Seen & Heard Around MURRAY

Wendell Givens of the Mayfield Messenger says about the Calloway County High Christmas Tournament, "It will be played Wednesday through Saturday in the Calloway County High gym, which undoubtedly ranks second only to the Murray State University Sports Arena in Western Kentucky."

Some folks may wonder why the United States is fighting Communism in Viet Nam.

Here are a few thoughts on Communism as expressed by Rev. Harry A. McGinnis of California.

Communism would destroy our home life.

Communism would destroy our Constitutional Republic.

Communism would destroy our schools.

Communism would destroy our churches.

Communism would destroy our freedom of speech.

Two Injured In Wreck Near Brownsville

Two Murray men were hospitalized at the Haywood County Hospital in Brownsville, Tenn., after being injured in an automobile accident on Interstate Highway 40 near Brownsville last night about 10:30 p.m.

Clintus McDaniels, driver of a car belonging to John D. Lovins, was reported to have received a broken leg and bruised chest. Joe Richard Nance, passenger in the car, has a wrenched back and was knocked unconscious. He later regained consciousness at the hospital.

The Murray men were reported to be enroute home when the accident occurred. Reports are that a truck pulling a corn picker apparently had a collision with an automobile, blocking both lanes of traffic. McDaniels, who was driving the Lovins' automobile, was unable to stop as he came upon the accident and collided with the wrecked vehicles.

Nance's mother, Mrs. Purn Nance, and his sister, Mrs. Jimmy Cooper and Mr. Cooper went to Brownsville last night to be with their son and brother. Joe Richard Nance's wife and children went to Brownsville today to be with him.

Checks Being Passed, Stolen From Firm

The Sheriff's office is seeking Louie Cannon on a charge of passing checks allegedly stolen from Ken's Truck Stop, formerly Ken's Truck Stop, on US 641 South.

The Sheriff said that Cannon is charged with taking fifteen checks from the firm's checkbook and that approximately half of the checks have been used and cashed. The checks passed thus far are made out to Louie Cannon and signed with the name of L. P. Weismore, present owner of Ken's Truck Stop. All of the checks passed thus far have been in the amount of \$72.46.

Cannon is a former employee and had a key to the establishment. This was found in his room which he rented. Cannon drives a 1962 gray Chevrolet.

The Sheriff urged that proper identification be asked for when any check is cashed by a customer. One of the checks passed bore no signature at all.

Mr. Weismore alleges that he did not sign any of the fifteen checks in Cannon's possession.

ROTC Christmas Party Held Sunday

Members of the Murray State University ROTC Advance Corps held their annual Christmas reception Sunday afternoon at the Holiday Inn in Murray. Amid an atmosphere of Christmas cheer, junior and senior ROTC cadets and their wives and dates enjoyed a pleasant get together and refreshments.

In addition to being a pleasant social affair, the formal reception proved to be a teaching vehicle for the future U.S. Army Officers. It is a recognized fact that the duty of an officer in the U.S. Army is not confined to his military duties but extends to his obligations in the social field, said Colonel Lance E. Booth, Professor of Military Science at MSU. Attending the reception and aiding the cadets were the officers of the Military Science Department and their wives.

Mrs. Jacqueline Kennedy

Jacqueline Kennedy To Sue To Block Book Publication

NEW YORK (AP) — Jacqueline Kennedy would rather endure a "horrible" trial than live with the official book about her husband's assassination as written.

Her publisher insists that blocking its publication would be censoring history.

The Kennedy family, hand-picked William Manchester to set down the events of November, 1963.

Mrs. Kennedy charges the historian with breach of contract and within a few days plans to file a suit against Manchester, Harper & Row Publishers, Inc., and Look Magazine, which bought the serialization rights.

Her attorney, former federal judge Simon Rifkind, said Wednesday he would ask a federal supreme court for an injunction restraining the publication of "The Death of a President" and its serialization, scheduled to appear in Look Magazine Jan. 10.

"As horrible as a trial will be, it is now seems clear that my only redress is to ask the courts to enforce my rights and postpone publication until the minimum limits of my family's privacy can be protected," Mrs. Kennedy said in a rare statement issued at her Fifth Avenue office.

