A THOUGHT FOR THE DAY.

The very essence of free government consists in consider-
ing offices public trusts, bestowed for the good of the coun-
try, and not for the benefit of an individual, or a party—not
for a favored few.—John C. Calhoun, in 1835.

THE VOICE OF FAIR PLAY FROM LIVINGSTON.

"We note in the dispatches from Frankfort that it looks
like Princeton has the best chance for the new state normal
school. There it goes again—the big Western Kentucky
counties are to get nothing, as usual. We thought the pur-
pose was to put the school in the western part of the state,
where it should be, and not to put it to the closest town
available to Bowling Green, where the other normal is locat-
ed. Why not locate the new school at Bowling Green, just
as well as at Princeton, giving Bowling Green a monopoly,
and continue to keep West Kentucky from getting anything
from the state? How can it be expected otherwise when the
committee from the east and central part naturally draw these
things as close to them as possible."—Livingston Enterprise.

Livingston is east of the rivers, but the editor of the En-
terprise is a fair and right-minded man, and he sees the in-
justice to the western part of the state, of planting another
school under the lengthening shadows of the Bowling Green
Normal.

He notes that the Bear-Grass and Blue-Grass of Ken-
tucky have in all the past, arrogated to themselves the priv-
ilege of taking everything in sight that is paid for by the
State.

Even Eastern Kentucky that never emerged as really citi-
zens of the State until long after the Civil War, but remained
immured in the fastnesses of their mountains as feudists and
recluses from any proper statehood, has come in for some
small share of State patronage.

But Western Kentucky—the Purchase—a strong and in-
fluential citizenry, who took over from the Chickasaws the
rich agricultural section this side of the Rivers, and pioneered
it from forests, to wide, beautiful and large-yielding fields,
homesteads and flourishing cities and towns, has been, through
its 104 years excluded from any participation in the State's
favors. Not a single State institution lies within the borders
of this stronghold of wealth, of industry, of political power,
of social and commercial influence.

The high-sounding "Gibraltar of Democracy" and the
considerable "balance-of-power" of the Republican party—
is shunted to one side like an empty coach, except at election
time. But then, the "old coach" is dragged off the siding
laden with good American votes—Anglo-Saxon American
votes—and hauled proudly up to the State Capitol with loud
huzzahs and throwing of hats in the air.

Even in naming the committee for locating the Normal
school, as usual, the Purchase is completely ignored.

But after studying the personnel of that committee, in
spite of the fact that we are left out, we feel that far once
we shall be treated fairly and be accorded a place in the
annals of Kentucky's remembrance. The men on this com-
mittee—Mr. Barrett, Mr. O'Rear, Mr. Harmon, Messrs. Sneff,
Wallen, Goodpaster, Combs—we have noted them well—
are of such integrity of character and of such high repute for
their sense of justice, that we gladly lay our claim before
them.

We confidently believe that these gentlemen, after look-
ing over the State's need, will see the dire necessity for this
school in the Purchase, and the utter fairness of placing it
here. The only possible excuse, or semblance of reason there
is for building a Normal school in any part of the State—is
need. We have confidence that the commission named will
see as we do, that the hardy, clean, pioneering, up-standing,
outstanding, loyal people in this remote section—the Pur-
chase—need the school and deserve it.

And we rest our cause in their hands as one of justice
and right.

LIMBS ACHED, TIRED, DRAGGY

**Oklahoma Lady Had Not
Been Well For a Year,
and Regrets She Did
Not Take Cardui
Sooner.**

Clinton, Okla.—"I feel greatly
improved since taking Cardui, and
I only regret I did not commence
sooner." writes Mrs. George Curry
of Route 3, this place. Mrs. Curry
says she had not been well in over
a year when she began taking Car-
dium.

"I have suffered a great deal with
nervousness and this seemed to
come from womanly weakness," she
explained.

"I had headache, I was very
weak and tired across my back.
My limbs ached, and I did not
feel like doing anything."
"I had the tired draggy feeling
and I suffered so."

"I would have bearing-down
pains, first my hips and down each
side."

