### THE SENATORIAL RACE.

The recent move by Governor McCreary on the political checkerboard in the First Judicial District, to our mind, has brought about quite a change in the strength of the three Senatorial candidates among the people of this district.

The race for some time past in these five counties has been between Mr. Beckham and Mr. Stanley, with Gov. McCreary a reasonable following; but since the death of Judge Bugg and the appointment of a Circuit Judge and Commonwealth's Attorney in this district, the political aspect in the Senatorial race has been materially changed.

Notwithstanding Governor McCreary has had some valiant supporters in Graves County, yet when it comes to giving out political pie he has paid very little attention to the overtures of his friends. In the state primary election of 1911, he had the strongest opposition in this county, perhaps, of any other county in the state, yet, by the unceasing work of his friends, he came out of that election with 1,315 majority, after the Addams forces had spent many hundreds of dollars in boosting his claims for the nomination for Governor.

In Hickman County, the home of H. L. Smith, he only received a majority of 375, yet the Governor saw proper to accept the resignation of a good Commonwealth's Attorney and appoint him Circuit Judge, thereby creating a vacancy in the office of Commonwealth's Attorney, which was entirely unnecessary, and then appointed our fellow townsman, H. J. Moorman, to fill the vacancy caused by the resignation of Mr. Smith.

This juggling in politics, no doubt, will bring about quite a change in the vote in this district for the United States Senate at the August primary election.

Mr. Stanley, from some cause, has lost his power in this county as a candidate, and Mr. McCreary has lost many of his good working friends, thereby losing the county himself. All of this will strengthen the forces of Mr. Beckham.

The friends of Mr. McCreary, to our mind, will have a pretty tough job in maintaining his original strength, at least, in this Judicial District.

Graves County is a big Democratic county, but from some cause the Governor has never felt very kindly to the many requests of his friends, in asking appointments to important places, during his administration.

Of course we have no objection to his appointing our friend, Mr. H. J. Moorman, Commonwealth's Attorney, when that office was vacant, but the people complain at the Governor for making the office vacant and turning down the application of Judge Bunk Gardner, of this place, whom it is said by the Governor, was the strongest endorsed man, perhaps, that ever applied to him for public recognition.

Hon. Gus Thomas, Hon. J. T. Webb, and Hon. W. H. Hester, were also well endorsed, are good lawyers, and would have made an excellent Circuit Judge, but they were from Graves County, and the Governor, from some cause, did not feel disposed to recognize any of these gentlemen for this important place.

It was claimed by some that Mr. Gardner was too young for Circuit Judgeship, when, the fact is, there is only six years' difference in his age and that of Mr. Smith, both being in

the prime of intellectual manhood.

On account of his way of transacting business in the Police Court, and on account of his judgment as to how the business should be transacted in the Circuit Court, Mr. Gardner had become very popular, not with the people of this county only, but with the people of the other counties in this district.

We don't doubt but what Mr. Smith will make a good Circuit Judge; but the point we make is, that he had a good job, to which he was elected by the people, which, together with his practice on the outside, made for himself \$5,000 or \$6,000 each year, and he should have been allowed to fill out his term as Commonwealth's Attorney.

However, since the Governor has seen fit to make these appointments, we predict that his vote in Graves County for the United States Senate will be extremely small, because the people have about made up their minds that during his administration he has cared very little for his Democratic friends in this county, and the indications are now that they will leave him like rats from a sinking ship, and that the probability is they will throw their strength to Mr. Beckham, which will almost insure the defeat of Mr. McCreary in this end of the state.

Mr. Beckham has just been down in this district and repaired his fences, and everything now looks like he will be largely the choice of the Democratic voters, especially in this judicial district.

If the Governor has made any mistake from a "vote-getting" standpoint, he will be the one to suffer by it, but the thousands of Democrats in Graves County will surely turn him down, because of his failure to appoint either Mr. Gardner or Mr. Thomas, Mr. Webb or Mr. Hester, of this county, to the office of Circuit Judge.

This act of the Governor's, the Messenger predicts, will virtually eliminate him from any large vote in this end of the state.

