We certainly hope that Twigg does not start a fad which will make under-nourishment popular. It's no sin to be healthy.

Hill fellow well met — Bill Pinkston.

One good thing about this time of year, the grass begins to grow more slowly.

This was evident Saturday afternoon when we were able to mow the entire yard in an afternoon. The less resistance to the mower, the faster you can mow.

We're picking up the Hickory Nuts that are falling from the Scaly Park. Though maybe the squirrels might run out of nuts this winter and if they do we'll just put this bucket of nuts back in the woods for them.

We had to holler at Sport Sunday to put down an ear of corn we put out for the Squirrels. Sport acted like he didn't know what we were talking about. We threatened to get out his chain and chain him to a tree and he dropped the ear of corn and took off. We pitched it back into the woods so the squirrels could have a snack.

Dogs have more sense than people give them credit for. Sport probably figured he would go back and get the ear of corn after we had gone in.

The Calloway County man was returning home from work at the General Tire and Rubber Plant at the time of the accident. Reports are that he held tightly to the steering wheel of the car while it was overturning and this kept him from being thrown out of the car.

Nelson Brides, Cards Win Over Philes

Last Night 5-1; 8 More Wins Give Cards Flag
By GARY KALE
UPI Sports Writer

The authority on Brides' mound performance Monday night was his own manager, Red Schoendienst, who had to grip the edges of his foam-cushioned bench to keep from yanking the 24-year-old right-hander.

Brides is 9-2 as a starter and has a 2.41 earned run average after being promoted from the bullpen when Gibson broke his leg on July 15. He scattered eight hits and struck out six, but still had trouble pleasing Schoendienst.

"With all the games Brides has pitched this year, this was his worst," said the red-haired Cardinal manager. "He pitched like this last year, when he won only 4 games and lost 15. He couldn't

Board of the Club's safety project. The safety committee is in the process of having a bill drawn up for presentation at the January Session of the state legislature, to make driver education required before issuing driver's license at age 16. A safety skit has been prepared and is being performed by three University High students for all organizations in the city who desire it. The ultimate aim of the Murray Woman's Club in this effort is to make it mandatory to train youth in driving skills BEFORE they are allowed to drive on public highways, and thus reduce by great numbers the traffic problems which affect everyone.

Mrs. J. I. Hosick announced that the recipient of the Arthritis Foundation Scholarship has been selected. Announcement of the student chosen for this honor will be made at the general meeting on Wednesday night.

Mrs. George Hart, chairman of the Cook Book committee, announced that progress on the book is being made and the books are expected for distribution by December 1st.

Mrs. Rob Ray, Sigma chairman, announced that Sigmas will have an open meeting on October 9th at 8:00 p.m. This will be a panel discussion on "Pressures on Youth" and will be moderated by Dr. Hank Kodman.

Mrs. Cowans reminded all members to attend the first general meeting to be held on Wednesday night at 6:00 p.m. Col. James Bassett will be the guest speaker and his talk will be very much in keeping with the Club's safety project.

hundred and fifty thousand dollars.

If elementary school students are put into the City School System and Murray High students moved to the University School building, then the present Murray High building would be used as a junior high school building for city school students and University School students.

University School was formerly known as the Murray Training School and was used primarily as a teacher training facility when Murray State University was known as Murray State Teacher's College.

In recent years the teacher training has been broadened so that now practice teaching is done in the city schools, in Paris, Tennessee, Paducah, and a number of other schools in this area.

University School enrollment has been "frozen" so that now only about thirty pupils may be in any one grade, and its use as a teacher training facility does not hold the position it formerly held.

Distribution of elementary school pupils throughout the city school system is believed to be one of the proposals to be submitted by the committee on Thursday.

The fall proposal of the committee, composed of educators, will be made at 11:30 on Thursday.

This morning Superintendent of City Schools Fred Schultz said that no publicity had been given to the study of the Advisory Committee because its suggestions may not be accepted and therefore a furor would possibly be caused for no good reason.

Members of the committee have been urged not to discuss the proposal outside of their own group.

