Rumors the Hungarian Communist Government is Overthrown.

JOHN FITZPATRICK DEAD

Heavy Property Damage in Residence Section of Omaha, Neb.

Vienna, April 7.—Havas.—The Hungarian communist government in Budapest has been overthrown, according to rumors current in official circles, newspapers say. Belakan, foreign minister, is reported assassinated. Reports do not say whether the attempted revolution in Budapest was organized by Socialists or Bourgeois parties.

New Orleans, April 7.—John Fitzpatrick, former mayor and political leader of this city, died today.

Washington, April 7.—Advices reaching the state department from Vienna say communists revolution seemed imminent in German-Austria.

Munich, April 7.—Saturday.—Troops here express sympathy with Soviet cause. They declared their intention, however, to maintain neutrality and prevent rioting at all public gatherings. Enthusiasm has shown favor to Soviet.

Omaha, Neb., April 7.—Heavy property damage, but few personal injuries as consequence of the tornado that swept across the western residence section of Omaha last night.

OPTIMISTIC IMPRESSION

Regarding Settlement of Neutral Zone on Bank of the Rhine.

DOINGS OF COMMISSION

State of Siege at Fiume is Officially Denied By Commander.

By Associated Press.
Paris, April 7.—Havas.—An extremely optimistic impression now prevails regarding a settlement favorably to France of the questions of her security against future aggression and the neutral zone of the left bank and part of the right bank of the Rhine. This was voiced by the Felt Journal.

By Associated Press.
Paris, April 7.—The peace conference commission on reparations and damage today adopted a provisional report upon the various forms of damage and methods of valuations. The report was presented by the first subcommittee of the commission.

By Associated Press.
Washington, April 7.—Lord Reading, British Ambassador, authorized the statement today that suggestions that Premier Lloyd George had advised recognition of Lenin or Trotsky, Russian Bolshevik leaders, were wholly unfounded.

By Associated Press.
New York, April 7.—The Italian bureau of information announces receipt of a message from Paris, saying a wireless message from Rome officially denied that a state of siege had been proclaimed at Fiume by commander of inter allied troops in that city.

TENEMENT HOUSE BOMB EXPLOSION

Starts Riot in Connection With the Textile Workers Strike in Lawrence.

APRIL 15 THE DATE SET

For the Transport George Washington to Sail for Brest.

By Associated Press.
Lawrence, Mass., April 7.—A number of persons were injured by sticks, stones and clubs during rioting this morning in connection with the strike of textile workers. The outbreak occurred in the vicinity of the Everett Mills a few hours after explosion of a bomb in a tenement house in the same neighborhood. No one was injured by the explosion. A number of shots were fired during the rioting, but so far as known no one was injured by the bullets.

By Associated Press.
Washington, April 7.—In connection with reports from France of plans for President Wilson's return home the navy officials said today no orders have been received in regard to the transport George Washington, but that the vessel is undergoing her usual clean up preparatory to sailing for Brest April 15th. This will put her on the other side in time to start back with the president by May 1st.

By Associated Press.
Paris, April 7.—Orders, which it is learned have been given for the transport George Washington to proceed from America to French port, are not taken to mean that President Wilson is contemplating premature departure from France. They are thought rather to reflect the belief that the peace conference will be able to effect an adjustment of outstanding problems at a comparatively early date.

SOCIAL DEMOCRATS FORTY-TWO TO EIGHT AGAINST THE SOVIETS

By Associated Press.
Nuremberg, Bavaria, Sunday, April 6.—The Bavarian national conference of Social Democrats have voted 42 to 8 against the introduction of the Soviet republic in Bavaria.

A Surprise Wedding.

A quiet home wedding culminating a four year romance was solemnized Sunday morning at 10 o'clock at the home of the bride's mother, Mrs. E. E. Hammond, in the marriage of Miss Dalva Hammond to Mr. E. J. DeMeyer, the Rev. J. J. Castleberry officiating.

The ceremony was simple and beautiful, performed in the presence of the immediate family and one or two close friends.

The bride wore a handsome traveling suit of dark blue cloth, and blue straw toque to match. The couple went immediately to the station and took the train for Jacksonville, Tenn., where they will be at home.

The bride has been for several years a prominent and popular teacher in the city schools of Mayfield. Mr. DeMeyer belongs to a well known family of Fulton, Ky., but since the entrance of the United States into the war, has been with the government force, as an expert mechanic in the big plant at Nashville. The good wishes of many friends of both Mayfield and Fulton will follow these two on their journey to the new home.