**SYMPATHY FOR EDITOR STOVALL.**  
The press of Florida shows great sympathy for Editor W. F. Stovall, editor and owner of the Tampa Tribune, and a twin brother of Hon. T. L. Stovall, of this city.

Editor Stovall has been, and is, seriously ill at his home, and among some of the expressions of sympathy are the following clippings from Florida papers:

**Bartow Courier-Informant:** "The editor of the Courier-Informant joins with thousands of friends of Editor W. F. Stovall of the Tampa Tribune, in sincere sympathy with him in his present illness and the hope that he may soon be restored to his wonted health and the splendid sphere of usefulness which he so nobly fills."

**Inverness Chronicle:** "Wallace F. Stovall of the Tampa Tribune is lying dangerously ill at the Gordon Keller Hospital in that city, and it is feared he will die. It would certainly be a great blow to the Tribune, Tampa and the whole State should they lose him now, so much has he done for all mentioned. We sincerely hope Mr. Stovall will rapidly recover."

**DeLand Record:** "Col. W. F. Stovall, owner and editor of the Tampa Tribune, lies critically ill and the press of the State is hoping for his recovery."

**Ocala Banner:** "The Tampa Times says that Florida journalism could ill afford to lose Wallace Stovall. We all echo that sentiment. We know of no member of the press that Florida could so ill afford to lose."

The professional card of Dr. L. G. Brown, veterinarian, appears in this paper. He has located at Lowes, where he will practice his profession. He is a capable young man, and will be a useful man in that community. The Messenger wishes him abundant success at his new location.

Do not forget the \$15.00 suit sale at Day's today and Saturday.

## WARNING!

If the young man who bought the pocket knife and stole the pairs of Bicycle Pedals here Monday, does not return them or send us the money, we will appear before the June Grand Jury and have an indictment returned against him for stealing.

WE KNOW WHO YOU ARE, YOUNG MAN!

#### LATEST WAR NEWS.

**VERA CRUZ, April 24.**—(Special to Messenger, 2:30 P. M.)—Army Outposts were pushed five miles farther from the city today. Everything is quiet at this hour.

**WASHINGTON, D. C., April 24.**—(Special to Messenger, 3 P. M.)—It is reliably reported that orders have gone out to the National Guard of all the states, through the state governments to mobilize. The points of mobilization have been selected.

The United States Senate today passed the volunteer army bill, which is designed to put volunteer forces on similar footing with the regular army, excepting that they may disband at the close of hostilities.

The American Embassy at Mexico City is reported to have been burned.

**VERA CRUZ, April 24.**—Marines and bluejackets, Thursday, gained possession of breastworks three miles inland from Vera Cruz. The position is on the railroad to Mexico City and had been in possession of Huerta soldiers since the United States took possession of the city.

One of the American marines was killed during the night by a young bluejacket. The sailor was on sentry duty and became excited when he saw a figure move toward him out of the darkness. He forgot his instructions to challenge three times, and fired immediately, the marine falling dead.

Among the Mexicans wounded in the two days' fighting here were many women and children. Some were killed.

The local White Cross organization—a Mexican organization similar to the Red Cross—is assisting in caring for the wounded Mexicans.

**WASHINGTON, April 24.**—Fighting in the City of Vera Cruz finally has stopped. Rear Admiral Fletcher, by wireless under date of 9 o'clock last night, reported that desultory firing that had continued since the American forces landed Tuesday, had been silenced by a house-to-house search and disarmament of all inhabitants.

At midnight the Navy Department issued the following statement: "Wiring from Vera Cruz at 9 p. m., Thursday, Admiral Fletcher reports that the desultory firing, which was still going on at the time he reported at 4 p. m., had been finally stopped by a house-to-house search and the disarmament of the inhabitants. After issuing his proclamation, Admiral Fletcher had a long conference with the principal city officials, at which he carefully explained the attitude of the United States. He reports that the officials appeared willing to resume their official duties, but that they feared consequences for acts from the Mexicans. Pending their resuming their official duties Admiral Fletcher says he is appointing officers to supervise the administration of the city government.

