## WARNED BY PHONE

NOT TO THRESH CERTAIN PLANTER'S WHEAT.

Owners of Machine Take up The Matter With Association Officials at Guthrie.

GUTHRIE, Ky., July 25.—Mr. James Johnson, who owns and runs a threshing machine, received a telephone message Monday night telling him not to thresh wheat belonging to Downer brothers and Mr. W. D. Merriweather, whose farm adjoins theirs. Downer brothers came to town and waited on the advisory board of the Tobacco association, asking them to give them papers showing that they had their tobacco in the association and had sold through the association. The advisory board couldn't do anything for them, so they advised Downer brothers that if they had sold through the association they could very easily produce their checks and receipts for same and show their neighbors where they stood.

Downer brothers are members of the association, but it is claimed they sold out of the association. Downer brothers are among the most prominent planters in this section and own a large nursery.

## SIGHT MAY BE LOST

ENGINEER STRUCK IN EYE BY A STONE.

Pilot Of a Locomotive Threw Into Cab a Piece Of the Ballast.

(From Thursday's Daily.)

Engineer Phil Drennon received a severe injury to his left eye which may result in the complete loss of sight in that eye, as a result of a peculiar accident which happened yesterday afternoon. Engineer Drennon has for a long time been at the throttle of Illinois Central passenger train No. 321, due here at 3:50 p. m. Yesterday afternoon soon after leaving Cerulean, and while the train was bowling along at about forty miles an hour, the pilot struck a heap of ballast stone which had been carelessly left on the track by a section crew. A stone about as big as a hen egg was hurled backward over the engine and into the cab window and struck the engineer squarely on the ball of the left eye. The lick was a very severe one and the engineer immediately lost the power of sight in that eye.

When the train reached this city he was taken to a physician where his eye was treated. On account of the swelling and the blood which had collected in the eye ball, it was impossible to tell exactly how serious the accident was but for the present at least the sight is entirely gone. He was taken to Evansville last night where he was put under the care of the company's physician and where he will be treated.

As it happened, Engineer McGee, the one who brought the first engine into Hopkinsville over the Tennessee Central, was aboard the train on his way to Nashville and when the accident occurred he took Drennon's place at the throttle of No. 321 and

took it on into Nashville. Had it not been for his being on the train it would have had to lay over here until another engineer could have come in.

## KIDNAPERS JAILED.

HAHNVILLE, La., July 25.—The four Italians, convicted of complicity in the kidnapping and subsequent murder of little Walter Lamana, aged 7, were placed on a special train, guarded by 200 state troops, and rushed to the state prison at Baton Rouge, where they will serve life sentences. A wholesale lynching was feared and the officers refused to allow any one on the train except soldiers and the train crew.

## STRUCK BY TRAMP

AN ILLINOIS CENTRAL ENGINEER IS INJURED.

Hobo had Been Ordered off the Train and Fight Occurred at Otter Pond.

While Engineer Roy Christman, on the Nashville division of the I. C., was oiling his engine at Otter Pond, the second station south of Princeton, yesterday, he was attacked from behind by a tramp who had been ordered from the cab a short time before.

Christman was on engine 1889, pulling freight 394, north-bound, in charge of Conductor Maxwell. At Otter Pond he stopped for orders, and a tramp climbed in the cab. He wanted a ride, which Christman refused, stating that it was positively against the company's orders, and the tramp was ejected.

Fireman J. Morgan, who was on the opposite side of the engine while Engineer Christman was oiling the drivers, failed to hear the disturbance, and the presence of other members of the train crew is all that saved Christman from more serious injury. The tramp struck him several blows on the head, using a cuspidor, according to Christman's statement. The injured engineer was carried to the I. C. hospital at Paducah.

## SUFFERED WITH ECZEMA 25 YEARS

Limb Peeled and Foot Was Like Raw Flesh—Had to Use Crutches, and Doctors Thought Amputation Necessary—Montreal Woman Writes of Cure Seven Years Ago.

### BELIEVES LIFE SAVED BY CUTICURA REMEDIES

"I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My doctor had advised me to have my leg cut off, but I would not do that. I would try the Cuticura Remedies first. He said, 'Try them if you like, but I do not think they will do any good.' At this time my leg was peeled from the knee, my foot was like a piece of raw flesh, and I had to walk on crutches. I bought a cake of Cuticura Soap, a box of Cuticura Ointment, and a bottle of Cuticura Pills. After the first two treatments the swelling went down, and in two months my leg was cured and the new skin came on. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use it for his own patients. I used two cakes of Cuticura Soap, three boxes of Ointment, and five bottles of Resolvent, and I have now been cured over seven years, and but for the Cuticura Remedies I might have lost my life. I have lots of grandchildren, and they are frequent users of Cuticura, and I always recommend it to the many people whom my business brings to my house every day. Mrs. Jean-Baptiste Renaud, clairvoyant, 277, Montana St., Montreal, Que., Feb. 20, 1937."

## STANLEY BASSETT

Named by Congressman For West Point Cadetship.

When Major E. B. Bassett got back yesterday from the encampment at Jamestown he found a letter awaiting him from Congressman A. O. Stanley officially confirming the appointment of his son, Stanley Bassett, as a cadet at West Point. Major Bassett has been very anxious to secure this appointment for his son for some time.