MAN KILLED ON BRIDGE

BY I. C. TRAIN NO. 101

I. C. train No. 101 out of Louisville Sunday afternoon ran down and killed a white man on a bridge about 100 miles outside of Louisville at about 2:30. The man, his wife and daughter were on the bridge when the train came along, but the wife and daughter escaped by climbing over a water barrel. The man was about 70 years of age.

DRIVE NOW ON.

The Armenian and Syrian Relief drive is still going on. Some who were unable to make their contributions Saturday have made one since.

A few individuals have contributed to the chairman without being solicited. All of which shows that the people are becoming interested in this great cause. The drive in the business districts will be made this week. It is earnestly hoped that the business men will respond generously to this cause. The response must be generous if human beings are to be saved from actual starvation.

The rural districts are beginning their canvass and encouraging reports are coming in. Just a little stronger pull, and we shall finish with credit to ourselves.

"BOLSHEVISM AND ITS CURE"

Was the Subject of Rev. J. J. Castleberry's Sermon Sunday Night.

RUSSIA THE BIRTH PLACE

Of Bolshevism is 85 Per Cent Peasant and 90 Per Cent Illiterate.

Last evening at the First Christian church Rev. J. J. Castleberry delivered a masterly sermon on the theme, "Bolshevism and its Cure." There was a splendid audience and the service was most impressive.

Rev. Castleberry took as his text Matt. 16:3. "When it is evening, ye say, it will be fair weather; for the heaven is red. And in the morning it will be foul weather today; for the heaven is red and lowering. Ye know how to discern the face of the heaven; but ye cannot discern the signs of the times."

The speaker said in part—Nothing is more interesting than history in the making—and wise indeed is that man or nation that faces conditions as they are—or as Jesus says "Discern the signs of the times"—and seeks thereby to avert disaster in the future.

Progress is the law of civilization; in the intellectual world, in the moral world and in the political world, and we unto any despot that seeks to get in the way of the world's progress. "The history of the world is nothing but the development of the idea of freedom." Democracy therefore, that is brotherhood—is the high goal of the human race. If we may forecast the future by the racial development of the past.

There are two methods of progress. Evolution, that is gradual development, and this is always best. Revolution, or the way of blood and tears. Nothing so bad as revolution. Take for instance the great French revolution, with its hatred and butchery.

Let us look at the situation today, and seek to "discern the signs of the times." The world is just emerging from the black night of a terrible war, and democracy having overthrown military autocracy is at the brink of a still greater war for the overthrow of industrial autocracy—Hard words? Yes, but true words—open your eyes and discern the "signs of the times." Look yonder in the political heavens—a cloud—you say no bigger than a man's hand—yes, but a cloud, and it is settling larger—the cloud of Bolshevism.

What is Bolshevism? It is not a form of government, it can flourish under one form of government as well as another. It is a political party of extreme revolutionary Marxian Socialists. It represents the extreme passion for freedom by the least intelligent and most submerged element in the population. It is the ignorant masses seeking by their new political freedom in their ignorance of freedom.

This Russia, the birth place of Bolshevism, is a poor, backward and 90 per cent illiterate nation. The cause of the class-consciousness of the masses is not the class-consciousness of the masses, but the class-consciousness of the masses.

What is its cause? It is a social disease, such as syphilis, justice, oppression and so on. The reason we have not in America is that labor has been better paid, better treated, and has greater freedom—and yet God there is room for improvement.

Even here in America the struggle and problem confronts us. With a "peace conference" in session the menace of Bolshevism looms large. The danger lies in three things: ignorance, numbers and reaction against oppression. Bolshevism is social anarchy and it presents a grave danger.

What is the cure? Mr. Roosevelt in addressing a large audience said: "I am for the poor man, not because he is poor, but because he is a man. I am for the rich man, not because he is a rich man, but because he is a man." It is the attitude on the part of capital and labor would go far toward solving our industrial problems. Bolshevism can be prevented by supplying Christianity to our social and industrial conditions. "Whatever ye would that men should do unto you, do ye even so unto them. And all men being the offspring of God, are brothers." And until we consider all men as our brothers in Christ, Christianity will solve this problem just as it will all problems. Whatever ye would that men should do unto you, do ye even so unto them.

GOD OUR HEAVENLY FATHER.

The above was the subject of the Sunday school lesson April 7th and as it dwells principally on peace it might not be misinterpreted as the Scriptures bearing on this subject. The Golden Text was "Our Father Who Art in Heaven, Hallowed be Thy Name."

12. Like as a father pitieth his children,

So Jehovah pitieth them that fear him.—Ps. 103:13.