### FUNSTON COMMANDS; TROOPS MAY MOVE UPON MEXICO CITY

### EMBARGO ON ARMS NOW.

Government Will Not Take Any Chances With Rebels—Reserve Fleet Sent Out.

**WASHINGTON, D. C., April 24.**—United States troops moved last night to reinforce the American navy at Vera Cruz; the embargo on arms into Mexico was formally restored, and troops were ordered to the Mexican border primarily to relieve uneasiness among border residents, but also as a precaution against hostile military operations along the international line.

Secretary Garrison announced that a brigade of infantry and some artillery under Brig. Gen. Frederick Funston had been ordered to embark on the four army transports at Galveston for Vera Cruz to support the expeditionary forces of marines and bluejackets there. The chance that Gen. Maas, the Federal General, might make a return attack on Vera Cruz with reinforcements and the possible necessity of a forward movement toward Mexico City to protect fleeing Americans and the Vera Cruz Railroad were the underlying reasons for the military movement.

The restoration of the embargo on arms was officially announced after the pronouncement of Gen. Carranza, the Constitutionalist chief, that he regarded the seizure of Vera Cruz as a violation of Mexican sovereignty had been considered by the administration. While Mexican Constitutionalist here protested that Carranza's real attitude was friendly, the American Government decided to take no chances, and abruptly stopped the shipment of arms into Mexico.

**Warning to Carranza.** President Wilson earlier in the day had issued a statement warning Gen. Carranza, the Constitutionalist chief, that the United States was dealing now, and would continue to deal with those whom Huerta commands "and those who come to his support."

Both Nelson O'Shaughnessy, the American charge d'affaires, and Senor Algrara, the charge d'affaires of the Mexican Embassy, have been given their passports. This is not regarded by the Washington Government as precluding war, but a declaration of war by Huerta would not be unexpected.

The United States has chosen Brazil to look after its interests in Mexico. Where there are no Brazilian consuls French consuls will act for the United States.

### SURPRISE SPRUNG BY POPULAR CITY COUPLE

James Lochridge and Miss Clare Thorp Wedded Thursday and Left on Tour.

James T. Lochridge, one of the most prominent young men of Mayfield, both socially and in business, was joined in marriage Thursday evening at 6:30 o'clock to Miss Clare Thorp, also one of the best known and most popular young ladies of the city. They had for several years been sweethearts and the wedding at some time was expected, but coming at the time was a distinct surprise and only a very few relatives and friends were aware of the date of the event.

The ceremony was performed by Rev. J. J. Castleberry, pastor of the First Christian church, at the minister's home. The couple left immediately on the 6:54 train for St. Louis, where they will spend several days before returning home to receive congratulations.

The only attendants at the marriage ceremony were Miss Sophia Thorp, sister of the bride, and William Smith, connected with the firm of Lochridge & Ridgway, of which the groom is a member and bookkeeper for the firm. The groom is a son of W. S. Lochridge and is one of the city's most worthy, upright and influential young men.

The bride is a daughter of Mrs. Ella Thorp, of North Seventh street, and has always been prominent in social circles and church work.

### EIGHT FINES IMPOSED IN CITY COURT TODAY

Police court convened at nine o'clock Friday morning and eight fines were dished out with the usual rapidity that has characterized Judge Gardner, in handling that court. Most everyone entered a plea of guilty to being drunk and the usual fee of \$9.40 was doled out to them. One man insisted that he was "drinking" but not drunk, but two officers who arrested the man decided that it was a plain case of intoxication and a fine of \$5 and costs was his portion. Judge Gardner announced to the farmer that most invariably when a person has taken a few long shots at a bottle that he is the hardest person to convince that he had been drunk. Although the defendant stated that he had only taken two drinks, Judge Gardner informed him that it was not a question of how many drinks he had taken, but the effect that they had on him.

One man who had been arrested for the same offense and had abused the arresting officer, Jim Byrn, was allowed to pay ten dollars and costs, or \$14.50 for the extravagant use of his tongue last Monday.