The appointee is one of the most popular young men in Hopkinsville. He has been already given military training as a member of Co. D., in which he now holds the position of First Lieutenant. His ambition for a military career is one he has had from childhood. Lieut. Bassett will go to St. Louis in January where he will stand the examination at Jefferson Barracks.

### WOMEN PAY MORE.

Why Insurance Companies Discriminate Against the Gentler Sex.

Medical examiners of insurance companies say that the reason a woman pays more for the privilege of insurance than a man, is from the fact that women more readily fall victims to indigestion and stomach troubles and the fatal ailments that spring from these causes.

All persons, they say, who have a weakened digestive system and suffer from sick headache, dizzy spells, distress after eating, specks before the eyes, bloating, nervousness, sleeplessness and the many other symptoms of indigestion, soon lower the tone of the whole system and are most susceptible to a fatal illness.

For curative power in all stomach troubles nothing else is as safe yet effective, nothing else can be thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na. It is unlike any remedy heretofore known and is really one of the valuable discoveries in modern medical science.

It is not the acute attacks that influence the insurance examiners alone, but the constant feelings of weakness, headaches, indigestion and stomach troubles—these things, physicians say, kill more people than many more serious diseases.

To escape this condition of ill health, to enjoy one's food and yet never suffer with indigestion, a person should use Mi-o-na stomach tablets. They are not a mere digestive tablet, but strengthen and restore to natural action the stomach and bowels and effect a complete cure in even the worse form of stomach trouble.

L. L. Elgin sells Mi-o-na in 50-cent boxes under a guarantee to refund the money unless it does all that is claimed for it.

## UNDER MOUND OF LOVELY FLOWERS YOUNG OFFICER'S BODY LAID TO REST

(From Friday's Daily)

Wrapped in the stars and stripes and the Union Jack, the casket containing all that is mortal of Midshipman Faulkner Goldthwaite, was lowered yesterday afternoon to its last resting place in Riverside cemetery. Taps were sounded by the bugler of Company D., and, leaving the mound a veritable wilderness of flowers, the large concourse of people who, despite the driving rain and the thunderstorm, had followed the remains to the grave, returned to the city with sorrowing and sympathetic hearts.

The rites, which took place at the Baptist church, were characterized by a solemn simplicity and impressiveness. Notwithstanding the extremely inclement weather the auditorium was filled with friends, relatives and citizens who had gathered to pay by their presence a tribute to the memory of the noble young man whose life had been sacrificed in his country's service. About the altar floral designs in great numbers and of appealing beauty had been arranged, and among the handsomest were wreaths from Admiral Yamamoto, tied with the Japanese colors, the Naval department at Washington and from the officers of the U. S. battleship Georgia.

The service was conducted by the Rev. Millard A. Jenkins, pastor of the church, of which the deceased was a member, and he was assisted by Rev. Geo. C. Abbott, rector of the Grace church. The Episcopal service, customarily used in naval interments, was read by Dr. Jenkins, and a feeling prayer was offered by Rev. Mr. Abbott. The burial chant by the choir of sweet voices marked the entrance of the cortege. The casket bearers were: Messrs. Upshaw Woodruff, Robert Fairleigh, and M. H. Nelson, of this city; Meriwether Mason, of the Square; Merrill Trice, of Tampa, Fla.; John B. Trice, of Shenectady, N. Y.; Geo. Howell, of Richmond, Va.; and Hon. Merrill Russell of Elkton. The

choir after the reading of the service, sang "Lead Kindly Light," and, at the conclusion of the rites, "My Country 'Tis of Thee." A large number of persons from a distance were present to attend the interment. Company D., Third Kentucky regiment, arrived in the city after two days' trip from Jamestown, only a short time before the service. They attended the funeral as a company and, as a special escort followed the body out to the grave, marching through the hard rain with lowered arms and to beat of muffled drums. There were brief final rites at the grave.

Mrs. Goldthwaite has received messages of condolence running in the hundreds from all parts of the country. One of the most touching was a telegram from Rear Admiral Goodrich, commandant of the New York navy yards, whose son, Lieut. Casper Goodrich, lost his life at the time Midshipman Goldthwaite was fatally injured. He wired as follows:

"Washington, D. C., July 17.—Mrs. Goodrich and I grieve with you."

Rear Admiral Charles H. Snow, commandant of the Charleston navy yards, also sent despatches of sympathy.

From the navy yards at Portsmouth, Va., came the following:

"The junior officers of the U. S. S. Missouri tender their deepest sympathy in your present affliction."

Ensign Ridley McLean telegraphed from Brooklyn, N. Y.:

"Accept my most profound and heartfelt sympathy in your bereavement."

The Greek Letter society, of which the gallant young midshipman was a member, wired:

"Boston, Mass., July 16.—The Massachusetts Iota Tau Chapter, Sigma Alpha Epsilon, extends sincere sympathy."

Commander Kittel sent this message from the U. S. battleship Alabama:

"May I offer my sincerest sympathy to you and your family in your sudden great bereavement."

Former Congressman H. D. Allen wrote: "I deeply regret the untimely taking away of this brilliant boy, and extend to you my deepest sympathy."

## MARTIN SAFETY BUGGY AND WAGON COMPANY, INCORPORATED, HOLDS ELECTION OF OFFICERS

The directors of the "Martin Safety Buggy and Wagon company" incorporated, met in their office joining the Terry Coal & Coke Co. office in the Dalton building yesterday, organized and elected the following board of officers for the company, viz:

W. M. Copeland, of the Single Center Buggy Co., Evansville, Ind., president.

P. P. Huffman, of Hopkinsville, Ky., vice president.

R. L. Mosely, of Hopkinsville, Ky., second vice president.

C. Gregory, of Hopkinsville, Ky., treasurer.

V. B. Martin, of Hopkinsville, Ky., Supt. construction.

A. O. Dority, of Pembroke, Ky., special director.

Peter R. Givens, Hopkinsville, Ky., special director.