"I suffered each month and would
get so weak and worn out."
"Some told me of Cardui, and
I began to use it. It did me a world
of good. It took two bottles to
make me know I was getting bet-
ter, but by taking it regularly I
now feel great improvement, and am
much stronger."

"I owe my health to Cardui."
"The well-known medicine, which
Mrs. Curry mentions, is a mild
and purely vegetable tonic,
used with success for more than
40 years in the treatment of many
cases of womanly ailments. Thou-
sands of women have written that
they were benefited by taking
Cardui."

12,000 ISOLATED AT VICKSBURG BY FLOOD, IS REPORT

New Orleans, April 28.—Interest
in the Mississippi river until to-
day was divided between the
thousands of men working to pre-
vent further breaks in the levee
and the smaller groups who in
boats removed refugees to safety.
Vicksburg reports 12,000 persons
marooned.

Rescue work was carried on
at the Ferriday, La., flooded area
and at the Poydras, La., area, the
refugees being taken to camps
set up by the Red Cross and private
enterprises.

The flood is spreading through
Tensas Parish and is nearing Vi-
dalia, Acuzema and Delta bridge.
At Ferriday four miles from the
break the water is about six feet
deep with a swift current running
through the streets.

Plantation homes more than a
century old have been swept away.
Many prosperous plantations have
been inundated, ruining every pros-
pect for a crop this season. Due
to the quick action of local or-
ganizations and the Red Cross, no
real suffering has been reported.

Approximately 500 refugees have
crossed the river into Mississippi
and Natchez and are being cared
for there. The Red Cross today
took charge of the camp at Harris
burg yesterday where it is re-
ported 1,500 are being cared for.
Approximately 2,000 others are in
camps at Jonesville and Martins-
ville.

At Brathwaite, six miles below
the Poydras crevasse, approximately
450 persons were marooned
late today and plans are now un-
derstood to bring them to Violet.

The continued spread of back-
water in the lower Yazoo basin,
where approximately 1,700 square
miles of territory are inundated, to
day brought appeals for aid from
many residents who had become
marooned in Osageana county.

300 Miles By Auto On Gallon of Fuel Claimed for New Motor

Syracuse, N. Y., April 27.—
Three hundred miles by an auto-
mobile on a gallon of fuel costing
five and one-half cents, is the
claim H. H. Elmer, treasurer and
general manager of the Globe
Malleable Iron and Steel company
of this city makes for an engine
designed by himself, revealed to
the directors of the company at
its annual meeting here today.

Internationally known engine-
ring experts, including Arthur West
chief engineer of the Bethlehem
Steel Corporation, have inspected
Mr. Elmer's engine, and are said
to have pronounced it hundreds
of years ahead of times.

Three full sized models were
tested before the directors today.
One of the models, a one cylinder
three-horse power engine, ran con-
tinuously for eighteen hours on
one and one-quarter pints of fuel,
the directors stated.

The fuel used is oil, either
mineral, animal or vegetable. No
ignition or carburetor is used.
One of Mr. Elmer's models has
attained a speed of from 2,500 to
3,000 revolutions a minute, he
claims.

TOBACCO FLIES GROWING WORSE

Lexington, Ky., April 27.—To-
bacco flea beetles have been in-
creasing rapidly in Kentucky dur-
ing the last two years, according
to H. H. Jewett, entomologist at
the Kentucky Agricultural Ex-
periment Station.

The amount of damage they do
this year will depend largely on
how they have come through the
winter in various sections of the
state, he said. The insects are
recognized as one of the worst
pests that trouble tobacco grow-
ers.

"Spraying tobacco plants with
arsenate of lead at the rate of one
pound of paste to 10 gallons of
water or with the powder at the
rate of one pound to 20 gal-
lons of water has been found to
be a successful method of des-
troying the insects.

"They also may be controlled by
dusting the plants with a mixture
of one pound of powdered arse-
nate of lead and four pounds of
sifted wood ashes, care being
taken to see that this mixture is
properly prepared.

