# HENRY BOREN HELD TO GRAND JURY IN SUM OF \$1,000

## EXAMINING TRIAL IS HELD BEFORE CO. JUDGE GREGORY

### Defense Declined to Introduce Any Evidence in Case.

### HENRY BOREN GIVES BOND

### Son of John Newman Says He Saw Henry Boren Hold Father While Walter Stabbed Him.

Henry Boren was held to await the action of the grand jury Wednesday in the sum of \$1,000, which he gave and was discharged. He is charged with complicity in the murder of John Newman, who was killed at Boaz on the evening of August 6, about dark by Walter Boren, son of the defendant. It was charged that Henry Boren held Newman while Walter Boren cut him to death.

The court house was well filled with hundreds of interested listeners when the case was called in its examining trial. Most of the people were from near and Boaz.

The prosecution closed its evidence at 11:20. Court was adjourned until 1:30, when County Judge V. Gregory, before whom the case was heard, made the announcement of holding the defendant in the sum of \$1,000.

The wife and daughter of the defendant sat near him during the trial. The defendant was represented by Attorneys W. H. R. O. and Aubrey Hester and Ben Morris.

Looking after the prosecution were County Attorney F. B. Martin and Commonwealth's Attorney H. J. Mooreman, assisted by City Attorney S. T. Boaz. Attorney Martin questioned all witnesses.

After the commonwealth had closed its side, W. H. Hester, for the defense, announced that they did not desire to introduce any testimony.

The first witness for the commonwealth was Henry Newman, son of John Newman, a victim of the tragedy in which the defendant is accused of being implicated.

Henry Newman stated he was at Boaz on the evening of August 6 and saw the difficulty and that he saw Henry Boren grab hold of his father and hold him while Walter Boren cut him with a knife. He said during the time the two Borens had hold of his father that the latter was yelling, "murder," and that he saw a knife in Walter Boren's hand. The trouble started in front of Henry Boren's home and Charles Boren was killed in front of the gate. He said he saw blood on the paling fence from the top to the ground.

After he saw Charles Boren fall, the witness went to Dr. Wright's home and returned to find his father lying by the railroad track and he lived about three quarters of an hour after he got there, but never spoke a word.

Henry Newman told further of the fight as follows: "I heard Henry Boren say, 'Get him, Walter,' or 'Kill him, Walter,' or something to that effect. The body of my father was lying about fifty feet from the corner of the fence where the fight began and where they were when I went for the doctor. I was on the depot platform when the pistol shot was fired, Charles Boren had been killed before I went to the doctor, for I ran as soon as I saw Charles fall. Immediately I saw Walter and Henry Boren go after my father and I saw Walter cut him. I did not see my father have a pistol, but I saw him trying to get away from Walter Boren. Henry Boren had been on the depot platform with me previous to the trouble. I am not certain but Henry Boren might have said to Walter, 'Here he is, come and kill him.' He said something that sounded like those words.

"At the beginning of the trouble Charles Boren was at Mr. Smith's

house, which is two doors from the Boren house. My father had started to milk and had to pass by the Boren house. My father had two tin buckets, one on each arm. I heard him say to Walter Boren, 'You had better quit throwing rocks at me.' The cutting occurred at the corner of Claud Brown's house. My father wore a shirt and a pair of overalls.

"During the beginning of the quarrel I heard my father say, 'I mean you, Walter Boren; you have been throwing rocks at me.' Walter said, 'Wait, I am coming,' and then my father turned around as Walter and Charles came to him. Charles passed by Walter and got to my father first and in a few seconds I heard the shot fired.

The two buckets carried by John Newman on the fatal evening were here shown in court and then had several holes in them, seeming to have been made with a knife.

Berthel Madden.

The second witness called was Berthel Madden, who told of the affair as follows: "I was at the depot when the fight began and I only saw part of it. I saw Newman shoot Charles Boren and then I went home, but returned in about five minutes. I heard Newman say that some dirty rascal had been throwing rocks at him and if the rascal wanted to throw any more for him to come down there where he was. Then the Boren boys went towards Newman. Yes, I think I saw blood on Henry Boren after the fight."