L. Haydon, Hopkinsville, Ky., secretary.

First National Bank, Hopkinsville, Ky., depository.

The company has purchased "Martin's patent improved running gear for Vehicles" recently patented by V. B. Martin, of this city, and has placed a contract with the Single Center Buggy Company, of Evansville, Ind., for 100 "Martin's Safety Short Turning Runabout Buggies," to be built under the personal supervision of W. M. Copeland, who is now the president of both companies and will push the sale of "Martin's Safety Buggies" extensively, which he, as well as all other buggy manufacturers, who have seen it, say leads all others now on the market, and will soon revolutionize the buggy business all over the country.

And as evidence of what the board thinks of the future prospects of their buggy, in addition to the 2,000 shares subscribed for by the directors, they have set out 1,000 more shares of \$10 each par value, 6 percent, preferred stock, to be sold in blocks of 10 shares each, for \$100.00 for each block to each purchaser, each block carrying with it one of "Martin's Safety Runabout Buggies" the retail price of which is \$25.00, cash, the buggies to be made and shipped at once to the purchasers of the \$100.00 worth stock, after their checks for the \$100.00 have been received by the company. The same day the checks are received, the stock will be issued and mailed to the purchasers, and an order mailed

to the Single Center Buggy company of Evansville, Ind., to complete and ship to the purchasers railroad station, one of the above described Martin Safety Buggies direct from the factory free of charge, and this line of business be followed from day to day, until the 1,000 shares of stock and 100 buggies are ordered by one hundred outsiders, consisting of men, boys, women and girls, who are not already stockholders, and want these buggies for their own use, together with the stock in the company as an investment.

By direction of the board all orders will be filled in regular order as they are received, until the 100 mark is reached, when all orders and checks for stock and buggies over and above this number will be promptly returned to the senders.

Each officer of the company will take pleasure in waiting on his friends, who may wish to come into the company, on this special offer and secure the stock, and one of these new Safety Buggies.

It is the plan of the company to later on erect a large buggy factory of its own, and manufacture these buggies in large quantities in their own factory, as well as in Evansville and other cities best located for the business.

An order was received yesterday from a Texas firm for a carload of these buggies to be shipped the first week in September, and inquiries are being made from other states for quotations in carload lots.

The immense profits made in the buggy manufacturing business is now an open secret, and the reputation of Mr. Copeland as a buggy manufacturer is sufficient evidence that with the cooperation of the business men who are associated with him in this company, together with the exclusive control of this new safety improvement, will create a big demand at once for their buggies, and the stock will soon pay an immense dividend.

Manufacturing plants like this are the kind that build up a town with business gathered from all over the country, and the New Era predicts a great success for this company. Let us have more factories, more railroads, more mills, more houses, and lots of them, and Hopkinsville will soon have a population of 50,000 and be the greatest town in Kentucky.

## BULLET SPED THROUGH BRAIN OF YOUTH

WAS HUNTING FROGS AT POND NEAR HERNDON.

### BODY LAY THERE ALL NIGHT

Hopkinsville Man Was Knocked From His Chair By a Bolt and Rendered Unconscious.

(From Friday's Daily)

Sherley Mitchell, son of W. E. Mitchell, accidentally shot and killed himself yesterday afternoon while frog hunting at a pond about one and one-half miles from Herndon.

He left home with his gun shortly after dinner and, failing to return by night, a search was made for him. All night long neighbors and friends kept up the search which only ended early this morning when the remains were found. The ball had entered his nose and penetrated his brain.

The body was tenderly removed in the arms of friends to the home of the stricken parents. The funeral will take place tomorrow and the interment will be in Riverside cemetery.

Young Mitchell was 17 years of age and a manly, bright and promising lad. He lived in the city up to a year ago when he removed to Herndon with his father who conducts a blacksmith shop there.

During the thunderstorm, yesterday afternoon, lightning struck in the front yard of "Doc" Hill, on South Virginia street. Mr. Hill was sitting in a chair in the yard and almost in the path of the stroke. He was severely shocked and fell from his chair unconscious. After a time he was revived, and his condition is not serious.

### RECEIVES WARNING

PRINCETON, Ky., July 19.—(Special)—Milton T. Smith, owner of a threshing outfit has received warning that he must not take his machine into the section north of this city and that he must not thresh the wheat of any non-association farmer. It is understood that Mr. Smith will obey the warning and will not even take his machine out. He has been in the threshing business for several years.

### BRONCHIAL COUGHS

Breathe Hyomei's Healing Air and All Irritation Will Be Quickly Cured

The most irritating and annoying form of cough is that termed bronchial. People subject to bronchial troubles whenever there is a change in the weather or they are exposed to a draft will "catch" a bronchial cough, which is very disagreeable, irritating and annoying.

Bronchial troubles cannot be cured by stomach dosing. The medicated air of Hy-o-mei is the only treatment that reaches the affected parts and gives relief and cure. It destroys all the disease germs that are present in the nose, throat and lungs, soothes and relieves the irritated mucous membrane in all parts of the bronchial tubes and quickly overcomes the irritation.