Began Publication William Attwood, editor in chief in all publications of Cowles Communications, Inc., which owns Look, announced the magazine's intention to begin its serialization on schedule Jan. 10.

"We feel strongly that it would be improper to withhold this significant history."

Council Votes 7-5 To Double City Sticker To Cover Raises

The Murray City Council increased salaries of all city employees last night which increased the city budget for 1967 by \$33,000. The council approved the drawing of an ordinance which will double the city sticker cost in order to raise the money to make these increases.

The budget for 1967 is \$68,000 more than the 1966 budget, and reaches a total of \$434,204.00 a record for the city.

This budget compares well however with the city of Mayfield budget which is about \$500,000 and Mayfield does not have a city garbage collection system. This one item in the 1967 Murray budget accounts for over \$76,000.

Mayor Holmes Ellis, in explaining the 1967 budget pointed out that salary increases for all departments amount to \$33,000. The new budget also includes the purchase of a new fire engine and street sweeper. Both of these items will be amortized over a three year period.

The new budget increases funds for street paving by \$5,000 to a total of \$15,000.

A capital outlay fund of \$11,500 is budgeted for next year. This will be primarily for rest rooms and storage facilities in the city park.

The new budget also provides for the addition of one new policeman, and several new firemen. The new fire sub-station will demand the hiring of at least three new firemen.

Also for next year \$3,000 is set aside for the installation of a precast concrete bridge. The city has four or five wooden bridges, principally in the Meadows area, which will be replaced with concrete bridges at the rate of one each year.

Mayor Ellis pointed out that salary increases will bring about an increase in Social Security payments next year of over \$500.

The revenue of the city for 1967 is anticipated at \$434,204.00. (Continued On Page Eight)

Cud told Police he pulled out and hit the 1966 Chevrolet driven by Mrs. McCallum Jones of Murray Route Three in the left rear quarter panel.

The Police report said no injuries were reported as a result of the collision.

One person was cited for speeding by the Murray Police Department on Wednesday, according to the Police log.

Veterans

Questions & Answers

Q. — My husband is a World War II veteran. We have been married six years. But he still lists his mother, who is well-to-do as his sole beneficiary in his \$10,000 G. I. insurance. Is there anything I can do about this? Can I get the VA to change it? I am unable to work any more.

A. — Legally, the Veterans Administration must pay the proceeds of G. I. insurance to the beneficiary named by the veteran.

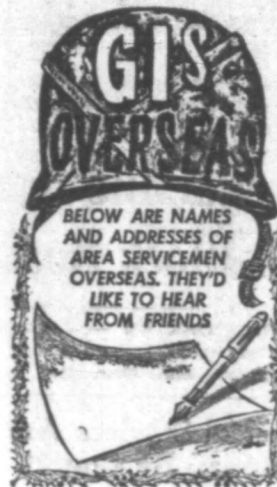

Q. — I entered active duty April 15, 1958, and was discharged May 21, 1962. Can I get a home loan and go to school at the same time?

A. — Yes.

Q. — If I go to school under the new G. I. Bill, will I have to pay the money back?

Q. — I started school on September 19, 1966, under the new G. I. Bill. I understood I was eligible for \$100 a month, but I did not receive that much. Why?

MAYFIELD, HICKMAN ADVANCE, CALLOWAY TOURNEY

Murray High Tigers and Carlisle Are Dropped In Opening Rounds

By GALE GARRISON

Mayfield and Hickman advanced to the semi-finals last night, by defeating Murray and Carlisle County 80 to 64.

In the first game Mayfield got the tip, and Tommy White hit a short jump to give the Cardinals a 2 to 0 lead and they were never headed.

Murray outscored Mayfield in the second quarter by two points, and made a good try in the opening minutes of the third quarter but after the half with Mayfield leading 30 to 19, a free throw by Phil Jones, and a field goal by Gary Wilkins, and Vic Dunn, cut the lead to six points, but the Tigers couldn't keep up the pace and fell to a 66 to 40 loss.