Fred Watkins stated that he saw part of the trouble in which Newman shot Charles Boren and saw Walter Boren walking behind Charles when it happened.

An important witness was Alex Smith, who told as follows: "I was at home with my brother, Dan Smith, and Walter Boren. Newman passed the house with two buckets on his arms. My house is about 100 yards from where Charles was killed. Newman told Walter Boren to come up there if he wanted to throw any rocks and then Walter started up there. Charles Boren, who was also at my house, opened his knife and ran out and passed by Walter and struck at Newman, and, in about a minute, the gun fired. I went there and saw Charles lying in the road. The pistol was found just outside of Boren's yard. Newman yelled 'murder' and when I looked around I saw Henry Boren standing within a few feet of Newman. Newman got away and ran about 50 or 60 yards."

Smith admitted to hearing Henry Boren the next morning say "that if he had had a knife he would have finished Newman himself." Smith denied having heard Henry Boren say that he (Boren) told Walter Boren to "finish him up, as his knife was too dull."

Smith stated that he saw blood on Henry Boren; also that he heard Newman tell Walter Boren to not come into him.

Dan Smith was called to testify and related about the same version as that given by his brother, Alex Smith. He said as follows:

"I saw Walter have a pistol and hand it to his mother. I saw Henry Boren walked up at the corner where Newman and Walter were fighting and take hold of Newman. I heard some one say 'Kill him' and it seemed like the voice of Henry Boren. I heard Henry Boren say the next day that if he had had a knife that he would have killed Newman himself. I saw Walter Boren throw a rock.

William Sullivan.

Mr. Sullivan was operator at the Boaz depot at the time of the tragedy. He said: "I saw Newman running across the

railroad track with Henry Boren after him, with the latter saying, 'Come on.' Walter Boren was coming behind Henry Boren. I stepped behind the depot at this juncture, fearing that there would be some shooting. I looked there again and saw Henry Boren sitting at the head of Newman, who was lying on the ground, and Walter Boren was by the side of the body. Newman had a knife in his hand, but was unable to speak. He would not release his hold on the knife until I told him my name. I took it from him. I heard Walter tell his father to get Newman's pistol. It was about fifty feet from where Newman fell to Claud Brown's fence, where the fight started."

Warden Whittis stated that he saw Newman lying on the railroad crossing and saw Walter Boren on him. Also he saw Henry Boren there at some time. Whittis said that Newman had a knife while lying on the ground, and that it was taken by Mr. Sullivan. R. A. McCurdy, undertaker and embalmer for W. H. Draffen & Son, said that he dressed the body of John Newman and found that he had been stabbed in the neck, under the arm, in the breast, stomach and the arms. He said he never counted the wounds.

Lindo Murphey, who assisted Mr. McCurdy in dressing the body, told of the stab wound and that one arm was cut to pieces, but that he never counted them.

Dr. Wright stated that he made a partial examination of the body and counted fourteen wounds.

Mart Whittis said that he saw only a part of the difficulty, that part being that he saw Walter Boren get from off of Newman's body.

Dr. M. E. Thomas said that he partially examined the body, but never counted the wounds.

## LUZERNE HAND PICKED COAL

When purchasing your coal supply for this winter you want good coal for your money, coal that will burn.

Luzerne hand-picked coal is clean of rock, bone and other foreign matter; is a coal that will burn to an ash. Why? Because it is pure coal.

A picture drawing of the New Marcers Hand Picking Screen is on display at Mrs. M. S. Mello's office on Tenth street. It will pay you to look at it and buy the coal that is made over this screen.

Remember the name, Luzerne Hand-Picked Coal, for sale by MRS. M. S. MELLO. Cumb. Phone 61. Office on Tenth St.