Bronchitis is really an inflammation of the mucous membrane lining the air passages and is purely a local disease, so that it needs a local treatment like that afforded by Hy-o-mei.

If there is any doubt in your mind as to the power of Hy-o-mei to cure bronchial troubles so that the system will resist coughs and colds, the unusual way in which it is sold by L. L. Elgin should dispel that doubt. He agrees to refund the money to purchaser of Hy-o-mei who is not perfectly satisfied with the results following the use of the remedy. He takes all the risk and if the remedy does not help you it does not cost a penny while if it cures, the expense is normal, for a complete Hy-o-mei outfit is sold at only \$1.00.

Dr. Edwards, Specialist, Eye, Ear, Nose and Throat. Test made free of charge for glasses. Phoenix Bldg., Main St., Hopkinsville, Ky.

## S.S.S. KILLS THE GERMS OF SCROFULA

Through the blood, diseases are carried from one generation to another. Parents transmit them to their children, and so it goes on down the family line for years and years unless the taint is removed from the blood. Especially is this true of Scrofula, for it is a disease that is "bred in the bone," and unless the blood is purified and every trace of the trouble removed the miserable disease will finally undermine the entire health and wreck the life of its victim. The usual symptoms of Scrofula are enlarged glands or tumors about the neck, which often burst and become discharging ulcers, weak eyes, Catarrh of the head and throat, skin diseases, etc. The trouble being so firmly entrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, while a waxy, pallid appearance of the skin, loss of strength and energy, and often lung affections, show that the disease is entirely destroying the bright red corpuscles and rich, nutritive qualities of the blood. Scrofula being a constitutional disease, one affecting the entire circulation, must be treated with a remedy that builds up and strengthens every part of the system, which has so long been denied the strength and nourishment it should have received from the blood. S. S. S. is the best of all blood purifiers and the greatest of all tonics, and is therefore the ideal remedy for Scrofula. S. S. S. searches out and destroys all germs, taints and poisons, gives strength, richness and vigor to the blood and cures Scrofula permanently. It so thoroughly removes the trouble from the blood that no signs of it are ever seen again, and posterity is started out in life with a clean, pure blood supply, which is their rightful inheritance. S. S. S. while thorough, is gentle in its action, and the healing vegetable ingredients which compose it build up every part of the system. Book on the blood and medical advice free. ### Treating Wrong Disease.

Many times women call on their family physician suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over busy doctor, separate and distinct diseases for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications.

A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects in any condition of the system.

## HE HAS SAND

Rich Find On Farm Of County Court  
Clerk Campbell.

A find of white sand, which promises to be very rich, has been made on the farm of County Clerk Gabe Campbell near the city on Canton pike. The sand was found at a depth of about seven or eight feet and the vein is four and a half feet deep and no telling how wide a territory the deposit covers. The sand is of an unusual whiteness and is almost as fine as flour. Concrete experts say that it is the very finest grade used in the manufacture of concrete blocks and that blocks made out of it, when seasoned would be as white as snow. Covering the white sand is a layer of brown sand which has been pronounced especially fine for mortar making. Mr. Campbell is making his arrangements to further investigate and test the find and if it proves up to what it now promises to be he will reap a harvest from the sale of the sand.

The deposit was found by a colored man. He heard of the desire of the concrete manufacturers of the city for white sand and he told of a vein which he knew to be on Mr. Campbell's farm. No one else knew of it but he was given permission to hunt for it and it took him only a short time to dig down to it and bring up samples.

### CANADA THISTLE ORDINANCE.

Notice is hereby given that all farmers who have Canada thistles on their premises must dig the same up and burn them by August 1, 1907, or be prosecuted as provided by law.

These thistles are very numerous in the county at this time and, especially along the Russellville and Canton pikes, enough to seed the whole county, if not destroyed in a few days. The pests will grow up from the roots again if simply cut off, and unless the blossoms are burned it will do no good to cut them down, as the seed are now matured.

This notice is given at the earnest request of many farmers who have obeyed the law, and by obeying same, you will do a great good for the county and save yourself from prosecution. JNO. C. DUFFY, d&wt County Attorney, Hopkinsville, Ky., July 20, 1907.

## TO PROTECT DOVES

IS THE PLEA OF A HOPKINSVILLE SPORTSMAN.

The Birds Are Said to Be Unusually  
Backward This Year in Hatching  
and Shooters Should Wait.

The open season for shooting doves, which are classed as game birds in Kentucky, begins August 1st and runs to Dec. 31st, both days inclusive. In other states, where they are permitted to be shot, the seasons are much shorter and generally open later (Sept. 1st.), and in many of the states, they are protected by law all the year. Those who hunt doves in this locality, know that they are getting scarcer every year, and the reason is apparent. We begin on them the first of August, when large numbers of them are still nesting and many of the young ones cannot fly well enough to get out of the way, and continue to hammer them, following them from one feeding and watering place to another, until most of them are killed, or forced to migrate in self-defense.

This season, they are unusually backward, on account of the late, cool spring, and the object of this communication is to suggest to the shooters that they spare them until, say, the 21st of August, and give the young a chance to grow and get fat, and the old to clean out their crops and take on new flesh and feathers. The sport will be much better and every body knows the flesh will be more desirable.

Let the gun clubs take the matter up and circulate papers among the shooters pledging the signers to hold off until a given date. I will gladly sign such a paper myself, and believe that all true sportsmen will do the same.