Vic Dunn was the big gun for the Tigers scoring 16 points and pulling in several rebounds. Vic was the only Tiger to score in double figures.

Keith Hill was the leading scorer for Mayfield and the game with 26 points. Dennis Williamson was the only other Card to break into double figures, with 16.

In the nightcap the Carlisle Co-

unity Comets were a very stubborn team and tried to come back time after time, but could never make the stride. They tied the game once but failed to take the lead.

Nate Perry scored the first basket for Hickman, and in less than three minutes had built the lead to 10 points at 13 to 3.

Carlisle came back and cut the lead to 4 points at the quarter and with 3:55 in the half tied the game at 24 all, on a pair of free throws by Galen Lancaster. Both teams had a chance from the line but failed in the attempt, and the score remained tied for almost two minutes. Shelly Barclay was the first to break the tie by hitting a two pointer, and Hickman went on to win. They were never able to pull away more than five points until the last five seconds of the third quarter when Joe Barclay hit a free throw, and most of the time the lead was no more than one and two points.

In the final quarter Hickman started to pull away and won the game by 16 points, 80 to 64.

Joe Barclay led all scorers for the night with 33 points. Danny Duncan led the Carlisle team with 17 points.

Tall Lefty Will Meet Giants Again

SAN FRANCISCO (AP) — Who ever thought Mike McCormick would be pitching again for the San Francisco Giants?

The tall lefty, who they traded away as a sore-armed case to the Baltimore Orioles almost four years ago to the date, returned today to his old club with a new customary need of left-handed pitching.

The Giants obtained McCormick, now 28, from the Washington Senators Tuesday in exchange for right-handed relief pitcher Bob Priddy and utility outfielder Cap Peterson.

"The deal was made to strengthen our left-handed pitching," a club spokesman said.

And the Giants seemed due to get a much healthier McCormick than the one they dealt off to Baltimore on Dec. 15, 1962, along with Stu Miller and catcher John Olerio in a swap for pitchers Jack Fisher, Billy Hoelt and catcher Jim Coker.

Neither Fisher nor Hoelt had any success with the Giants but Miller remains one of the American League's fine relief hurlers.

freedom of press. Communism would destroy our freedom of private enterprise.

In fact, communism would destroy everything Americans hold dear, and make slaves out of all of us.

Communism is an evil from beginning to end. Every American should expose this deadly menace that is trying to engulf the whole world in its clutches.

We give the following quotation from Gus Hall, the outstanding Communist in the United States. It may repel the sensitive person and should repel every American.

Gus Hall was trilled everywhere he went during World War II and was kept under surveillance constantly by the FBI.

"I dream of the hour when the last congressman is strangled to death on the gulf of the last preacher — and since the Christians seem to love to stir about the blood, why not give them a little of it? Sit the throats of their children and drag them over the mourner's bench and the pulpit, and allow them to drown in their own blood; and then see whether they enjoy singing their hymns." — St. Louis Globe Democrat, May 12, 1963.

We'll agree this is a horrible statement made by an equally horrible person. But, this will give some idea as to the depravity of Communism, and the utter disregard for the individual, his personality, his dignity, his inherent rights, his property, his beliefs.

This is what we are fighting in Viet Nam — the same thing we have always fought for, to be free to live our own way of life which is the best way of life ever devised and to protect it from depraved Communist no goods.

Mrs. Elsie Lovett of Hardin Route One has six (yes six) Mason jars with the Nov. 30, 1958 patent date on them. And, Mrs. Mark Thompson of Murray Route Three also has one. It is aqua-blue and belonged to her grandmother.

We still can't realize how we overlooked obtaining one of these gems down through the years.

Well, we'll have to admit we were wrong. We had the site of that bomb on "Doomsday Flight" as up in the cockpit, inside, where the wheels are retracted. We figured that this had fixed the bomb up in this hole somewhere, but it was in the pilot's briefcase all along.

A man was lecturing on the virtues of temperance, but because of his red nose and face his talk was not very convincing. Toward the close of his talk, he assumed a pious demeanor, and said, "I have lived in this city all my life, and I am proud to say that I have never been in one saloon."