If the two school systems are merged, then the proposed merger of the city and county school systems would possibly be postponed for another ten to twenty years or possibly eliminated completely.

There has been some talk within the past two years concerning the advisability of consolidating the Murray School System and the Calloway County School System.

Such a merger would eliminate difficulty encountered in expansion of the city limits and attempting to keep the city school district in line with the city limits. A number of other advantages have been listed by proponents of the consolidation proposal.

A merger of Murray City Schools and University School would practically eliminate any consolidation of city and county schools in the foreseeable future, since all pressure would be removed from the city system with the high school moving into a new million dollar complex.

lots of hard work between now and Saturday.

The Racers will open their season at Martin, Tenn. against University of Tennessee, Martin Branch, a big veteran team that has beaten Murray the last two years.

he reached the side of the house, he just walked right on up the bricks as though he were on level ground. Guess there must be some advantages in being almost anything.

However, in all fairness, we must say we have never been in a situation where we wanted to walk up the side of a building.

Pulling some weeds the other day and a Robber Fly lit right on our right hand. The Robber Fly is a large flying insect that lives on flies. He just lands right on top of them, in the air or on the ground. He is the one that stays just ahead of you when you are walking down a dusty country road.

We appeared before the executive board of the Murray Woman's Club yesterday and it made us sort of nervous. Women make us nervous anyway, but when you appear before an intelligent and talented group such as that, it is even more of a strain.

The Woman's Club has ten departments, none of them stagnant, all active, and to be chairman of one of the departments is a real honor. These ladies, plus the officers of the club make up the executive board.

We would rate the Murray Woman's Club as one of the single most influential groups in the city. Possibly it is the most influential, since there are about 500 women involved.

As we looked about the table, down in the basement of the Murray Woman's Club clubhouse, we saw faces with depth, character and volume. A great part of beauty which shows in a woman's face comes from intelligence, experience, interest, ability, expertise, and compassion.

As we stood there looking into the faces of these women, we realized that each one was a leader, a clear thinking person in her own right.

We have a lot of respect for the Murray Woman's Club.

Lifted: "One day as I sat musing, and and lonely and without a friend, a voice came to me saying "cheer up, things could be worse." So I cheered up and sure enough things got worse."

Two nice gentlemen visiting in Murray today, Truman B. Clark and Walter Gummere. They are top Tappan officials, easy to talk with, and nice as any former official in these same positions.

Time changes things and those two men moved up as folks like Bob Lamb, Divilbiss, and others retired. Incidentally Divilbiss, who has a host of friends here, is running an outfit which employs handicapped people. They make things and Divilbiss goes out and digs up orders. He's a crackerjack engineer and although retired, still uses this great ability.

stant and dramatic improvement as the season progressed.

Oakley praised his offensive units' hustle, their intelligent decisions, and their confidence.

"They didn't hesitate in making decisions, and I think that's an important one that they are learning their assignments and are confident that they can get the job done. They still lack polish but that will come with time and hard work."

The kicking game drew the most praise from Oakley, who said that punt and kickoff coverage was good and that both Racer punters, David Boush and Danny Mackery were getting good height and distance on all their punts. He also had some kind words for the punting game but said the quarterbacks were still having problems choosing the right receivers.

Individuals lauded for good performances included quarterback Larry Tillman, ends Harvey Tanner and Gerald Young, flanker Bill Hess, and guard Tony Sims.

Defensive coach Bill Holt expressed satisfaction that the first defensive unit was not scored on, but felt that overall, the defense left lots to be desired and warned his units they would be dogours."

Wake Up Your PERISTALSIS And Be Your SMILING BEST

Peristalsis is the muscular action of your digestive system. When peristaltic action slows down, waste materials can build up in the lower tract. You can become irregular, uncomfortable, stuffed. The unique laxative formula of today's Carter's Pills gives effective, temporary relief of the irregularity by activating the slowed-down muscles of the lower tract and stimulating peristalsis. So if you're sluggish due to irregularity, take Carter's Pills to wake up your peristalsis and you'll bounce back to your smiling best. Father in Need of Psychiatric Help

By Abigail Van Buren

DEAR ABBY: I write you for having the courage to publish the letter from the mother who suspected her husband of molesting their 13-year-old child.