### The Doctor Away From Home When Most Needed

People are often very much disappointed to find that their family physician is away from home when they most need his service. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by Anderson-Fowler Drug Co., the leading druggist, 9th and Main, Hopkinsville.

## STORMED THE FORT GOOD ROADS FIRST

LATER INFORMATION IN REFERENCE TO FIGHT.

Clarksville Man is Said to Have Attacked Him on a Passenger Train.

The rumors of an assault made on Joel B. Fort by anti-association tobacco men created considerable interest in this city, where Mr. Fort has many friends. By long-distance telephone Mr. Fort today stated that he was still in the land of the living and not much the worse for the life encounter, which, he said, took place on the train near Cedar Hill on Tuesday.

Mr. Fort said that he was assaulted by B. H. Sory, ex-sheriff of Robertson county, now one of the tobacco buyers for the Italian contractors at Clarksville. The assault was brought about on account of the dynamiting of a thresher near Woodruff, Robertson county, some few days ago. It is said that Sory owned an interest in this thresher, and that when he saw Mr. Fort on the train he accused him of being indirectly responsible for the blowing up of the thresher; that the speeches Mr. Fort had been making in the interest of the Dark Tobacco association had aroused night riders to the depredations committed, including the wreck of his thresher.

Mr. Fort denied indignantly the impeachment, and thereupon, he said, Mr. Sory attempted to assault him. Mr. Fort defended himself, and both men received several blows but no serious injury was inflicted by either. No blood was drawn nor bones broken. Other passengers separated the belligerents, and Mr. Fort said today that, so far as he was concerned, the incident was closed.

AND THEN RURAL ROUTES WILL FOLLOW.

Editor Rising Points Out Some Needs Of the Service In This State.

A plea for more rural routes in Kentucky is voiced in the current issue of Rising's Rural Review, the editor describing the situation as follows:

"Kentucky ought to have from 800 to 400 more rural routes. The field is not near covered as yet. Many counties have none whatever. The trouble is that the proposed patrons do not give sufficient attention as to what is required in the way of road improvement prior to the time the inspector makes the investigation. Roads should be put in the very best condition after the petition has been forwarded. Drainage is also a matter of much importance. Unless petitioners first improve their roads and see that they are properly drained, there is not any certainty that they will ever secure the service. There ought to be a great revival of applications. There also should be great activity in good roads building. Good roads may secure it, but bad roads never will."

Thousands of people are daily suffering with kidney and bladder troubles—dangerous ailments that should be checked promptly. ## REPORT UNTRUE

THAT JOHN FIELDS DID NOT BELONG TO ASSOCIATION.

Or That He Had Received Warning Not to Thresh Dr. Word's Wheat

—Correction Made.

(From Saturday's Daily)

John Fields, whose threshing machine was badly damaged by dynamite while threshing the wheat crop of Dr. J. B. Word, near Oak Grove, telephoned the New Era this morning that the report that he was not a member of the tobacco association was untrue. Mr. Fields says he has been a member since the association was first organized and that he still holds his membership in it. He also states that he had not received any warning not to thresh Dr. Word's wheat.

The New Era gladly makes this correction. In the account as published in this paper the facts were all verified as far as possible before the paper was issued and it was stated to us that neither Mr. Fields nor Dr. Word belonged to the association.

Nearly all old-fashioned Cough Syrups are constipating, especially those that contain opiates. They don't act just right. Kennedy's Laxative Cough Syrup contains no opiates. It drives the cold out of the system by gently moving the bowels. Contains Honey and Tar and tastes nearly as good as maple syrup. Children like it. Sold by R. C. Hardwick.

IN PROPOSED AMENDMENTS TO VOTERS QUALIFICATION.

"Or" For "And," Inserted by Mistake, May Upset The Work of The Legislature.

FRANKFORT, Ky., July 19.—Secretary of State McChesney, in accordance with the law, advertised officially the fact that at the November, 1907, election there is to be submitted to the voters of the state of Kentucky the question of so amending section 145 of the constitution of the state as to provide that the qualification of a legal voter in all elections shall be that at least sixty days before the election at which he offers to vote he has paid in full all state, county, municipal, district and school taxes due by him for the year previous.

The submission of this question to the voters of Kentucky was proposed and adopted at the last regular session of the general assembly. An impression was gotten out that a law had been passed adding this qualification to the other qualifications of a Kentucky voter, but the legislation could only adopt a proposition to submit such a matter to the whole people of the state.

In making up the official advertisement Secretary McChesney noticed that, in enrolling the measure, after passage, for the signatures of the officials of the assembly and the governor, the enrolling clerk used the word "or" where the word "and" is used in the constitution, making paragraph 1 of section 1-5 read that the voter must reside in the state one year, the county six months "or" the precinct sixty days. The adoption of the amendment to the section as proposed would have the effect of giving a voter the privilege of voting after residing sixty days in a precinct, and nullify the provision that he must have been a resident of the state for a year and of the county six months.

# Talmage Sermon

By Rev.  
Frank De Witt Talmage, D. D.

Los Angeles, Cal., July 21.—In this sermon the preacher draws a lesson of universal interest from the life and death of Francis Murphy, the famous temperance evangelist. The text is II Timothy iv, 7, "I have fought a good fight."