KISNER GOES TO MILWAUKEE. PADUCAH, Aug. 18.—Dr. Roy Kisner, the star pitcher on the Paducah team for the past two seasons and one of the best in the Kitty League, has been sold to the Milwaukee American Association team for immediate delivery. With the exception of one or two, Kisner should not have lost a game this season. Poor support has lost nearly every game that Paducah did not win in which he did the twirling.

Kisner is a right-hander and has every qualification for making a major league pitcher.

This big type of Poland China Pig will certainly please the people of this section. Come or write to J. J. Turnbow, Farmington, Ky., Route 1.

## CALL FOR VOLUNTEERS.

While European countries are calling for volunteers in a conflict of war, Kentucky is calling for volunteers in a conflict of peace, a conflict which, if eventually and successfully waged, will insure to the people of this great Commonwealth a new era of peace, happiness and prosperity. Kentucky has one blight and blot upon her record at this time, and that is the high percentage of illiteracy among her adult population. 208,084 of her men and women cannot read or write, and are thus deprived of the privileges of citizenship and prevented from enjoying the richest blessings of life. These men and women are mostly native whites. Many of them are people of superior intellect and some of them, at least, are ambitious. However, much they may hunger for an education, the day school can offer them no opportunity. It must accommodate the children. The State is deprived of the service of these unfortunate men and women, and the school is deprived of their intelligent co-operation. Three weeks' instruction in moonlight schools would enable them to read and write, at least, and when given the keys to knowledge, they will proceed to unlock the treasure house for themselves.

For the sake of this great army of benighted men and women, for the sake of their children and their grandchildren, for the sake of the cause of education, for the sake of a better and more intelligent citizenship, for the sake of a more creditable record when the census of 1920 is taken, for the sake of the Commonwealth, which, when crime breaks out or epidemics prevail or dark days come, looks upon its illiteracy as the cause and lament, "My people are confounded for want of knowledge," we appeal to every public and private school teacher to enlist and start a moonlight school on the evening of September 7th, and to every citizen to seek out and instruct some one or more illiterates. "One thousand moonlight schools, fifty thousand adults enrolled, ten thousand illiterates taught" is our aim for 1914. Let all true and patriotic Kentuckians, men, women and children, rich and poor, young and old, white and colored, enlist for service in Kentucky's conflict against illiteracy.

## LECTURE AT METHODIST CHURCH TONIGHT

G. C. Cromer, of Louisville, Ky., founder and superintendent of the All-Prayer Founding House will give a free stereopticon lecture on his work at the First Methodist church tonight (Aug. 19th). He and his wife gave up their own home nine years ago for this work—caring for homeless babies. They have never solicited for funds except of the Lord in prayer. The work has been going without intermission for this time. Two hundred and forty-eight children and one hundred and forty homeless mothers have been cared for just with voluntary gifts in answer to prayer. His testimony of deliverances from need (just in answer to prayer) is very interesting and edifying. The views are very beautiful.

He and Rev. Brooks extend a cordial invitation to the prayer meeting audiences and the public in general to come out tonight. Large audiences in Paducah and other cities have attended this illustrated service recently. The work is interdenominational.

## JAPS TO LOCALIZE THEIR OPERATIONS

### Conflict With Germans Would Not Extend Beyond Kiao Chow and the China Sea.

WASHINGTON, Aug. 19.—Japan's determination to localize her operations against Germany to Kiao Chow and the China seas, without extending them to the wide range of Germany's extensive possessions throughout the Pacific, gives distinct relief to officials here as narrowing the range of conflict in the Far East within definite lines.

More particularly it is felt to overcome some apprehensions in military quarters that a contest, once begun at Kiao Chow, might develop into one for predominance in the Pacific Ocean should Japan in the prosecution of a war seek to take over German's long chain of islands extending well across the Pacific.