From the back of the hall a voice: "Which one is that?"

America is a wonderful country. Where else can you walk out of your mortgaged home, step into a time-payment car, and drive down a bonded highway on credit gas to charge something at your favorite store?

Rifle Team Sweeps Three Matches

Last weekend the MSU Varsity Rifle Team swept through Kentucky, defeating the University of Kentucky, the University of Louisville and Eastern Kentucky University in separate matches.

Friday evening the MSU Shooters defeated the University of Kentucky at Lexington by a score of 1953 to 1399. William Beard and Sharon Van Sell fired the top scores for Murray State, both firing 273.

Moving to Richmond MSU took on Eastern Saturday morning. MSU came out on top with a 1321 compared to Eastern's 1253. Again, Beard led the team with a 272 to place as the top shooter in the match. Joe Wadka and Sharon Van Sell took second and third place in the individual scores with 268 and 262 respectively.

Saturday evening at Louisville, Nancy Sorell took top honors with a 283, while pacing MSU to a 1375 to 1294 victory over the University of Louisville. Van Sell, Beard, Harrington, Wadka, and Riley all of Murray State, rounded out the list of the top 8 shooters with scores of 275, 274, 270, and 270 respectively.

Home from the whirlwind tour, the rifle team begins preparations for matches with Xavier University and the University of Cincinnati on the 14th and 15th of January at Murray.

Walleye To Be Protected In Two Months

FRANKFORT, Ky. A Kentucky game fish, the walleye will have a protected status during the months of February and March.

The State Fish and Wildlife Resources Commission has closed the walleye season during this period to allow a better spawn of fry. Wellers, the commission said, usually spawn during these months and the curb is designed to prevent anglers from taking adult fish just ready to spawn.

Fishermen who catch walleyes during this period are requested by the commission to handle the fish gently and release them unharmed.

The Commission also closed indefinitely Barren River Reservoir near Glasgow to all walleye fishing. Fisheries Director Bernie Carter explained that the lake, which was stocked with walleye earlier this year, is designed to be a source of this fish for stocking in other state lakes. He said the stocked fish must be protected for at least four years to give them a chance to mature and produce eggs for stocking purposes.

In other action, the Commission: — Set 30 inches as the minimum size limit for muskies, another game fish.

— Approved purchase of 37 additional two-way radios for use in efforts to stamp out illegal night hunting for deer and rabbits.

— Ordered further study of a site for a half-million dollar freshwater fish hatchery.

Two Teams Improve Positions But Kentucky Wesleyan On Top

By CURT BLOCK

UPI Sports Writer

NEW YORK (AP) — Second-ranked Southern Illinois and sixth-ranked Pan American both weathered defeats and improved their positions in today's United Press International small college basketball ratings giving rise to the attitude "Who you play and not how you play."

Kentucky Wesleyan retained its No. 1 ranking but Southern Illinois closed to within a whisker after battering St. Louis 99-59 and falling short against Louisville, fifth ranked in the major college survey, 70-66 in a double overtime thriller.

SU Behind

SU, twice victors over Kentucky Wesleyan during the regular 1965-66 campaign but losers in the NC AA championship game, now trails the Panthers by six first place votes and five points overall. Last week the margins were 17 and 49 in the same categories.

Evanston collected three votes for first from the 36-coach UPI rating board and tallied 263 points to hold onto third place in the rankings which are based on games played through Saturday, Dec. 10. Akron was fourth and Cheney State fifth as the top five remained intact for the week.

Pan American, which meets Western Kentucky tonight and Tennessee State Saturday night, stands an excellent chance to jump a few notches next week. The sixth-ranked Broncos scored 159 in the UPI survey, only two behind Cheney State and 12 in back of Akron.

Points are awarded on a 10-9-8-7-6-5-4-3-2-1 basis for votes from first to 10th. Five coaches from each of the seven geographical areas of the nation comprise the UPI Board.