Even under the brightest and happiest conditions it is a sad sight to see a great man unbuckle his armor and lay down the battle-axe he has wielded in the front of life's struggle. When John Adams was about to be inaugurated president of the United States the assembled multitude had no cheers and vociferations for the new chief. Their thoughts were with the retiring leader. There were sobs and aching hearts for him who was to lay down the tasks of public life after forty-five years consecrated to his country's service. All eyes were focused upon the tall, commanding figure of him who would henceforth be known as "First in war, first in peace and first in the hearts of his countrymen." When John Adams lifted his hand over the sacred book and took the oath of office George Washington slowly turned to go into the house and efface himself from public notice. The people followed him with moistened eyes and tear-stained cheeks. A great man went over the assembled hosts, like the murmurings of many waters. He turned in the doorway and looked back a moment and then waved a silent farewell. And all up and down the lines went the valedictory: "God bless him! God bless him! God bless him!"

When Andrew Jackson handed over the reins of government to Martin Van Buren and started home, his journey to his beloved Hermitage was like a long funeral procession. The people came out from the towns and villages and cities to greet him. Every one wanted a last look at the face of their late ruler. With his white hair, tall, lithe form and stern features, he towered above the people who crowded around him. But wherever he looked he saw only men and women who were regretting the day that this sagacious American was no longer to lead them in the councils of peace and of war.

When William E. Gladstone, after half a century in the service of his country, resigned the premiership and passed out of the house of commons for the last time, all the members arose and uncovered. Those men, no matter to what political party they belonged, knew that a political genius and one of the most sagacious statesmen the British empire had ever produced was about to leave the public arena and pass the Indian summer of his earthly life in retirement. His party knew that there was no one to fill his place, and they lamented his going.

## A Rest Well Earned.

After a great leader of men has been working for the good of his fellow countrymen for twenty or thirty or forty years the world may regret to lose his services, but it has to bow to the inevitable and recognize the right of the tired worker to rest. "No! No!" says the world, "though we may grieve much to see our honored leaders fall out from their places, they have earned their rest and they have a right to peace." So we look upon the Mount Vernons and the Hermitages and the Hawardens as the havens and harbors of life, where tired men can rest and be at peace with those who love them and whom they love.

Now, the true Christian looks upon death as a going home to receive his eternal reward. When Paul said: "I have fought a good fight, I have finished my course, I have kept the faith. Henceforth there is laid up for me a crown of righteousness," he meant simply this: "Friends, for years I have been engaged in an exhausting struggle, I am physically worn out, I am looking for the reward Christ promised. Let me go and be at peace with Christ, which is far better." So we have a right to look upon death today not as going down into the grave, but as ascending to a throne. It is going home. It is going to one of the mansions of heaven which Christ has prepared for those that love him.

I was never more impressed with this fact than when I sat by the bedside of the modern apostle of temperance, Francis Murphy. He was one of the great temperance leaders of this country. We mourned his falling strength. His work seemed to be so important. It did seem as though we could not give him up; but, as the time came for his departure, I visited him and prayed with him. Then after I had finished, with his weak voice he continued my prayer as follows: "O God, I thank thee that I have not an enemy in all the world. I thank thee that the world is filled with good people. If it be thy will, let me go back to my work, but if not, I have so many dear ones on the other side, take me to them and to thy glory." Yes, Francis Murphy, we know what was in your heart. Lying upon your sickbed, you could see the dear departed friends coming out to greet you. You could hear the heavenly chorus chanting a welcome for your celestial advent. Your death was not to be an obliteration. It was to be an ascension, a coronation, an enthronement. Hail, thou ascended spirit! We today rejoice with thee in thy heavenly rapture. Hail, O thou enthroned warrior! Hail!

When Stonewall Jackson, the chival-

rous Philip Sidney of the Confederate army, was dying, shot by the bullets of his own men at Chancellorsville, he had a beautiful vision of heaven. He saw a smooth flowing river, where he could moisten his parched and fevered lips. He saw his loved ones on the opposite bank waving to him in salutation. And in rapture he raised himself and cried out: "Let us pass over to the other side and rest under the shadows of the trees," and then fell back dead. So Francis Murphy, during his last days of earth, caught a glimpse of the trees of life growing by that river which is clear as crystal, proceeding out of the throne of God and of the Lamb. He wanted to go over and rest. He said: "There are so many dear ones beyond. O God, if it be thy will, take me to them and to thy glory." Yes, today thy prayer is answered. Thou art with thy departed kindred and friends. Thou wilt stay with them until the time comes for us to depart, and then thou wilt come forth to greet us, as they came to greet thee.

Now, today I am not going to preach a funeral sermon. I am not going to sound a dirge or ring a death knell. But I am going to strike up a hallicutah chorus. If the cold lips of our loved friend could speak, I know he would have me do as I am doing. There was not a minor key in all his music. And so today, instead of talking about how bad we feel at his going, I am going to try to analyze the power of this one of the greatest temperance workers of our time, so that we may be encouraged in our work for the same Master and be stimulated to more vigorous effort by the example of this strenuous leader.

## A Noble Man.

In the first place, I would place my finger upon the greatest source of Francis Murphy's power and tell you that the chief reason why this successful temperance worker won so many trophies for the abstinence cause was because he believed in the nobility of man. He believed that, no matter how flagrant the sins of the social outcast, no matter how low or vile a human being had become, deep down in that human heart were some remains of the image of God. Murphy never despised of any human being, however drunken or degraded he might be. Here was a man—one of the race Christ came to save—and he believed that Christ could save him. The degrading obstacle of his thirst for liquor stood in the way and therefore Murphy tried to remove that, so that the power and influence of Christ could reach the poor, helpless creature.