It is now known, from authoritative Japanese quarters here, that Japan's purposes are directed against Kiao Chow and have no present purpose to extend eastward into the Pacific. The ultimatum on Kiao Chow was made on the distinct grounds that it was for the purpose of restoring China's territorial integrity, no other purpose being assigned outside of China or in the waters of the Pacific.

This assurance was repeated in the British official statement last night, which announced the understanding, after communications between Great Britain and Japan "that the action of Japan will not extend to the Pacific beyond the China Seas, except as may be necessary to protect Japanese shipping lines in the Pacific."

## URGE SENATE TO PASS RIVER BILL

WASHINGTON, Aug. 19. Encouraged to believe that the Senate will pass the Rivers and Harbors bill if a quorum remain in Washington following the passage of the anti-trust bills, the Ohio river boomers at the meeting here today passed resolutions calling on "the business men back home" to urge "their Senators" to remain until the measure is adopted.

At today's meeting of the river men, among whom is a delegation of Kentuckians, including E. C. Richardson, of Paducah, Representative A. W. Barkley delivered an optimistic speech. He said he was in sympathy with the improvement of the several projects contained in the rivers and harbors bill, and that he would do his best to have the measure adopted in the form that it passed the House.

The Kentuckian was followed by Senator Kern, Democratic floor leader, who told the delegates that he favors the pending bill, and that there will be no difficulty about its passage if those present will urge their representatives in the Senate to stay on the job and maintain a quorum as soon as the trust bills are out of the way.

The river improvement men will remain in Washington today conferring with members of the House and Senate, and will probably see the President before leaving tomorrow.

## MRS. JIM HESTER DIES NEAR PRYORSBURG

Mrs. Jim Hester living 2 miles south west of Pryorsburg died Monday afternoon at one o'clock and was buried Tuesday at Little Oblon, the funeral being preached by Bro. J. M. Hooper. Mrs. Hester has been suffering for nearly 17 months with heart trouble and dropsy. She was a good christian woman and had she lived only a few months longer, would have reached the 57 milestones of her life. Besides a husband and two children she leaves a father, three brothers, four sisters, one grandchild and a host of other relatives and friends.

## WAR NEWS AT A GLANCE

That the Germans are forcing their way through Belgium is indicated by the Brussels report that German cavalry is approaching the Belgian capital; that measures for the defense of Brussels are being hastened, and that the seat of government has been removed to Antwerp.

The British official press bureau announces that any action which Japan may take against Germany will not extend beyond the China seas, except for the protection of Japanese shipping.

The British war council has decided to exclude correspondents from the field, and it is announced that the French War Department intends to take the same action, and that probably war correspondents in Belgium will be ordered out of that state.

The German emperor, the crown prince and two other imperial princes are now at the great fortress of Mainz. The emperor's departure from Berlin for the front has evoked enthusiasm in the German capital.

Several Austrian army corps, according to advices from Vienna, have invaded Russia, and the Russian advance in Galicia has been checked. Brussels admits that the French allies in the fighting between and Dinant were heavy, as Germans were strongly entrenched their artillery caused great havoc.

The British official news says that the French fleet in the Mediterranean has made a sweep upon Adriatic as far as Cattaro. Four Austrian warships are reported to have been sunk.

Montenegrin troops have crossed the Bosnian frontier and occupied the Town of Tchalmitza after a fierce battle with capturing eight Austrian blockhouses and several villages.

The French officially report that the Germans have abandoned Saarburg. A Brussels dispatch says the German movement toward the Belgium center seems to have been checked.

"The French troops are in contact with the Germans, but there is no important engagement to report," says an official announcement of the French embassy at London.

A British expeditionary force numbering more than 100,000 has landed at French and Belgian ports, and doubtless is well on its way to form a junction with its allies.

A significant statement is issued by the British official press bureau to the effect that desultory fighting has occurred between British patrolling squadrons and flotillas and German reconnoitering cruisers.

There are rumors of a naval engagement about 100 miles off Harwich, in the North Sea.