Couple Lacking in Good Manners

By Abigail Van Buren

DEAR ABBY: Last Sunday we attended church in a small college town where our daughter is a student. The young couple sitting directly in front of us did everything except keep each other in their seats. Clearly, they were having a date, and it made no difference that they were in church, surrounded by serious-minded adults who had come to hear the church service. My husband found me with my eyes not to say or do anything, so I choked out and said I would write to you. What would you have done!

CHECKIN

DEAR CHICKEN: I would have prayed to the Lord to send those ill-behaved young people some much needed manners, judgment, and self-control.

DEAR ABBY: At the end of your column it says, "Troubled? Write to Abby."

Well, I am just troubled enough to write to you about this problem, which is not an end: When I invite friends to dinner, some will say, "Don't go to any trouble."

Exactly, what do they mean by this? Do they wish me to serve them TV dinners in their original containers? Or do they expect me to take them to a restaurant? Those are the only two ways I can think of to entertain guests without "going to any trouble."

I am a good cook, and my friends know it, so they should realize that I most certainly shall go to considerable trouble in preparing a company meal. And the next person who tells me not to "go to any trouble" will not be invited again!

DEAR TROUBLED: Yes, appear to be all steamed up over a colloquial expression. Your guests were trying to tell you not to "knock yourself out," another expression I am sure you understand, but would not be expected to take literally.

DEAR ABBY: Please, please print this letter. It might make a few girls think twice before begging for a wedding ring.

I fell in love with Mark when I was 15. He was 17. I fought with

Loses Hair To Make Good As Secretary

NEW YORK 15 — Between smiles and sneezes, Jeanette Ramos pointed out to her short-cropped hair and told of sacrifices a girl must endure as she prepared for a secretarial career.

Miss Ramos, 19, once had hair long enough to sit on. Now in just touches her collar in back and the ends of her ears in front.

During a grooming course at a secretarial school in Honolulu, she was advised to cut her locks, deemed "unbusinesslike."

Soon after, she was rewarded. She won the "Secretary of the Year" award over 40,000 students in 50 states. The competition was run by the Nancy Taylor Secretarial and Penmanship School.

Her prize included a trip to London. Interviewed as she prepared to return home, Miss Ramos exhibited marks of the typical "code in def. hed." She said "It's a genuine British import."

Makes Sacrifices

In addition to not being able to wear extremely long hair, secretaries must make other sacrifices, according to Miss Ramos.

"You have to arrive in early and stay late, if the boss wants you to," she said. "You have to put your personal life aside, if you really want to succeed."

The dark-haired beauty said she has been taught that most secretaries get in bad with the boss by bringing family problems into the office, by complaining, by joining in office gossip, by breaking confidences the boss has entrusted her with.

Perfect Boss Marks

Miss Ramos, who will be ready for employment sometime in April, told of the marks of the perfect boss. Included:

—A neat appearance. "I don't care if he is tall or short, fat or thin. I just wouldn't like to work for a man who arrived at the office in a wrinkled shirt, scuffed shoes and needing a shave. His appearance affects the morale of office workers and customers."

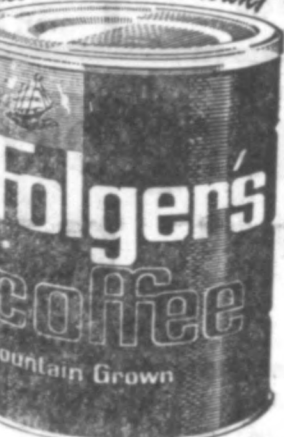

—Consideration. "If you do something wrong, he shouldn't jump on you. And he shouldn't expect to give you more work than you are capable of doing."

'Cooners Everywhere! The rules for the Buddy Hunt are drawn up by professional trainers and hunters, not by the small clubs. These are standard U.K.C. rules. We misrepresented some of the rules which we will be glad to correct if and when we get a score card or some official rules. Any intelligent hunter will recognize in these articles which part is fact and what is our own ignorance.