**TROUBLES IN THE COLORADO MINING DISTRICTS CONTINUE**

TRINIDAD, Colo., April 24.—After announcement this afternoon that all the women and children entombed in the wrecked Stope Empire mine had been removed in safety. The news came that the Southwestern mine had been razed and twenty more miners and their wives and children and a number of guards had fled into the mine entrance to escape a hail of lead. The known death list last night, as a result of the fighting started Monday and continues almost ever since, is twenty-one.

The strikers today cleared away the wreckage at the mouth of the Empire mine, and after a parley with the entombed prisoners, conducted three women and two children and Superintendent Waddell to safety. J. W. Siple, president of the company, and whose properties have been almost completely destroyed during the outbreak, and who has been in the mine since yesterday, with twenty of his men, refused to surrender.

Trinidad is crowded today with hundreds of refugees.

A general funeral occurred today of the sixteen who lost their lives at Ludlow.

**VILLA IN JUAREZ ANNOUNCES HE DECLINES TO BE DRAGGED INTO WAR WITH THE UNITED STATES**

EL PASO, Texas, April 24.—Gen. Francisco Villa, head of the rebel military forces, who came to Juarez, Mex., yesterday afternoon at 4 o'clock, later informed George C. Carothers, special agent of the State Department, that he declined to be dragged into a war with the United States by anybody. He said that he wasn't consulted in the drafting of the Carranza note. He also said that one chief reason he had come to Juarez was to show the American people his attitude was friendly, and he added that he didn't fear to trust himself on the border without a military escort behind him. Villa brought only about twenty-five men with him, which gives strength to his statement. His coming had not been announced so far as is known. He was given a most cordial welcome, though a rather subdued one, for it was not known why he had returned to the city, and some uncertainty attached to his coming. He found Juarez very quiet, with all the saloons and the gambling halls closed.

Traffic With Juarez Closed.  
 As a precaution against disorder, which strenuous efforts are being made to prevent, both here and in Juarez, traffic into the latter city was stopped last night at the request of the rebels.

A squadron of the Twelfth Cavalry and a battalion of the Twentieth Infantry, and Battery C of the Sixth Artillery, came into the city from Fort Bliss late yesterday. The battery was posted at the international bridge, while the soldiers will reinforce another

battalion of the Twentieth Infantry, which has been on duty here for some time.

Rheumatism After Doctors Failed.  
 If you have tried many other remedies and doctors' treatments for Rheumatism and found they failed, do not be skeptical about trying RHEUMA. Read the testimony of Judge John Barboost of Fort Loran, Mo.

"After treatment by three doctors without result, I have been cured of a very bad case of Rheumatism by using two bottles of RHEUMA. It is now two years since I used the remedy, and I am still as well as ever. Previously I was a cripple, walking with crutches."

Such testimony should be convincing. 50 cents of Evans & Covington.

**WILSON REITERATES PURPOSES TOWARD MEXICO FRIENDLY**

WASHINGTON, April 24.—President Wilson issued the following comment on the Carranza statement: "I wish to reiterate with the greatest earnestness the desire and intention of this government to respect in every possible way the sovereignty and independence of the people of Mexico.

"The feeling and intention of the government in this matter are not based upon politics. They go much deeper than that. They are based upon a genuine friendship for the Mexican people and a profound interest in the re-establishment of their constitutional system.

"Whatever unhappy circumstances or necessities may arise, this object will be held steadily in view and pursued with consistent purpose, so far as this government is concerned. Dealing Only With Huerta.

"But we are dealing with facts. Wherever and whenever the dignity of the United States is flouted, its international rights or the rights of its citizens invaded, or its influence rebuffed where it has the right to attempt to exercise it, this government must deal with those actually in control.

"It is now dealing with Gen. Huerta in the territory he now controls. That he does not rightfully control it does not alter the fact that he does control it. We are dealing, moreover, only with those whom he commands and those who come to his support. With these we must deal. They do not lawfully represent the people of Mexico.

"In fact, we rejoice, because our quarrel is not with the Mexican people and we do not desire to dictate their affairs. But we must enforce our rightful demands upon those whom the existing authorities at the place where we act, do for the time being, represent."