The French commander-in-chief, Gen. Joffre, personally reports French progress in upper Alsace, and declares French troops have occupied all the region in Lorraine, 32 miles inside the German frontier.

A Rome dispatch gives a report from Vienna that the Austrian cruiser Zenta has been sunk.

Count Okuma, the Japanese premier, declares it is Japan's intention to eliminate from China the root of German influence.

## ARRESTED IN FULTON CHARGED WITH STEALING HORSE AND BUGGY

Chief of Police C. H. McNutt received a message from Fulton today saying Ditzler Bumpass, a negro, had been arrested there charged with stealing a horse and buggy from Pete Moss, colored, in this city Sunday night. Officer McNutt, Will Waldrop and Pete Moss left in an automobile this afternoon for Fulton. The negro pleaded guilty there. The horse and buggy was turned over to the owner. Constable Reed caught the negro and turned him over the Chief of Police W. Y. Eaker.

## GENERAL MIXTURE.

It is all right for a bunch of slender girls who are graduating from high school to select "Excelsior" as the class motto. But 20 years later "Straight Front" would make more of a hit with the same class.

If there were anything in the ages they fess up to, a whole lot of men would be old enough to be their twin sisters' fathers.

Another great trouble with the world is that everybody thinks everybody else's business is more important than his own.

If people would send in a lost advertisement every time they lose their tempers, each newspaper would have to issue a 3,000-page sheet every day.

When the boss wants to pay you a compliment the mail is speedy enough. But when he wants to kick about your work he has to use the telegraph.

The bartender is the only man who can mix his drinks and hold his job.

What has become of the old-fashioned man who used to be presented with a gold-headed cane?

Lots of married men who do not care much for turkey will let their fondness for chicken get them into a lot of trouble.

Every man knows that what is business in the other fellow is fatigue on overwork in his case.

When mother is sick Father knows it isn't anything serious. But when father gets a stomach ache he wants an army corps of surgeons and nurses and insists that the world be given hourly bulletins as to his condition.

The reason why a man brings his wife a two-bit box of candy and pays \$2 for the box of candy he brings the stenographer is because his wife would fuss with him if he purchased anything expensive for her.

If the women keep on making advances in the special scenery they put on their faces, there won't be enough putty and paint left for the house builders.

Father will stand around the corner half and purchase drinks and orate about being a free born citizen and indignantly about his right to protection under the flag. And then he will go home about midnight and meekly say "uncle" when mother refers to him as an ornery dog and a drunken pup.

It has just about gotten so that if a girl is sure that her ears are hidden she doesn't worry about anything else showing through.

## PRESIDENT WARNS

### AMERICANS AGAINST TAKING SIDES

WASHINGTON, Aug. 19.—President Wilson Tuesday in a special message warned the American people against "that deepest, most subtle and most essential breach of neutrality which may spring out of partisanship out of passionately taking sides."

The President is understood to be deeply concerned because naturalized Americans, who come from countries now at war, have taken sides in public discussions of the conflict.

"The United States must be neutral in fact as well as in name during the days that are to try men's souls," the President said.

## PRICES OF FOOD WERE ARBITRARILY PUT UP

This is Substance of Reports Received at Washington.

### GOOD EFFECT OF INQUIRY

Price of Meats Drop in View of Determination of Government to Prosecute.

WASHINGTON, Aug. 19.—Additional special agents of the Department of Justice were dispatched yesterday to Cleveland, Providence, Baltimore, Pittsburgh and Buffalo to assist in the nation-wide investigation of the increased price of food-stuffs.

United States district attorneys all over the country have begun inquiries, and in many places grand juries are at work. At Buffalo, John L. O'Brien, district attorney, will try to ascertain the cause of the rise in flour.

Fred Robertson, district attorney at Topeka, Kas., reported today that "the unusual circumstances of wheat going down on the market and the price of flour going up has stood out prominently in the Kansas City daily newspapers for several days." He is investigating.