We have really "hit the jackpot" today, with distinguished visitors and letters. It will take a few days to get it all on the press but stay with us friends and don't stop calling and visiting. We will never be too busy to need and welcome you. We have many important hounds for our club. You "name 'em and we've got 'em", but if we missed yours then it's our loss. We have some very fine bird dogs and Beagles as you will see. Slowly but surely we are getting these two breeds and we're pleased. The reason we mention these first is because our club has been needing these special hounds and Fox Hounds to "even out" with our 'Coon hounds.

Please Fox Hunters - join us won't you and share your "top-notch hounds and stories" with all of us? We need and want you!

Plenty Perry and Ruford Perry... won't you call us or visit us and tell everyone about your hounds, the big hunts and everything about Fox Hunting?

Mr. Gaylon Trevathan stopped by to visit and share a picture of his beautiful little granddaughter, Marcia Kay McCusick, and her Beagles. This young princess will be 4 years old in January and is quite obviously the "apple of her grandparents' eye". Marcia's mother, Hilda McCusick kindly gave us permission to share the picture with all our friends. Mrs. Lottie Trevathan, Marcia's grandmother "feigns annoyance" with the hounds but you find these two young ladies playing with the Beagles quite often.

James Trevathan is the son of Mr. Gaylon and "Miss Lottie". His fancy leans toward Bird Dogs and we're told he owns four "dandy" ones. Wish we had their picture on our wall. In the Bird Dog "Who's Who", Mr. James Trevathan proudly presents "Buck", a Setter, "Ruby", a Setter, "Jim" and "Bullet" are Pointers. We extend a special welcome to you, sir, and your Bird Dogs.

Now, according to Mr. Trevathan, the Beagles belong to the "Ole Man". He offers for your approval (and WE approve) "King" and "Kate" who are registered. "Sue", "Judy" and "Whistle" who finish this string of fine Beagles.

The Trevathans make one more very nice family we are glad to welcome into our club. The Mr. reads "Seen and Heard" first, then "Dear Abby" or "Fins 'n Feathers", whichever comes first, then the other one. After this he can slow down and read the entire paper. We feel quite "puffed up" at traveling in the same orbit as these two fine columns. We notice everyone mentions these three articles each time. In all fairness we should say here and now we only see hunters, so we know Gale Garrison's "Time Out" and Ed Collier's "Cycle Corner" have just as many readers and probably more. We just travel with a different crowd. Of course this one is "too old" for the sports and two cowardly for the cycles, so hats off to Gale and Ed and a rose to you boys.

You would never believe we got side-tracked again! Our partner has "this thing" about writing, amounting to an aversion you might say. To get him to write an address is some chore; to write a letter absolutely impossible. He can't tolerate a lot of our "hog wash" as he puts it. We tell you this in an attempt to make you understand one of the reasons we enjoyed a letter we received yesterday. Knowing only too well how men dislike to write, this gentleman wrote us six pages, and through the entire letter he was giving praise to someone else, also some very thoughtful suggestions of the "golden rule for hunters". We treasure this letter and imagine we shall refer to it many times in the future. The letter was from Floyd Barrow of Route Two, Hazel. Thank you sir!

We would like to mention his hounds first, and reading this list of dogs is like reading a dictionary.

First his "Blue" dog, 6 years old (probably Bluetick—he didn't say); "Adam", a 2 year old Black and Tan, registered; "Spike", 7 months old registered Plott; "Lady", a Pointer 3 years old; "Queen", a Setter, 6 years old; and last, but far from least, Dwayne, the Barrow's seven year old son, owns a 4 year old Redtick named "Speck". Floyd, why not check your dogs again? There must surely be a Walker you've overlooked. We seem to have a fair representative of almost every other breed. That is some "line-up" of fine hounds. Whew! Glad we don't have to feed 'em. Three "biscuit eaters" are more than we can handle. If the small fry reads this we're "in the soup" again. She does not like that reference!

Floyd and his hounds sometimes go with some of the Puryear youngsters and dads to hunt ole Ringtail. These youngsters had never seen a 'Coon in a tree and this was a big thrill in their lives. The grand finale to the hunt was a wiener roast. (Twin Lakes boys, why not borrow this idea sometime for a "Father-Son Hunt and Wiener Roast" — you would enjoy it as much as the young hunters). On warm nights Mr. Barrow has been taking Dwayne on short hunts since he was four years old.