After issuing this statement the President cancelled routine engagements for the day to devote his attention to the Mexican situation.

**WINGO JUDGE CARRIES THE LAW INTO EFFECT**

(Wingo Post.)  
 Robert E. Lee, a negro, was arrested Sunday afternoon by Judge J. H. Humphreys for carrying concealed weapons, and placed in the lockup. His trial was held at 8 o'clock Monday morning, when he plead guilty, and his fine was fixed at \$25 and ten days in jail.

The arrest was made by Judge Humphreys owing to the fact that the regular marshal was out of town, and his deputy was passing the afternoon with his intended better half.

The prisoner was searched and a revolver and a razor found on his person. He had to be held at the jail for some time before the key to the building could be located. Lee is from Paducah and is said to have a sweetheart here.

Why the REVONOC OIL STOVE is the Finest Cook Stove on the Market Today. For the reason that it burns 400 gallons of air to on gallon of common kerosene oil.

Makes a large amount of Blue Flame in direct contact with cooking vessels. The flame is only three inches from the vessels, while in all other oil stoves the flame is eight inches.

It automatically generates gas, from kerosene, as the flame or work increases, the consumption of air automatically increases with it.

It is the most satisfactory Cook Stove, as it will cook a meal in about one-half the time, and at about one-half the cost of any other.

It is easily operated and controlled. Brass direction plate on every burner. It has square top grate, giving 50 per cent. more cooking capacity. It is made of Steel, Cabinet style.

Porcelain Enamelled Burner Drums, heavy Solid Brass Burners. With Large, Free Oil C annels, warranting perfect fl w and feeding of oil. Clogging and similar troubles impossible in this stove.

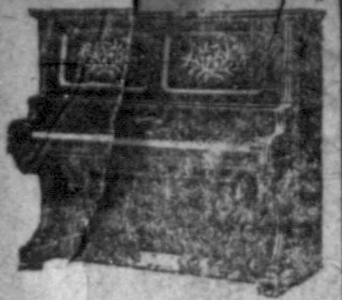

When you get ready to buy an Oil Stove ask you satisfied neighbor, who has been using one of these stoves, and they will tell you that they would have no other Stove, as the REVONOC is perfect in every particular, and is superior to all other stoves.

Call and let us demonstrate OUR STOVE before you buy, and show YOU the advantage of the REVONOC STOVE, as it is no trouble to show goods.

**MARSHALL CO. MAN BRINGS 10,800 EGGS**

Marshall county hens have not quit laying just because the price of eggs has dropped, if the number brought to Mayfield Wednesday by H. R. Chester, of Marshall county, should be any criterion. Mr. Chester came over in a wagon, bringing thirty cases, of thirty dozen each, making a total of 10,800 eggs. He said that he came over the bad roads for quite a distance and never broke an egg, but just as he reached the good part of the road, which was at the iron bridge east of Mayfield a case of eggs dropped off the wagon—and broke about three-fourths of the case of eggs. There were several negro boys fishing near the bridge and when they saw the eggs scattered about the road they ceased fishing immediately and when they got tangled up among the hen fruit in such a desperate scramble there were plenty of scrambled eggs in the road. Mr. Chester became so amused at the actions of the colored lads that he forgot all about his loss and drove away with the boys enjoying an egg feast.

**STRICTEST CENSORSHIP EXERCISED BY HUERTA OVER TELEGRAPH WIRES**

MEXICO CITY, April 15.—Via Havana April 22.—The following dispatch was sent by mail to Havana in order to avoid the censorship established by Gen. Huerta, which is more strict than at any time heretofore.

Every telegraph wire out of Mexico City—commercial, railroad, or cable—is now watched over by a censor chosen from among the most reliable and intelligent men in the Government telegraph service. These censors frankly inform would-be senders of dispatches that it is not a question of the veracity of messages, nor whether they disclose military movements, but is merely a question of suppressing all news not favorable to the Government. Code messages are absolutely prohibited, with the exception only of bank telegrams. The bankers of Mexico succeeded in having the embargo on these messages raised, but only after they had proved that the detention of the dispatches would seriously embarrass the financial department of the Government.