A flood of letters reached Attorney General McReynolds today from voluntary correspondents regarding the advance in food prices. A Brooklyn correspondent claimed to have specific information that packers there are rapidly increasing prices of fresh meat, notwithstanding an unusual amount of meat in cold storage in New York. Canners protested against the increase in the price of sugar.

Prices Arbitrarily Fixed. A large middle west firm wrote that the refiners, "by their joint system of selling their product through certain brokers, have the public at their mercy."

Reports to the Department of Justice today tell of the creation of artificial food prices all along the line. A district attorney in Texas reported that granulated sugar has risen from \$4.60 to \$7.50 per hundred weight since a week ago; Swiss cheese from 25 cent to 38 cents, flour from \$4.75 to \$5.10, beef ribs from 18 to 21 cents per pound, sirloin 28 to 32 cents, pork loin 18 to 25 cents, and smoked ham from 20 to 22 cents. The district attorney suggested that small consumers are charged even higher prices than hotels and restaurants, the figures quoted.

A letter to the attorney-general from the manager of one of the largest live stock commission companies in the west reported that while hogs declined in Chicago \$1 per hundred pounds and cattle declined 65 to 85 cents per hundred pounds, dressed products to the consumer advanced several cents per hundred.

"The packers claimed that reductions were made on account of financial conditions and money stringency," he wrote, "but I do not know what excuse they gave for advancing the dressed article. There is very little beef or pork exported."

## HEART AND SOUL FOR THE SUCCESS OF THE TICKET

Congressman Stanley Hopes That All His Friends Will Rally to its Support.

Congressman A. O. Stanley spent Sunday night in Louisville on his way from Henderson to Washington. Mr. Stanley is looking none the worse for defect in the senatorial primary and wore his usual smile. "I am heart and soul for the success of the ticket nominated by the Democrats in the August primary," said he, "and I shall exert every effort to the end that all the nominees may be triumphantly elected in November. I intend to speak and work for the ticket and hope all my friends will rally to the support of the nominees. President Wilson and the Democracy of the nation need the votes of the Democrats in the Senate and House of Representatives, and no Democrat should falter at the critical time in the affairs of our country and our party. Every nominee of the party is entitled to the fullest and unflinching support of every Democrat in the State, and I feel it will be given in November and a splendid party triumph achieved. With the enemy divided into two hostile camps the result looks good to me."—Louisville Times.

## HOGWALLOW ITEMS.

(From Hogwallow Kentuckian.)  
Sim Flinders went into the Gander creek woods yesterday to select a lot of game to shoot at when he goes hunting tomorrow.

Miss Hostetter Hocks sang several nice selections at the entertainment Thursday evening. She was assisted over the high places by Raz Barlow, on his little fiddle.

While discussing Congress matters the other day, and certain bills that passed the house, Poke Easley declared that it might be easy to pass the House, but that so far he had never seen anything yet pass the still house.

The coroner from Tickville told the blind man the other day there were a lot of dead ones that had not been set on yet.

At the postoffice a few days ago Frisby Hancock brought up the subject of hawks, buzzards and other such wild game, and remembered the biggest hawk he ever saw was one over near Bounding Billows a few years ago. He says it roosted for many years in an old barn. It measured more than fifty feet from tip to tip, and many a time he has seen it swoop down and take a cow right out of the pasture in its claws. Following this hawk was a young one that would always come right along behind and get the calf.

The Wild Onion school teacher lectured on the United States a few nights ago, to a large audience. In the course of his remarks he paid a glowing tribute to our country, and it is regretted that everybody in the United States were not present. One reason we keep so far ahead of the other nations, said he, is because we are getting up and going to work every morning while the folks around on the the other side of the world are just going to bed.

Washington Hocks witnessed a pistol fight at the Rye Store, Saturday evening. Not having his pistol with him he announced at the beginning of the trouble that he would remain neutral throughout.

One reason why the flea is so sensitive to noise is that most any sort of a noise is bigger than a flea.