13. But I said, how I will put thee among the children, and give thee a pleasant land, a goodly heritage of the best of the nations! and I said, ye shall call me my father, and shall not turn away from following me.—Isa. 63:19.

25. Therefore I say unto you, be not anxious for your life, what ye shall eat, or what ye shall drink; for your father knoweth what ye need. Is not the life more than the food, and the body than the raiment? Behold the birds of the heaven, they sow not, neither do they reap, nor gather into barns; yet your heavenly Father feedeth them. Are not ye of much more value than they? 26. And which of you by being anxious can add one cubit unto the measure of his life? 28. And why are ye anxious concerning raiment? Consider the lilies of the field, how they grow; they toil not, neither do they spin: 29. Yet I say unto you, that even Solomon in all his glory was not arrayed like one of these. 30. But if God doth so clothe the grass of the field, which today is, and tomorrow is cast into the oven, shall he not much more clothe you? O ye of little faith! 31. Be not therefore anxious, saying, what shall we eat? or what shall we drink? or wherewithal shall we be clothed? 32. For after all these things do the Gentiles seek; for your heavenly Father knoweth what ye need of all these things.—Matt. 6:25-32.

There is no peace, saith my God, to the wicked (Isa. 57:2). The wicked life is out of tune with the world, and therefore jangles, whatever the life is.

God's life is perfect peace. In this life the body is entirely of itself. When the life is normal and full of health, there is peace. It can be realized only by communion with God.

There is no peace to a life that is contradicting itself. In every man there is a revelation that immortality comes from union with God.

God may be partaker of God's peace through strength which Holy Spirit imparts to the inner man.

With in God's providence, strength is the assurance that God has planned the entire campaign and consequently that everything was under his control and subject to his might, served every allied soldier in the victorious advance.

The Christian has virtually overcome the world and believes that God rules all things.

The study of history confirms Christian faith. Our sacred scriptures contain the records of centuries of history in the light of God's relation to human affairs. We learn how God works in the world and through and for his people.

Above all else, God is our Father. He finds their perfect expression in God. But neither omnipotence, nor wisdom, nor benevolence, singly or combined, explain God to our satisfaction. It is only when the soul discovers that God is "our Father" that it finds peace and life.

Nature and history reveal God, not perfectly. The knowledge of God is perfected by the study of nature and human experience may supply a foundation for noble religion. But the religion of the world and which the individual means life and peace, comes only from the revelation of God which we have from Jesus.

The words of Jesus speak are therefore spirit and life. His teachings solve the mystery of life, and the universe, and divine purpose, and will.

The world was redeemed when all of its inhabitants learn to pray, "Our Father Who Art in Heaven." For then all men will be not only sons of God, but brothers.

The pretty weather of the past few days dried out the ground sufficiently to plow and everywhere one goes he sees the farmer as busy as the proverbial bee turning the soil, and adhering to the old adage of "making hay while the sun shines."

Along about this time of the year, when the hazards begin to crawl, and the sun begins to shine warm, when one sleeps well, eats well, but has absolutely no desire to work, it is then at once recognized that the very contagious malady known as "spring fever" is once again prevalent in the land.

"The greatest moral force in the world" is what Col. Mark Mayhew, who has just returned to Owensboro from Europe, says of President Wilson. Col. Mayhew has been on tour round, and in a position to know, and he speaks and says that sentiment for the league of nations among the working classes is practically unanimous in England.

It is a noticeable fact that practically all of our farmer friends are now riding in automobiles, there being hundreds of cars sold by the local agencies of Mayfield during the past weeks. With tobacco bringing such a price as last year's crop, if the farmer can't afford to sport an auto, John D. Rockefeller is too poor to spend an afternoon or two each week playing golf.

Well, well—here at last, and, of course, just as one would suspect, the pre-war history of Dr. Karl Helfferich comes forth with the assertion that the Kaiser wanted peace and did not desire to enter war. Yes, the Kaiser wanted peace so bad that he had built up the greatest fighting machine on earth and his nation was the best prepared country in the world for war. Certainly he had not spent the enormous amount of money necessary to maintain this army and build and equip battle ships and submarines just for the gratification of knowing that he had the best army, the best navy, the best air force, the best tanks, the best submarines, the best everything, but he would have a hard time convincing several of the larger nations of the world of this fact.

HOT BALL GAME
LIKELY THIS WEEK

The city officials have challenged the newspaper office for a game of baseball and it is likely that the game will be played Wednesday of this week at the college grounds, the proceeds to the Armenian fund. The Hamlet is the leader of the official club and he has announced that City Attorney Carusie Carter would be in the box with Roy will occupy the first station. The fire boys will be in the game and probably some of the policemen. As there are some old time ball players in the game and some crack youngsters just in their prime, it is easy to predict the result of the game. The news paper boys announce that they are willing to wage a bet that the city officials will never make the circuit, and it is doubtful if they can ever get a man to third base.