Newspaper correspondents were given to understand that if they were detected in using subterfuges to evade the censorship they would find themselves in jail. While Nelson O'Shaughnessy was acting as the messenger of the United States Government to Provisional President Huerta in the endeavor to avert war between the two countries, more than 99 per cent. of the Mexican residents in the Federal capital went about their affairs in total ignorance of the crisis.

Gen. Huerta and his official family cleverly concealed even from their intimate friends all knowledge of strained relations between Mexico and the United States. The general public was even more in the dark, since the newspapers published columns of glowing accounts of victories by the Federal armies in the north.

Reports of Federal successes said to have occurred at places far beyond the limits of the telegraph lines were printed broadcast. One dispatch announced with great display that Gen. Villa had been captured.

The railroads ceased some time ago carrying freight to the north, as the limited supply of fuel oil on hand made it necessary to conserve it for the movement of military trains.

**Zapatistas Feared.**  
 Considerable apprehension has been aroused in the capital by the movements of Emiliano Zapata, the rebel leader in the south, who, after gaining undisputed possession of the state of Guerrero, with the exception of the port of Acapulco, has shown indications of moving northward.

The southern rebels have recently gained considerably in numbers, and it is feared they may become formidable enough to venture an attack on the Federal capital.

**WAR NEWS FROM VERA CRUZ ATTACK**

**Marksmanship Perfect.**

A steady rain of shot from the guns of the Chester, the Prairie and the San Francisco rained against the walls of the academy. Shell after shell was dodged until great gapping holes appeared. Through those holes shells were placed with mathematical precision and the evacuation of the building forced.

At 10 o'clock only desultory firing was heard.

Several battalions of bluejackets had forced their way along the water front to the southern end of the city, and opposition to them came only from high towers. A number of streets were closed by the marines, but sharpshooters continued to harass them at short intervals.

Buildings along the water front were pounded by the Chester's guns, and shells flying over the heads of the land forces were striking everywhere with greatest precision. It was shown how well, how effectively the men of the United States navy can shoot. The marksmanship was perfect.

**Resistance Was Desultory.**

The general movement from all positions begun yesterday was continued toward the Plaza Constitutional, while marines under Lieut. Col. Wendell C. Neville moved southward along parallel streets toward the center of the city. Lieut. Commander Buchanan of the Florida, and Lieut. Commander Keating of the Arkansas advanced from their positions of last night and marched on the Plaza Constitutional. The two forces swung forward at a

charge for a distance of three long city blocks. Machine guns fire was supplemented by discharges from the smaller guns of the Prairie and Chester supporting the movement of clearing the roofs to the south and east of sharpshooters.

Lieut. Commander Buchanan's men, commanded by Lieut. Guy W. O. Castle took a position one block east of the plaza. Marines and bluejackets carried with them field pieces.

Nowhere was organized resistance met, only the desultory or at times rapid fire of sharpshooters. Always it drew a merciless fire from the Americans.

Everywhere machine guns were sending out their metallic clatter, but they were American machine guns. American sharpshooters posted at street corners and other places of vantage picked off their men.

**BATTLE OF MONTEREY.**

BROWNSVILLE, Texas, April 23.—According to dispatches received in Matamoros, opposite this place, fighting continues at Monterey between Federal and Constitutionalist forces. It is stated the fight has been carried into the streets of Monterey proper.

Gen. Jesus Carranza, brother of Venustiano Carranza, head of the Constitutionalist movement in Mexico, in an interview here today, is quoted as saying that while he, of course, did not like to see the American flag over any portion of the Mexican republic, he felt certain the taking of Vera Cruz by American forces was an act against Victoriano Huerta and not against the Constitutionalist forces. Gen. Jesus Carranza, who is military commander of the Constitutionalist at Matamoros, opposite Brownsville, said there was, in his opinion, no need for fear of any outbreak by Mexicans in Constitutional territory against the United States.

**VILLA AT CHIHUAHUA.**

JUAREZ, April 23.—Gen. Villa did not arrive here today as has been expected, and it was said his visit might be indefinitely postponed. Villa is at Chihuahua, and had announced that he was coming here to visit his wife.