Cricket Hicks has bought a large tin dust pan. It is believed he is trying to join the Tickville Press Band.

A shower of rain visited this section Tuesday. It was met at the forks of the road by the Excelsior Fiddling band.

Some miscreants visited the Rye Straw store the other night and attempted to turn the building around not knowing that the store keeper had just put in his fall stock of goods.

Slim Pickens has received a bottle of dandruff remedy through the mail this week. He recommends it highly, but says it is mighty bitter.

The Deputy Constable has gone out on another case. He will make a thorough investigation of the affair, and took a chair along with him so he can sit down and rest on his laurels.

Atlas Peck has been notified that he will soon have to give up his present position at the postoffice, as he is in the spot where the stove will have to be set.

Dock Hocks had to close down his blacksmith business during the past few weeks, there being no surplus air to run the bellows with.

Raz Barlow will leave in a day or two for a vacation trip through the Calf Ribs neighborhood. He believes in seeing America first.

The widow of the Calf Ribs neighborhood was at church Sunday and while she paid no mind to Raz Barlow, or any of the other good chances, she was seen to stick her feet under the bench when Yam Sims passed by.

Later.  
During the high prices Poke Easley has decided to save fifty per cent by buying one cent stamps instead of two.

When a husky person has something the matter with him he complains about twice as much as a weak one. But he ought to. He is able to do so.

A chicken may sleep, but it gets up in the evening instead of morning.  
We stop the press to announce that Prof. Atlas Peck, who began taking a census of the stars last week, has had to stop work on account of the inclement weather.

## SPECIAL TO WOMEN

Do you realize the fact that thousands of women are now using

**Paxtine**  
A Soluble Antiseptic Powder

as a remedy for mucous membrane affections, such as sore throat, nasal or pelvic catarrh, inflammation or ulceration, caused by female tilts? Women who have been cured say "it is worth its weight in gold." Dissolve in water and apply locally. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women.

For all hygienic and toilet uses it has no equal. Only 50c. a large box at Drug-gists or sent postpaid on receipt of price. The Paxton Toilet Co., Boston, Mass.

## Hair Tinting All the Rage

The Absolute and Utter Harmlessness of "Brownatone" Has Made Hair Tinting Safe and Easy.

You need not tolerate gray, streaked or faded hair another day. It takes but a few moments to apply "Brownatone" with your comb or brush, and just a little "touching up" once a month should keep your hair the beautiful shade you most desire.

Results always the same—always pleasing. Will not rub or wash off and guaranteed to contain none of the dangerous ingredients so often found in "dyes."

Prepared in two shades. One to produce golden or medium brown, the other, dark brown or black.

Sample and booklet sent on receipt of 10c. "Brownatone" is sold by leading drug stores, in two sizes—25c. and \$1.00. Order direct from Kenton Pharmacy Co., 560 E. Pike Street, Covington, Ky., if your drugist will not supply you. You will save yourself much annoyance by refusing to accept a substitute.

Insist on "Brownatone" at your hairdresser's.  
Sold and guaranteed in Mayfield by Evans & Covington and other leading dealers.

## NATIONAL BOYCOTT ON MEAT AND EGGS

CLEVELAND, Aug. 19.—Preparations for the calling of a national boycott on eggs, beef and veal are under way, according to Frank S. Krause, president of the "Thirty-cent Egg Club," today. He declared that the move would force prices downward within three days.

"The only way prices can be brought down is to stop buying," said Mr. Krause. "If every person in the United States was to aid us in our boycott, within two or three days the prices on groceries would begin to drop just as suddenly as they went up." He has received many letter urging a boycott, he says.

## THE DANGEROUS DOG.

The Courier Journal has taken up a club to whack the custom of allowing dogs of all sorts and conditions to run at large unmuzzled, supporting the State Board of Health in its effort to reduce the danger of hydrophobia.

The Courier Journal calls attention to the fact that the ill kept dog is the greater source of danger, and says that families unable to properly feed and care for dogs should not have them.