It does not require very much genius to find flaws in a man's nature. It does not require wonderful erudition to magnify the faults of mankind. Any herd of swine can root out a flower garden, if it is possible for them to squeeze through a gap in the fence. It does not take much of a frost to kill all the fair apple blossoms in the springtime; neither does it take much labor to develop a field of Canada thistles in the place where wheat and corn and barley ought to grow. But it does take the genius of a horticulturist to find latent buds and develop them. It does take agricultural acumen to put the right kind of fertilizer on the ground after the spring plowing. And it does take the marvelous grace of God to find the latent buds of purity and truth and love and honor in the corrupt heart of man and to develop them aright for God. And this is always the work of a successful evangelist of Christ. This was the secret of Murphy's success. He believed in Christ and he believed in men. Did not Fanny Crosby, the Christian hymnologist, have such a worker as she in her mind when she wrote these impressive words:

Down in the human heart, crushed by the tempter,  
Feelings lie buried that grace can restore;  
Touched by a loving heart, awakened by kindness,  
Chords that were broken will vibrate once more.

And parallel to this same line of thought was another fact which inspired Francis Murphy to seek the most depraved of men. He knew that the victim of the intoxicating cup was in many cases a man worth saving. The very characteristics of the man that had led to his degradation—his gentleness, his good fellowship, his friendliness—were the characteristics that would make him a successful worker if he was delivered from his thralldom. The intensity and zeal that made Saul a persecutor were traits which made him a successful apostle when he was converted. And Francis Murphy had arrived at this belief by looking at the history of his own life. Have you ever heard him describe the tragedy of his wrecked home? When the civil war broke out, he, like other Irishmen, was eager to take part in it. At the bugle call to arms he shouldered the musket and went to the front. He was not struck by the enemy's bullets, but, like Alexander the Great, he was overthrown by the temptations of the camp.

## Murphy's Temptation.

Then after the war was ended in order to make a living for his little family he took charge of a hotel in Maine. In other words, the devil knew the man's weakness and led him into the occupation that would develop it. He put a whiskey bottle into his hand and said to him: "Drink until your manhood is gone. Drink until you come home to your wife and babies with the fierce passion of a brute. Drink until the vilest sot in the gutter is no viler than you." And with that strong personality of his, he never did anything halfway. He drank until he went down, down, down into the lowest depths of degradation. When the change came and Murphy "came to himself," like the prodigal, he could not forget the pit from which he had been lifted. As he looked on the sodden, depraved wretches who were brought to

his meetings he saw in them the Murphy of the gutter and said to himself, "The power that delivered me can deliver even this poor creature," and he went to work with confidence for the man's reformation. Would to God that some of the men whom he was instrumental in saving might take up his work and that man might have reason to say, "the power of Elijah doth rest on Elijah."

But there was another fact about his wonderful life that has made Francis Murphy one of the greatest temperance advocates of his time. He not only believed in man, but he was ready to thank God for all the divine blessings with which he was surrounded. It is a whole life after his conversion and consecration to the divine Master was a continual service of praise. He always commenced his public services with the coronation hymn, and he always closed with the doxology of "Praise God, from whom all blessings flow." Wherever you met him, on the street, or in the home, or in the church, or anywhere, the two words which were most often upon his lips were: "Thank God! Thank God! Thank God!" Sometimes, like a bashful boy, he would slip into his meetings hoping that I should not see him. He seemed to long sometimes to worship in the audience and not be called to the pulpit. He would come in quietly and stay hidden until some word of Scripture or of prayer touched him. Then, before he knew it, a "Thank God!" would be ringing from his church pew. Then every one would smile and say, "That's Francis Murphy," because no one could ever say "Thank God!" just as Francis Murphy did. During all his last sickness, in his delirium, he would keep rubbing his hands and with a sweet smile keep murmuring, "Thank God!" Why, do you know, I have heard him say "Thank God!" so much that I believe he has got me into the same glorious habit of thanking God for everything. And whereas I used to count my troubles and name them one by one, now, under the influence of that sainted spirit, I have begun to count my blessings. And as my blessings are crowding me in multitudinous numbers, I am saying, "Thank God!"

## The Secret of His Strength.

But, leaving aside these personal incidents, we would take a step forward and analyze the direct cause of his work as a temperance reformer. How did Francis Murphy win thousands and tens of thousands to the better life? Through equanimity, empathy, and overwhelming driving home to the sinful heart man's direct responsibility to God. He was saying: "Christ came to save you. Christ will save you. Christ will save you now. By his help will you come forward and sign the pledge and make a covenant with Christ?" He did not bother much about prohibitive laws. He did not seek much through legislative halls through the legislative halls of our state and national capitals. If it is to be saved at all, it must be saved by the saving power of Christ and the influence of the pledge. Do you suppose you could make this a Christian nation merely by passing strict Sabbath laws or by building new churches on every street corner? No. Temperance laws are right in themselves. But, after all, the noblest work of the temperance reformers of the future is to do what John B. Gough did and Jerry McAuley did and Samuel Hadley did and Francis Murphy did, and that is to bring sinful man by the old fashioned plow in touch with the saving grace of our Lord Jesus Christ.

