtown Fulton opened for business Tuesday in spacious new quarters on Mears Street. Greatly enlarged in every respect, new store has its own large, well-lighted parking lot, electrically-operated doors, a roomy interior featuring a number of enlarged departments, and a staff of familiar, friendly personnel delighted to serve A&P customers with ultra-modern facilities.

"Fulton County's oldest and largest bank"

A&P's new check-out section is designed for convenience, speed and roominess... as this picture will indicate. Four regular check stands and an "express" aisle (not shown) will be a great improvement over the old store layout. Checkers in the picture are James Hicks (with A&P 18 years) and Carolyn Alexander, now in her fifth year with the company.

JUST A CORNER OF THE PRODUCE DEPARTMENT — actually the frozen foods section. Elson McGuire, produce department manager (with A&P 24 years), and Charles Singleton, produce department (with A&P 17 years) stocked the frozen foods last weekend but couldn't be shown with the fresh produce, because it hadn't arrived at the time this picture was made.

A "GOURMET" FOOD SECTION TOO! Store manager Charles Flynn stands beside a new gourmet foods section in the new A&P store. While this section has many delicacies, it also has some novelties too... such as the package of chocolate-covered ants, bees, grasshoppers and caterpillars Flynn is holding.

**Cairo 68**  
**Fulton County 55**  
CAIRO, Ill.—Cairo outpointed visiting Fulton County (Ky.) 21-12 in the final period and posted a 68-55 cage triumph here Friday night.  
The Pilots held a narrow 47-43 lead going into the last stanza but quickly put the contest out of reach.  
Fulton County held a 51-49 edge on the boards and hit 51 per cent from the field, while the Pilots managed 42 per cent.  
Mike O'Shea led the victors with 17 points, while Larry Nicholson was high for Fulton County with 16.  
Cairo's record now is 8-8 and Fulton County is 7-13.

**But The Band Played On**  
CHICAGO — Patrons of a Dixieland nightclub on Chicago's near North Side continued to drink their beer and sing along with the band when fire broke out in an apartment three floors above them.  
A few persons went outside to watch the firemen work.  
One resident was injured slightly and an estimated \$10,000 in damage was caused by the fire early Sunday.  
Water dripped through the ceiling of the nightclub and formed large pools on the floor, but the band played on.

### FREEZER TIP

Marking meats and baked goods for your freezer? To avoid confusion, label each parcel carefully — naming the contents of the package, the weight (if it's meat), the date it was frozen and its approximate storage life. A porous point pen, such as Flair by Paper Mate, marks clearly and neatly. You could get completely organized with a color code — a red Flair pen marks meats and poultry items, blue labels pies and cakes. Black Flairs could designate breads and muffins and perhaps green porous point pens could be your home-packaged vegetables. It's a good way to freeze with ease.

### Predicts An End Of Death Penalty

CORONADO, Calif. — Capital punishment in the United States will be abolished within 10 years, predicts Justice Stanley Mosk of the California Supreme Court.  
"A decade from now, Americans will look back and wonder how an enlightened society could have so long tolerated capital punishment," Mosk said Monday. "Killing cannot be deterred by killing."

## Morton Named President Of Horsemen

MIAMI, Fla. — Three men from Kentucky, including former U.S. Sen. Thruston B. Morton, have been elected to positions in the newly formed American Horse Council.

A spokesman for the council said Tuesday its purpose is to "foster a better business climate in the production of horses throughout the nation."

Morton was elected president of the group, and Albert Clay of Mount Sterling accepted the position of secretary.

Henry Durham, an attorney in Lexington, will serve as the group's executive director with offices in the nation's capital.

## Ban Against Dancing During Lent Dropped

## Bride Leaves Husband, 4,500 Feet In Air

RICHLAND CENTER, Wis. — An attractive blonde skydiver left her new husband at an airborne altar Sunday and dropped 4,500 feet out of sight with the best man.

John J. Battallo of Madison and the former Lynn Marie Tesser, members of the University of Wisconsin Skydiving Club, were married in a four-passenger Cessna 180, from which the bride then jumped clutching a corsage.

The bride wore a white jumpsuit, which was soiled when she ended her parachute leap sitting in what she called the only mud puddle in evidence in the otherwise frozen southwestern Wisconsin countryside.

The best man, Patrick Powers of Middleton accompanied her on the freefall. The bridegroom had to cancel his participation in the jump because he injured his shoulder Saturday during a practice jump.

## Thieves Steal 4-Room House

HOUSTON, Tex. — Jack Cloninger wants to know who carried off his four-room frame house that had been condemned for freeway construction.

Cloninger told police he recently purchased the house near highway U.S. 59 in northeast Houston, and planned to move it to a new location.

When he drove to the house site Saturday, only a vacant lot and six planks remained.

IN THIS LOCATION SINCE 1936: A&P opened this store on Lake Street in Fulton at 4: pm., Thursday, April 16, 1936, according to The Fulton News issue dated Friday, April 17, 1936 . . . and has been a Lake Street landmark here for the past 31 years.

The building, above, was occupied by the Larry Beadles book store prior to its occupancy by A&P, and was "completely remodeled and beautifully decorated" at that time. When the store first opened it was staffed by a manager, a meat department head and two clerks. On opening day, the first 500 customers making a purchase of \$1 or more were awarded a free shopping bag containing one dozen "Grandmother's famous dinner rolls."

JAMES ROBEY, head of the stock and receiving department along with J. D. Fields, puts the finishing touches to another shelf in the long aisles of merchandise in the new store. Robey has been with A&P for 23 years.

J. D. FIELDS, head of the stock and receiving department, and an A&P employee for 23 years, smilingly straightens up a can or two in one of the many brimming aisles in the new store.