Hydrophobia is found to be a prevalent disease in Kentucky. A vigorous weeding out of the dogs and rigid enforcement of the provisions of the dog law would greatly reduce the danger. The sixty patients to whom the Courier Journal refers as being under treatment, or having been treated at Bowling Green in the Pasteur method are sufferers from a preventable danger to health and life. Rigid muzzling of dogs at large, and the careful elimination of ownerless dogs, by painless methods of inflicting death, would make hydrophobia almost an unheard of disease.

The ill fed or unfed dog is a decided danger to life. But it is observable in Frankfort that no subject is readier to the hand of the Legislator who courts the applause of the unthinking than the injunctive of a tax law which does not allow the one gallanted poor man to have all of the dogs he wants.—Frankfort State Journal.

## NO COMPROMISE, IS ROOSEVELT'S SLOGAN

BOSTON, Aug. 19.—"No compromise" was the slogan with which Col. Theodore Roosevelt opened the political campaign in Massachusetts yesterday. He declared there should be no compromise with reactionaries in any form, while on the other hand the party would welcome those of the rank and file of other organizations who refused to follow the old leaders.

The men who were responsible for the Payne-Aldrich bill, he asserted, also are responsible for the present tariff measure, and should be opposed.

ered and unlovely, and so it is with woman—verily the spice of life is no sort of seasoning for morality.

Consider my words, and forget them not. Verily many a beautiful vine is poisonous. Beware, then, of the man with an "artistic temperament," for such is but an excuse for unfaithfulness.

As it is, with the glorious sun which beamed throughout the middle of the day yet wilteth the grain in the fields, so it is with a man who may kiss and kiss and be a villain still.

Behold the birds in their mating. The pair which were together last spring have taken different mates this year, and, when another spring cometh, each will have still another mate. Verily my daughter every married couple would marry again, but seldom to each other.

Consider the things of life for they are many and the objects about us are like unto ourselves. "Friendship," O daughter of my heart, is like unto a garden, "Love" is an oasis in the midst of the desert, but "Passion" is a toboggan slide.

How doth the wise men argue of this and of that, and how doth the kings with their soldiers plot one against the other, and yet I say unto you that love hath her trickeries far more renowned than the war.

There be cloaks of many designs and girdles of varied widths, but morality is an invisible garment which will retard the growth of happiness whether worn too tight or too loose. Sunset drapes the mountains in robes of pink and spreads a cloth of gold across the sea, but in the pitiless glare of the noonday sun these things are gone and we behold things as they are. Remember then my daughter, that a woman is as old as she looks—before breakfast.

My daughter, consider the birds of the field and regard thou the stork as a bird to be stalked but never caught.

Take heed of all the words I speak. O my daughter, that thou mayest, in good time repeat them unto thine own daughter as thou wilt in truth have good cause. A gentleman is what women admire, but a man is what women love.

Consider the gorgeous butterfly as it flits across the highway, naught but the hand of a captor will dislodge the velvet sheen of its wings, and verily I make declaration that the chaste are chased until they are caught.

The time has come, O my daughter,

when I must say many things unto you. Take heed, therefore, of my words. In thy married life be ever cheerful, for know thou that it is the deadly parallel which leads to the eternal triangle.

Who loveth the hedgerows, my child, when the blasts of winter have denuded them of their foliage? So is it with woman. She who leaves nothing to the imagination leaves nothing to be desired.

The foolish hen trieth to crow like unto the rooster, or she cometh to grief seeking to swim in the water

like unto the swan, and this is because such hens is abnormal. And so it is with suffragette. She is a woman who breaks windows because she cannot break hearts, she is a woman who rocks the House of Parliament because she has no cradle to rock.

Be of great care concerning thy companions. All that glistens is not pure gold and all that smiles is not of purity. Make not friends with the giggling little woman who calls herself "Fun," for in truth, she is a mix whose name is "Indiscretion."