"An additional measure to pro-
tection to plants in the field may
be obtained by dipping them at
transplanting time in a solution of
arsenate of lead made of one
pound of paste or one-half pound
of the powder and five gallons of
water.

"The solution is stirred fre-
quently with a paddle during the
dipping. This method of control
gives best results when the plants
are arranged in small bunches
and only the leaves dipped in the
solution and then given a slight
shake to remove excess moisture.

PAINS SO BAD WOULD GO TO BED

Iron Mountain, Mich.—"I had ter-
rible pains every month and at times
had to go to bed on account of them. I
saw your advertisement and took
Lydia E. Pinkham's Vegetable Com-
pound with very good results.
I can work all day long now at my
sewing machine. You may use these
facts as a testimonial and I am
recommending the Vegetable Com-
pound to my friends."—Mrs. A. H.
GARLAND, 218 E. Brown St., Iron
Mountain, Michigan.

"Every month I had such pains in my back and lower part
of my abdomen that I could not be
quietly in bed. I suffered for about
five years that way and I was not regu-
lar either. I read an advertisement
of what Lydia E. Pinkham's Vegetar-
ble Compound had done for other
women, so I decided to try it. It surely
has helped me a lot, as I have no
pains now and am regular and feeling
fine."—Mrs. MARY DALE, Route 7,
Xenia, Ohio.

If you suffer as did Mrs. Garland or
Mrs. Dale, you should give this well-
known medicine a thorough trial.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautiful, darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that old, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for Woods Sage and Sulphur Compound, you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at any hair disappears, after another application or two, it is restored to its natural color and looks very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well known downtown, Fair Lane, Ky., school and Woods Sage and Sulphur Compound was because it darkens so naturally and evenly that nobody can tell it has been applied—so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the glossy soft and beautiful—Adv.

AVOID COLDS IN WINTER

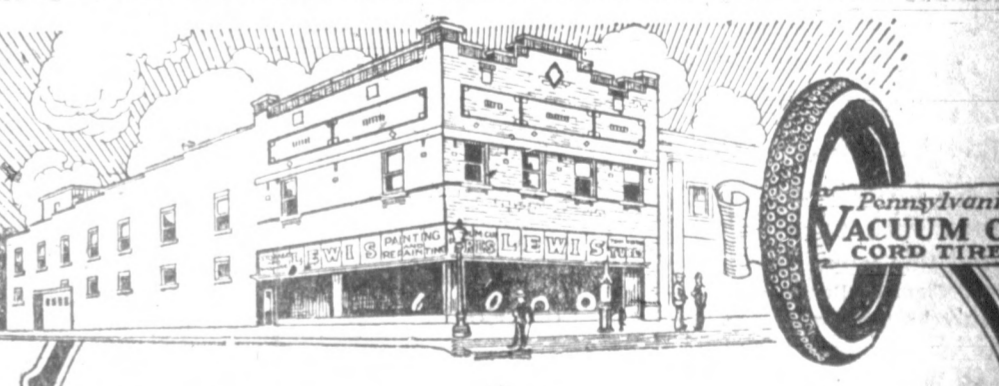

Keep the Body Nourished With Gude's Pepto-Mangan and Prevent Colds.

Under-nourishment or loss of vitality makes one an easy prey to colds. Gude's Pepto-Mangan taken regularly three times a day either in liquid or tablet form builds strength and thus prevents colds. Take no chances during the winter months and keep your entire body fit, and you will have a healthy happy season. Some of it now from your druggist, and before it is all gone have another bottle ready. Several bottles will make you feel like a new person. Gude's Pepto-Mangan in both liquid and tablet form is for sale by all druggists. Ask for it by the name, Gude's Pepto-Mangan, "A." Adv.

GIRLS! BLEACH UGLY FRECKLES

Change the Juice of two lemons into a bottle containing three ounces of Orhard White, which a drug store will supply for a few cents shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion whitener.

Massage this sweetly fragrant lemon lotion into the face, neck and hands each day and see how freckles and blemishes bleach out and how clear, so and rosy-white the skin becomes. Adv.