Only a few refugees came today, but a general exodus is expected. Americans at Parral and Santa Barbara, Mex., were instructed to come to the border today.

**COMPROMISE OF INSURANCE MUSS SEEMS DOUBTFUL**

**Insurance Men Decline to Accept State's Proposal.**

**ANNULLING OF GLENN LAW**

**Not Regarded, It is Said, by Insurance People as Enough. Fight Inevitable.**

LOUISVILLE, Ky., April 24.—The fire insurance situation in Kentucky began to take on an ugly look Thursday morning when it was announced that the effort to compromise the existing difficulties had failed, because of the demand of the insurance companies that a pledge be given that not only should the Glenn bill be abandoned, but that the much more moderate Zorn bill of 1912 be repealed also.

State officials say that this demand is tantamount to a stipulation that the state promises to give up all kinds of regulation of insurance rates and leave the companies free to impose any rates they desire, although the Supreme Court of the United States held in a decision rendered Monday, that the states have authority to regulate insurance rates.

Despite the failure to reach anything approaching an agreement there are still hopeful spirits among the Kentucky business men who have been working to secure an adjustment and some of these predict that new proposals will bring concessions from both sides and that an agreement will be reached.

In the meantime the companies refuse to write any fire insurance in Kentucky, and, as one man put it, have placed the entire State of Kentucky in a blockade. Fire insurance policies upon millions of dollars' worth of property will expire in a few weeks and the situation is considered grave.

The negotiations Wednesday were conducted between Gov. James B. McCreary, Attorney General Garnett, and State Auditor Bosworth for the state, and five men from the East, representing the insurance companies. Frank M. Gettys, John W. Barr, Dr. Henry E. Tuley, C. M. Bullitt, and Logan C. Murray were at the Seelbach Hotel, representing the business interests of the state upon special delegation from a state conference of business men.

It became apparent that the state officials had come to the meeting prepared to make ample concessions. The Glenn bill, the passage of which caused the fire insurance companies to leave the state, was virtually abandoned. Attorney General Garnett is known to believe that act is invalid. The state officials offered to suspend the enforcement of the Glenn bill until such time as its legality could be tested in the courts, and, although no written assurance was given, it is said to be certain that should this agreement be made and the courts later declared the Glenn bill valid a special session of the Legislature will be called to repeal that act. The state officials also offered to proceed with the enforcement of the mild Zorn bill of 1912 in a reasonable spirit, and to defer any regulatory action of a drastic nature until the whole insurance situation could be investigated.

Much to the surprise of those who believed that sweeping concessions of this kind would settle the quarrel, the insurance companies rejected the proposition outright, and came back with a demand that not only should the Glenn bill be done away with, but that the state officers should undertake to pledge that the Zorn bill would be repealed at the next session of the Legislature. This the state officials declared to be equivalent to surrendering the state's power to regulate rates.

After further discussion the meeting adjourned. The state officers put their proposals in writing, including the agreement to suspend the enforcement of the Glenn law, pending a decision of the courts upon its validity. No final answer was given, and the conference broke up.

At 9 o'clock Thursday morning Gov. McCreary left for Frankfort to resume his senatorial candidacy, while Attorney General Garnett left for Washington to argue a state case before the Supreme Court. State Auditor Bosworth remained in Louisville to receive any further communication the insurance companies might make.

While admitting the possibilities of an eleventh-hour agreement, the state officials seem to believe that the situation is tense and that a prolonged fight is in prospect.

### AMERICAN EMBASSY REPORTED BURNED

(Continued from Page One.)

centrating at the embassy for mutual protection.

The state department has been advised that between 800 and 1,000 American citizens are still in Mexico City. At the embassy is a guard of between 60 and 200 marines. These the department said, would be able to protect Americans from any mob violence, but would not be able to stand an attack by a considerable number of troops.

The department announced that the last message from Charge O'Shaughnessy was that he expected to leave Mexico City last night or today. He could by no means have reached Vera Cruz today, it was stated.