**TWO MINUTES**  
WITH THE BIBLE  
BY CORNELIUS R. STAM, PRES.  
BIBLICAL BIBLE SOCIETY  
CHICAGO, ILLINOIS 60635

**INEXPRESSIBLE JOY**

Have you ever noticed that the Apostle Paul never speaks of his love for Christ? Rather he keeps talking about Christ's wonderful love to him. Neither does he exhort us to love Christ, but keeps telling us how Christ loved—and loves, us. This is consistent with the message specially committed to him: "The gospel of the grace of God" (Acts 20:24).

The law says: "Thou shalt love the Lord thy God." This is the very essence of the law (Matt. 22:37). And we should love God, but law cannot produce love, so God comes to us in grace and says: "I love you." This is why Paul's epistles are so filled with "the love of God, which is in Christ Jesus" (Rom. 8:39).

The fact that God deals with us in grace does not mean that believers should not, or do not, love Him. The very opposite is true, for love begets love. It is

when men come to know the love of Christ that their hearts respond to Him in love.

Peter, like Paul, had once been a strict observer of the law, but had since come to know the love of Christ in growing measure. The result: a deep love for Christ and the overflowing joy that accompanies such love. This is why we find in I Pet. 1:8 those touching words that naturally overflow from the heart and lips of one who has come to know the love of Christ:

"Whom having not seen, ye love; in whom, though now ye see him not, yet believing, ye rejoice with joy unspeakable and full of glory."

Yes, knowing and loving Christ does indeed bring inexpressible joy, but we cannot love Him by trying. We must accept His love for us in faith so that our hearts may naturally respond.

The Knit Dress is a fashion everyone will want this spring. Wool knits, wonderful new polyester knits, Dacron knits, and more! Knits in 1-piece dresses, 2 and 3-part costumes, elegant dress-and-coat ensembles—with the new trend to shape, belts and skirts that "move". Lovely in all new spring colors, but really smashing in the Red, White and Blue!

**North Texas State's Choir Concert Is Scheduled For Murray**

MURRAY, Ky. — The North Texas State University A Capella Choir will be presented in concert at the Murray State University auditorium, Thursday, March 6.

Scheduled at 8 p.m., the program by the choir, which has toured extensively in the United States and Europe, will be sponsored by the Murray State music department.

Directed by Frank McKinley of the NTSU School of Music, the 43-voice choir will sing a new work by Vincent Persichetti, one of the country's leading composers.

Entitled "The Pleiades," it is scored for choir, trumpet, and string orchestra or piano. William DeJong, doctoral student at NTSU, will be the trumpet soloist, and Jan Ellerd will be the pianist.

As a highlight of the tour, the choir will sing a program at the Music Educators National Conference Southwestern Region Convention in St. Louis March 8. In the spring of 1964, the NTSU choir expanded its audience with a tour of nine Euro-

pean nations for the U.S. State Department's Cultural Presentations Program. The choir sang 65 concerts in a three-month tour of Portugal, Spain, Denmark, Sweden, Finland, Iceland, Luxembourg, Belgium and Switzerland.

After the choir had been on tour for three weeks, the students were praised in a State Department report which said the view of America in Portugal had been greatly improved by their appearance there.

As a climax to the tour, the NTSU choir joined with the Cantores Choir of Bruges, Belgium, to sing two performances of Verdi's "Requiem" with the Societe Philharmonique de Bruxelles, Brussels, Belgium, under Roberto Benzi — believed to be the first appearance by an American choir with a major European symphony.

All tickets are \$1 and may be obtained from 9 a.m. to 4 p.m. March 3-6 in the Waterfield Student Union Building or in the Murray State music department, according to Carl Rogers, assistant professor of music at Murray State.

### MAJOR POINTS & MINOR, TOO

By GORDON M. QUARNSTROM

It's about time: To get real  
concerned about the drunk  
driver menace.

One of the next 50 drivers  
coming your way is drunk, but  
which one? He may kill you  
and your family. The situation  
is almost out of control, safety  
leaders tell us, because about  
half of all fatal highway crashes  
involve drivers who had been  
drinking.

If you want more information  
on how to solve the problem,  
drop a postcard to Safety  
Director, Allstate Plaza F-3,  
Northbrook, Ill., 60062. A help-  
ful pamphlet will be mailed  
without charge.

**MINOR NOTES:** It's rather  
sad to contemplate, but there  
is only one vaudeville theater  
left in the U.S., the Radio City  
Music Hall in New York . . .  
when I was a young man, vir-  
tually every city had at least  
one theater that featured travel-  
ing vaudeville performers . . .  
habits are like a good bed, easy  
to get into but hard to get out  
of . . . I'm told one of the  
agencies that wants used Christ-  
mas cards is the Royal Oak  
Geriatric Center, 625 N. Har-  
lem, Oak Park, Ill.

**FRANKELY SPEAKING:**

of the open housing bill, replied,  
"Well, if we owe it, we ought  
to pay it."

**IRELAND VIGNETTE**  
**LIMERICK:** This is such an  
interesting little city, right near  
the Shannon Airport and Bun-  
ratty Castle. It is well worth a  
visit. Its history dates back to  
the middle of the 9th Century,  
when the Danes used it as a base  
when they plundered the area  
hereabouts. Nearby are ruined  
castles and round towers, used  
for protection against the in-  
vaders. The area around Limer-  
rick now is one of quiet, rural  
scenes, with rolling hills and  
attractive views of the Shannon  
River. It is easy to get from  
Limerick to Tralee, Killarney,  
the Ring of Kerry and other  
interesting sites in this part of  
southwestern Ireland. The big  
attraction nearby, as the Irish  
International Airlines people at-  
test, is the huge free port  
shopping center at the Shannon  
Airport. It is the finest in  
Europe.