## He Set Them to Work.

But there is one more thought that forces itself upon me. Francis Murphy became the successful temperance reformer because no sooner did he win a convert and get a man to sign the pledge than at once he got that man on his feet and brought him to the platform and made him go to work and save other drunkards. No sooner did Francis Murphy get a Gospel grip upon a man than at once he pulled him upon his feet and made him go to work for temperance. My brother, can we not today learn that divine lesson? Can we not learn that we are developed spiritually not more by what Christ does for us than by what we are willing to do for Christ?

feel in this service as the disciples of did must have felt when they were in the upper chamber in Jerusalem awaiting the coming of the Holy Spirit after the ascension of Christ from Mount Olivet. They were not there to mourn their departed Master. They were there to get inspiration for their work. So it should be with us when any successful worker drops out of the ranks. His labor is finished, but the work is not completed. Who will take it up and carry it forward? May we consecrate our lives to the great temperance work as never before. May we say, "God helping me, I will live for the purpose of saving men clear down in the mire of sin, as I have never done before." Do you say that? Then, my friends, I think the spirit of Francis Murphy is descending upon us.

The Christian County Teachers Institute will be held in Hopkinsville next week. The opening session will take place on Monday, July 29. All the white teachers in the county will be present. Attendance, under the school laws of Kentucky, is compulsory, but, if this was not so, the teachers would attend in large numbers for there is every promise that the institute will be one of the most profitable and enjoyable ever held in the county.

Instead of one instructor there will be two, Dr. J. C. Willis, president of the University of Louisville, and Miss Avis Westcott, of Minnesota, alternate in this capacity. Both are leaders of experience and delightful and instructive speakers. There will be no set program. The instructors will lecture, give advice and information on all subjects pertaining to school work, and queries will be an important feature of each session.

On Tuesday night, at the courthouse, there will be an entertainment in which the public will be especially interested. Supt. Gray has engaged for the Centennial Lyceum Bureau the service of David Morrow Proudfit. As an entertainer he has a wide reputation.

The bureau says of him: "Prof. D. M. Proudfit has a very strong and pleasing personality. He is 'different.' His success as a musical humorist, both east and west, has been decided. It began before his college days were over and has been steadily growing ever since. His impersonations and 'fiddlin' never failed to win the most satisfying applause and approbation. He will delight all lovers of the violin. His playing of the old-fashioned tunes after the manner of the old-time fiddler always puts feet to going and sides to aching with laughter. In addition to his talent he is a thoroughly educated and cultured gentleman, and we bespeak for him a hearty reception wherever he may appear."

Owing to the expense of having two instructors for the institute, the engagement of Prof. Proudfit and for the benefit of the institute generally, there will be a general admission fee Tuesday night. The courthouse should be packed with people.

### "LORD" BARRINGTON RESPITE.

JEFFERSON CITY, Mo., July 24.—Gov. Folk granted a respite of thirty days to "Lord" Frederick Seymour Barrington, under sentence to be hanged at Clayton, Mo., on July 25, for the murder of Jas. P. McCann.

Gov. Folk gave as his reason for granting the respite to Barrington that he desired to have time to fully investigate and consider a petition presented by State Supreme Judges Graves and Valliant for commutation of Barrington's sentence.

John and Ameleck Brooks, brothers, convicted of murder and sentenced to be hanged at Ironton, Mo., on July 25, were shown clemency by Gov. Folk, who today commuted their sentence to life imprisonment.

The arrest, which was made at the instance of Mayor Bingham, caused a tremendous sensation. Mr. Semonin furnished bond in \$25,000 within a short time after his arrest.

YES,  
One Month Free

In order to demonstrate that we get more positions and better positions for young men and ladies who attend our college than any other institute of the kind does for its pupils, we unhesitatingly take pleasure in allowing those who are contemplating entering our school for a period of one month FREE, in order to show honest and energetic boys and girls what we can do for them.

This proposition holds good for thirty days to those who have never studied Book-keeping, Shorthand, Telegraphy and Typewriting with any other person or institution, by writing a letter which will meet the approval of

### STAMP OUT LAWLESSNESS.

How long, O Lord, how long?

Isn't it time for the authorities to put an end to night riding in this region? How we used to boast of our cultivation, enterprise and good citizenship, and point the finger of scorn and righteous indignation at the feud-ridden district of Kentucky!

And now we can only blush and hang our heads in shame when lawlessness is talked about. Anonymous threats, visits of intimidation, plant bed scraping and the destruction of property were bad enough in all conscience to call for the condemnation and deprecation of every decent man and the earnest and tireless efforts of officials to suppress. But matters have gone on from bad to worse. Men have been taken out and made to suffer the torture and indignity of the rawhide; dynamite has been fed to threshing machines without regard to the desperate danger to life and limb; but unspeakably terrible is the firing of guns and pistols by human devils into houses in which families, good women and innocent children, lie sleeping. That a few men might be low and depraved and brutal enough to engage in a murderous enterprise of the sort which lately have been shocking all who hear of them might not be a great surprise, but that scores of men, banded together, are the perpetrators must stun and sicken every law-abiding citizen. When the rights of the individual are denied, when the sacredness of human life makes no appeal to these terrorists and when the law is despised and spit upon, there should be no more dallying. The men who are sworn to enforce the laws should do so, or be made to do so. The whole system of night riding is evil, and officials and citizens alike should join together and end its horrible existence.

All the women were drowned and the men saved themselves in the boats and on rafts. The collision occurred at midnight when all on board save the lookout and officers on the bridge were asleep in their births.