**More Americans Killed.**

WASHINGTON, April 24.—Secretary Daniels last night received a message from Admiral Badger saying three more men had been killed and twenty-five wounded in the Vera Cruz fighting. He said he landed one battalion and that the forces now ashore number fifty-four hundred. The landing party now occupies all the city, with outposts stationed on sand hills.

**Forces Concentrate.**

VERA CRUZ, Mexico via Galveston, Texas, Thursday.—American, English, German and wealthy Mexican refugees from Mexico City, who were marooned west of the bridge destroyed by Huerta's soldiers after their flight from Vera Cruz, have reached this port.

In the party are 250 Americans, 50 British, 75 Germans and 300 Mexicans. Mr. Holden, first secretary of the British legation in Mexico City, accompanied the party. Mr. Holden will return to Mexico City tomorrow.

The arrival of the party was received here with great thankfulness by all foreigners, as fears for their safety have been held for several days.

Refugees reported that at the time of their departure from the Mexican capital, conditions there were not unduly alarming. They have no news from Mexico City, however, since they departed from Buena Vista Station.

Three hundred of Huerta's soldiers, they reported, are camped 16 miles from Vera Cruz, and Brig-Gen. Maas has concentrated about 500 of his men at Siledad, 42 kilometers west of Vera Cruz.

The first knowledge of the whereabouts of the marooned refugees was received here by Vice Admiral Craddock of the British navy, who received information that the train had been stopped west of a destroyed bridge. Vice Admiral Craddock requested permission of Rear Admiral Fletcher to send a train with a small unarmed escort of British marines to the point and bring the refugees to safety at Vera Cruz. Permission was immediately given, and today the party arrived at the terminal station here.

Rear Admiral Fletcher will send his chief of staff westward with the returning train tomorrow to meet Nelson O'Shaughnessy, American charge d'affaires, who is leaving the capital for Vera Cruz.

Reports of the taking of a large amount of railway equipment by the American forces of occupation when they seized the railroad yards were officially denied by Rear Admiral Fletcher tonight. Most of the rolling stock, he said, had been carried away by the Mexicans before the American force was landed. When the railway yards were seized there were a number of cars there, but the Mexican had carried away all the locomotives except two—a broad gauge belonging to the Mexican Railway and a narrow gauge engine belonging to the Mexican Inter-oceanic.

### COURT OF APPEALS AFFIRMS MURDER CASE

Charley Jones, Who Killed Gholston Hendon, Will Have to Serve His Sentence.

FRANKFORT, Ky., April 24.—The verdict of manslaughter and sentence of from two to twenty-one years, returned against Charley Jones, colored, in the Graves County Circuit Court, for killing Gholston Hendon, colored, was affirmed by the Court of Appeals this morning in the opinion of Judge Carroll. "The weight of the evidence shows that the homicide was committed in self-defense," said the court, "but when the evidence is conflicting and it becomes our duty to review the finding of a jury upon questions of facts, we are reluctant to disturb their conclusion when no error of law has been committed and no facts appear to show that the party did not have a fair trial."

### SUES FOR DIVORCE.

A suit for divorce has been filed in circuit court by Eliza J. Gibbs against W. W. Gibbs, the petition stating that they were married December 30, 1898, in Metropolis, Ill., and separated August 29, 1912. The defendant has also been enjoined from molesting or in any way disturbing the plaintiff or her three children. Attorneys Webb & Weeks represent the plaintiff.

A reliable, pleasant-tasting vegetable liquid, Dodson's Liver Tonic is guaranteed without condition by J. F. Wilson, who will cheerfully refund purchase price (50c.) instantly without question in event of any dissatisfaction with the remedy or its results.—Adv.

### SELLS GROCERY.

J. A. Covington, the well known truck gardener and groceryman of the city, who has conducted a grocery at the corner of Seventh and Eighth streets in the north part of the city, for some time, sold his store last Saturday to G. W. Coleman who will continue the business at this place.

### STRAYED.

My chestnut sorrel filly, three years old, shod all around, left my stable Thursday night. Anyone knowing of her whereabouts will be liberally rewarded if returned to Dr. A. G. Taylor, Mayfield, Ky.