Floyd Barrow and Red Alton had a nice hunt December 7th. They saw 13 'Coon — den treed 4. They were hunting Red's two Black and Tans, "Jeff" and "Amos". He says these are nice young hounds and will really make a 'Coon live hard. Floyd carried his "Blue", "Adam" & "Spike". They also used Fred Whitnell's 2 year old registered Black and Tan who is a brother to "Adam". You know men and hounds enjoyed this hunt.

Later we would like to share with you some more information and reminders from this very thoughtful and unselfish gentleman. Thank you sir! We appreciate the nice remarks and if there is a family anywhere who doesn't enjoy the Ledger and Times may we be the first to welcome them and you to our family.

We have another young hunter to welcome. He is Harrold Doran, 13 year old son of Glenn and Ann Doran. Harrold bagged his first two Quail last week. He got them the "hard way" — without a dog. He took his game on their farm in Tennessee. Congratulations, son! Some of our pros don't do that well. Harrold's young sister Mary is our honored guest today. She and Teresa doing the "cub reporting".

Total Home Economics Program Compared To Parts Of Tree

By CONNIE EVANS
Calloway County High School

The total home economics program of my school is composed of three main parts. Let us compare these parts to a tree.

The first part is classroom instruction and may be compared to the roots of a tree. Home experiences may be compared to the trunk of a tree and the organization of Future Homemakers of America to the branches and twigs of a tree. At this point let us look at the seven areas of classroom instruction or seven roots of a growing, healthy tree. The first area or root is food.

In this area a home economics student is taught to prepare meals for three days, proper ways to preserve fruits, vegetables, meats, cooked foods, pickles, relishes, jellies, jams, in addition to preparing special occasion meals.

Another root or area is that of clothing. Through this unit a girl learns to make aprons, skirts, blouses, simple and shirtwaist dresses, sports garments, tailored, dress-up, and sport dresses. She also learns to plan, buy, and care for wardrobes as well as altering and remodeling garments.

Our third root of this very important tree is the area of child care. This area offers knowledge of child care for children from birth to the age of twelve years.

The fourth of the seven roots in our tree of knowledge is that of management. In this area one is taught to use money wisely, save time, and energy to the best advantage possible. The student is also taught to work with the family in managing the home, proper methods of laundry, and family finances.

Only three years of our fifth root or area is taught. This is the root of good health and safety. The home economics student learns health and safety, home care of the sick, and health of the family.

The root of housing offers our

second root of knowledge. This is the root of good health and safety. The home economics student learns health and safety, home care of the sick, and health of the family.

room bedroom arrangements, making the most of living area, planning and remodeling kitchens, and planning interiors home.

Our last root or area is this tree of the future is that of relationship. This root may draw friends and family as the root of a tree draws food and water to feed the tree.

As these roots reach out day by day they provide the essentials to the lives of ours and others about us.

The second part of the total home economics program of my school may well be compared to that of a trunk of a tree. This trunk contains pipelines for the home experiences. These pipelines are home practices, home projects, and home visitations. Home practices help the girls improve classroom learnings at home. A girl is expected to complete three home projects a year which may consist of any of the seven areas or roots listed above.

Home visits are visits by the students home economics teacher in to her home at least twice a year to better guide the student in home experiences.

This trunk or vital part of the tree reaches out into the third and last part of home economics and its total program.

The third part of the total home economics program is that of the organization of F. H. A. or Future Homemakers of America. Let us compare this part to the twigs and branches of a huge, almost developed tree.

You may ask yourself, "What is F. H. A.?" The answer is it is a national organization of both girls and boys who study home economics in Junior and Senior high school. Any student enrolled in a Junior or Senior high school, taking or has taken, a home economics course may join F. H. A. Another twig of the tree is membership and is voluntary. The all-over goal may be applied to another branch or twig. This goal is to help individuals improve personal family, and community living both now and in the future.