A REAL TANK IN ACTION

This City Will Be Visited By Special Train With Tank Manned By Soldiers From Overseas.

A real bona fide battle tank made by Uncle Sam to vanquish the Hun, will be seen in this city on Saturday, April 19, 1919.

This tank will be one of the features of the Victory Loan special train mentioned. It weighs more than seven tons, is armored, and is about 15 feet long and 10 feet high. It will be carried on a special flat car, and under its own power will parade the streets of the city.

The special train will arrive at 3:00 p. m. and will leave at 10:30 p. m. The tank will be manned by soldiers who have seen actual service overseas. Brief addresses will be made by the soldiers and civilians who are on the special train.

A GOOD WAY TO SAVE

"In times like these when economy is so essential, I know of no better way to save than to have the entire family shod with Neolin Soles," writes B. F. Williams, Rochester, N. Y. In his letter Mr. Williams tells of a pair of Neolin-soled shoes which he has worn constantly for four months. "The soles still look like new," he says.

You, too, will think there is no better way to save, when once you have tried shoes with these long-wearing, comfortable, and waterproof soles. They come in many styles for every member of the family, and good repair shoes for the soldier or for the seaman. They are made scientifically by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all others.

LUSITANIA WAIF, 15, CALMLY JOINS A. E. F.

Waiting patiently at one of the embarkation ports is Harry Skinner, 15 years old, juvenile soldier of fortune, and a "real American citizen," who is attached for pay, rations and quarters to Company G, 102d Infantry 26th Division, says Stars and Stripes.

Skinner didn't say much about his past life, and little was learned of his real identity until last week at Brest, when he had to persuade an unsympathetic officer that he really was a "two gold-stripper," a member of the 26th Division and entitled to all the rights of a soldier.

After he was confirmed many things about himself to this officer, his story leaked out.

Why he designated Company G, as his parent company he didn't say, for it seems he appeared at the position of this company when the activities in the Chateau-Thierry sector were greatest. No G. H. Q. order assigned him there as a replacement, although the company was constantly getting such replacements.

Quarters sent him to fill up a gap. He said, Here I am, Yanks, and the top who wasn't unlike other top sergeants, scratched his head, and said "Report to the skipper."

Which Skinner did. And the skipper, although always hot after AWOL's took Harry under the wings and into the dugouts of the company.

Now he's sporting a blouse with a Quartermaster sergeant's insignia and a pair of leather leggings that would make even a Cavalry major envious. But what he wears doesn't matter, for he is on his way back to an American port, and from there he plans to go to Concord, Mass., where, he says, some friends live.

Skinner was born in Springfield, O. With his parents he was sailing for England about the Lusitania at the time it sank. Both his father and mother were drowned. He was rescued and sent to Queenstown, and from there designated for a parol school in England.

"But no school for me," he commented.

"I beat it to a British camp and attached myself as a camp follower. Then I came to France, got in a couple of scraps and was captured by the Germans."

All this, he explained with the nonchalance of a seasoned globetrotter, happened in the fall of 1918, and in June of last year he escaped through Switzerland and, after rambling through France for more than three weeks, finally attached himself to Company G, 102d Infantry.

Skinner has been with the company in all its major operations. Then from the rear area, to which it was sent after the armistice, through the delousing processes—but, strange as it may seem, and contrary to all rules, he still sports the Q. M. sergeant's blouse.

The youth has retained his clothes. He manifested and impressed that he wore when he became officially adopted by the company.

To Those Interested in The Tobacco Industry

At a meeting called in Lexington, Ky., March 28th, of this year, a tentative organization of the loose leaf tobacco warehouses of this commonwealth was formed, and in order that not only those who are associated or connected with the loose leaf tobacco warehouses, but all those who are interested in the planting and growing of the 1935 crop may be heard, relative to this organization, a meeting will be held in the board of trade building, Third and Main street, Louisville, Ky., at one o'clock p. m. Saturday, April 12th, 1935, and to which every farmer who contemplates growing tobacco this year and every one who is directly or indirectly interested in the tobacco industry of this state, or directly or indirectly interested in the tobacco industry, is most earnestly and cordially invited to attend this very important meeting. And, join in the discussion as to the necessary course of procedure to prevent the planting of the contemplated acreage of tobacco in Kentucky this year, which, if carried out as contemplated, will undoubtedly result disastrously to those so engaged.

