TELEGRAPHERS TO STRIKE.

Vote Shows Over 90 Per Cent Favor Strike-Give Burleson a Chance. Washington, April 23.-Returns thus far received from the strike vote now being taken among the members of the Commercial Telegraphers Union of America were declared tonight by F. H. McDowell of Washington, a member of the union's national grievance committee to indicate that not less than from 90 to 95 per cent of the membership will vote to strike to enforce the organization's demand for recognition of the union and the right of collective bargaining.

Mr. McDowell, who conferred last week in Boston with the International president of the union, S. J. Konenkamp, asserted that the strike vote as received to date shows nearly 100 per cent of the New York and Chicago membership to be in favor of the strike: Returns from San Francisco Seattle, New Orleans, Dallas, Cincin natts, Pittsburgh and Washington, he

Tennessee is showing a strange reversal of form. In former campaigns ping. The farmer will profit, as will the workman and the plant owner. We of her slow filling of her quota, a thing she always achieved before the close of the campaign.

But today Tennessee is basking in second place with a percentage of a trifle more than 32, and is riding easy. State Chairman R. L. Jordan said that Memphis is responsible for the splendid showing. Shelby county, of which Memphis is the principal city, has already reported sales aggregating \$4, 336,250 of a quota of \$9,690,500. The city will fill its quota early next week, according to advices received by

Jordan. The rural communities are slow about reporting, reports being in from only four Tennessee counties. The chairman has sent telegrams requesting quick reports and he hopes that his of indicate that the Hun .propa. state will be all in by the close of next week.

Mississippi, which jumped into first place on the opening day, lapsed into third place today. Chairman Kretchmar said that but few additional counties had reported, but unofficial reports showed that the Mississippians were all at work and that there was more confidence than in any previous loan. There is no fear of Mississippi being backward.

Arksansas is also backward about reporting, though the unofficial reports that reach Chairman Hemingway and Vice Chairman Pettie are most encouraging. The entire state of Arkansas is in the Eighth District, and there are few large cities. It is essentially a rural state, and the returns are slow in being recorded.

It will be remembered, however, that Arkansas was the leader in the Fourth accomplish wonders even after other to keep that position in the Victory ceed. With the proceeds will be

The dead body of McIntyre was lowered from the pole by the corener's jury, which rendered a verdict: "Sam McIntyre came to his death by hanging to a telephone pole at the hands of parties to this jury unknown on the morning of April 23, 1919, at Forrest City, Ark." Many theories as to who might be responsible for the lynching have been advanced.

It is reported that McIntyre had made the threat after he had been locked up in the jail here that if he ever got out there was three white men in St. Francis county he intended to kill, and that he didn't care what they did with him afterwards.