The three types of membership or three more twigs of our tree are active, associate, and honorary. The F. H. A. colors still another twig, red and white. Our motto, another branch is, "Toward New Horizons" and the flower is the red rose.

A member of F. H. A. may work on three degrees while in this organization. The degrees are Junior, Chapter, and State. As a girl receives each of these degrees she

becomes a more informed member of her local, state, and national, F. H. A. grown into a more worthy home member, and a more valuable school and community member. Still our tree wouldn't be complete without a bit of recreation. This recreation adds color to many a dull twig or branch. This year we have begun plans for an annual Mother-Daughter Banquet, style review, and a contest of points to select a Miss Future Homemaker of America. We also sponsored our first Daddy-Date Night which was a lot of fun and a big success.

Through the help of our advisers, members, and officers we feel we have accomplished a great deal in having a total program of home economics at Calloway County High School. In like manner we feel we have begun the growth of a mature, and well developed tree of life for the present and for the future.

with \$29,204.00 to be raised by some type of new tax. Mayor Ellis pointed out that the city could increase the automobile and privilege license tax, begin a new municipal insurance tax (in which an individual and firm would pay a tax on the basis of how much insurance he carried), or it could begin a payroll and occupational tax.

The budget and salary increases were voted in short order and the motion was then made that the city sticker tax be doubled from \$5.00 to \$10.00 to cover the \$29,000 deficit in the proposed new budget.

After some discussion the motion was passed on a seven to five vote. Some councilmen stated to the city sticker tax be doubled from \$5.00 to \$10.00 to cover the \$29,000 deficit in the proposed new budget.

Approximately \$34,000 in new revenue will go into the city treasury with the city taking the additional 10 per cent in tax money as it did this year. Growth and the recent annexation will provide the rest of the increase in revenue.

The new budget was prepared after great effort by Mayor Ellis and other city officials and it was seen that a deficit of about \$29,000 would exist if the budget was adopted. It was the purpose of Mayor Ellis and the Finance Committee to spend some time to investigate possible new avenues of tax revenue in order to bring in at least that amount.

The intent of the council to hike the city sticker cost however makes up the deficit in the new budget so presumably no further tax increases will be expected.

A comparison of expenditures next year and this year is shown below:

Department	1966	1967
Administration	\$32,850	\$35,800
Police	77,000	80,111
Fire	62,720	80,578
Street	68,000	84,048
Sanitation	70,800	76,610
Other Expenses	41,900	56,500
Capital Outlay	12,800	11,500

The income of the city was \$306,250 in 1966 and next year it is expected to be \$343,204.00 with the additional revenue coming from natural growth, the extra 10 per cent in taxes allowed by the General Assembly, revenue from the new annexation, and the approximately \$30,000 received from the doubled city sticker tax.

City employees receiving salary increases included members of the City Police Department, City Fire Department, City Street Department, City Sanitation Department, Murray Water and Sewer System, and other employees not in these departments or systems.

Increases ranged from \$10.00 per month to over \$50.00 a month for department heads or supervisory employees.

Mayor Ellis said that the new budget might be considered ambitious by some, but that the city even now is not providing the services that it should. There are a number of needs that were not even considered in this budget, such as a city garage and other long range projects which are on the planning boards.

If Murray is to continue to grow, and develop and provide its citizens with the services and facilities they want and desire, then proper revenue must be forthcoming to finance them, he said.

In other action last night, the council passed an ordinance providing for no parking on the east side of North Sixth Street from Olive to Chestnut Street, on the second reading. The first reading to annex three large areas to the south and southwest was approved.

significant document from the American people," he said. "To do so would amount to a censorship of history."

Originally, the Kennedy family expected not to give its authorization to any work about the assassination's events. But when it became obvious that many books would be written on the subject the family decided to authorize one volume.

Manchester, who had written a book about Kennedy based on interviews, was suggested to the family by Pierre Salinger, who had been President Kennedy's press secretary. Robert Kennedy, then the attorney general of the United States, announced the authorization for Manchester to write his book "in the interest of historical accuracy and to prevent distortion and sensationalism."