IN MANY BATTLES IN CIVIL WAR

Clinton, Ky., March 17, 1935. To All It May Concern: W. J. Williamson was a comrade of mine in the war between the States—1861-5.

He was in Company R, 12th Tennessee Vol. Infantry the first year, and we were in two noted battles.

Belmont, Mo., and Shiloh, Tenn. After that we (Co. B.), were transferred to the 3rd Kentucky Co., L. Vol. Infantry until the war closed. I don't remember that he was ever so sick or feeble as to miss a single battle such as Vicksburg, Champion Hill, Jackson, Corinth, Paducah, Brices Cross Roads and Harrisburg and two raids into Middle Tennessee. The last of which was under General N. B. Forrest with Hood's move on to Nashville, including Franklin, Murfreesburg and Nashville, and other small fights nearly every day going in front and in the rear in retreat.

He was our first sergeant and a faithful soldier, true to the southern cause of defending her homes and honor against an invading cruel enemy.

Calloway County Makes Appropriation For Farm Agent

(Murray Ledger.) At the regular monthly meeting of the Calloway county fiscal court held here Tuesday of last week a forward step was taken to improve the farming conditions in this county and also to provide for a home demonstrator. An appropriation of \$1,600 was made by the court to pay the salaries of these two persons. This amount will be supplemented by a like appropriation from the federal government. The court has promised that both the farm agent and lady demonstrator would be here not later than May first to report for duty. They will be employed for the remainder of this year only, unless the court is convinced that hereafter the

county should have the services of such persons permanently. The Ledger congratulates the court upon the action taken, and with the full cooperation of the people of the county the values of a farm agent and home demonstrator will be convincing to the most skeptical. The tax levy for the year was also fixed by the court at the Tuesday meeting as follows: General expense fund; 30 cents and poll; road and bridge fund, 30 cents; sinking fund, 6 cents. The total levy of 50 cents is two cents less than last year. The levy of 6 cents for sinking fund will enable the court to pay \$5,000 of the court house bonds every two years and also take care of the interest on the entire indebtedness of the county; \$5,000 of the court house bonds were paid last year.

Mayfield Minus Murray is One

(By a M. H. S. Student.) 'Tis the last half of the last ending. No one on base. 'Tis the last strike of the last out. No one a winning. And we are still as an autumn calm at midnight. As arlar, yet as calm, as a phosphorus light in a bog—Alas! he strikes, the man is out and a shout. Rings out, from the foreign team. Now, we are in the field and they are at the base: Block ball, the runner runs two bases home. Tumult, confusion, discord, clamor: Mr. Ump—Mr. Ump—where are your eyes? And victory—the game is done with unperceiving eyes. I know not why, but the foreign team rests on idle bat, And with raving, frantic and strained The man goes back to third—they hold their burning word And, by some misleading play he's out. Mayfield, Mayfield, Mayfield, what are you going to do? Mayfield, Mayfield, buck to your colors true! But alas! One man up—one man down. And a prayer goes up from us around: A second man up—a plunk goes the bat. By the aid of the third he makes his round: And then with a shriek, a yell, a jump, a bending, For victory—the game is done with out the finished ending.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well. My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARRS BOYD, 1421 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years' experience is at your service.

LUKE McLUKE SAYS.

Ever notice that the men who have a right to be concentered are about the only men who are not concentered? And this would be a better world if the Prohibitionists would set the Rummies a good example by being a little temperate in their language. We do not blame some men for being very religious on Sunday. They do not pay much attention to religion the other six days of the week. Why is it that when you are in a hurry the man who wants to talk to you for a minute insists on talking for thirty minutes? Being a grouchy hath its reward. People may hate you, but they'll never try to impose on you. Once in a while you will find a wife who has her own way because her husband is fond of her. But in the other ninety-nine cases a wife has her own way because her husband is afraid of her. After playing the thing both ways a man is apt to discover that things come more quickly to those who don't wait.

A woman may walk into an open coal hole because she is busy rubbing at herself. But any time a man walks into an open coal hole it is because he is busy rubbing at a woman. If legal compulsion and prohibition are going to make men good, we might as well get ready to close the churches and newspaper offices in a year or so. There will be no more work for clergymen and editors. Some people seem to save up their coughing all week so they can turn it loose when they go to church on Sunday.

Wonder if we couldn't get two-thirds of the states to ratify an amendment to the constitution prohibiting the sale and use of garlic? Some men have lost all fear of hell since they have learned that a lot of the leaders of the anti-everything league expect to go to heaven. We do not know a whole lot about women. But we do know that they are not all as innocent as they look.