When my eldest daughter was a budding young girl, her father would find all kinds of excuses to surprise her in her bedroom, hoping to catch her in some stage of undress. Many times I saw him in her bedroom, standing by her bed, leaning down at her form as she slept uncovered on a hot night.

I finally realized that he had become much too generous with gifts, money, and privileges, and learned too late that he had been buying her favors and stenciling her with threats to kill her if she told anyone.

I hesitated to turn him into the authorities as he held a fine position and was respected in the community. But I finally trapped him into seeing our family doctor. And in spite of the doctor's pleas and explanations, my husband still holds this daughter, whose life he ruined, equally responsible, and he feels no particular guilt.

We have a younger daughter growing up, and if I ever see her father touch her, I intend to shoot him, so help me God!

HUSBAND-BROKEN MOTHER

DEAR MOTHER: And what good will a dead husband be after he has violated a second child? So far you have no reason to believe that he has changed. You may catch him and you may not.

But knowing what you do, if he harms your second child, you are as guilty as he. I say if he returns psychiatric treatment TODAY, let your year child and leave him, and hand him into court!

DEAR ABBY: I hope you will print this letter because I'm sure I speak for many other mothers.

I have a son who is married to a lovely young woman. I have no daughter, so I am delighted to have a daughter-in-law. I am pleased to report that we get along just fine.

Abby, we are a very affectionate family and I have always kissed my son hello and good-by from the time he was a small boy, and I still do.

After he married, I greeted his

ed, self-addressed envelope. NOW YOU KNOW

CHAPTER 16 "HAD yet myself in Trina's apartment and had just installed myself in the utility closet with the camera Thursday and loaned me when the front door rattled and Trina and Coogan came in laughing. I peeped and they were sitting on the combination settee, holding hands. Intuition told me I'd better snap while the snapping was good. I peeped out for a much easier situation, of course, but in this game you take what's at hand any time. I shot up the window magazine. There was a break. Coogan was in his shirt sleeves and had scooped his tie. Later Trina walked him down to his car after another ten minutes of stony philosophizing. And this was a break for me. It allowed me to walk out the back way, thus sparing me a long, cramped wait in the bathroom closet until Trina had fallen asleep.

Cottage Style Cookery

By JOAN O'SULLIVAN

COTTAGE CHEESE rates low in calories and high in protein, flavor and versatility. Team it with jelly and use it as topping for pancakes or, for a new breakfast treat, toss it into the pan when you scramble eggs. Try it as topping for fresh, canned or frozen fruit. For a diet lunch, add diced, sliced or grated crisp vegetables to it. Like spaghetti? You'll like it even better when you mix it with cottage cheese, butter and a dash of Parmesan. By the same token, it's great with baked potatoes. Cottage cheese is also good in casseroles and soups and makes divine dips and delicious spreads, as today's recipes attest.

DAIRY TRAY features Curried Cottage Cheese Dip, Crunchy Cottage Cheese Spread, cubes of American cheese and a great assortment of crispy crackers, nibbles and bread rounds.

- SALMON COTTAGE CASSEROLE**
4 tsp. butter, divided
1/2 c. chopped onions
2 tsp. flour
1 1/2 tsp. salt
1/2 tsp. garlic salt
1 c. milk
3 tsp. Worcestershire sauce
3 pt. (2 c.) creamed cottage cheese
1 (1 lb.) can salmon, drained, boned and flaked
4 oz. medium noodles, cooked and drained
1/2 c. fine dry bread crumbs
Melt 2 tsp. butter; add onion; cook gently until tender. Stir in flour and salt. Add milk; cook, stirring constantly, until mixture thickens. Stir in Worcestershire sauce

and cottage cheese. Fold in salmon and noodles. Turn into shallow 2-qt. casserole. Melt remaining 2 tsp. butter; stir in crumbs. Sprinkle around edge of casserole. Place in moderate oven, 350°F., for 35 min. or until hot and bubbly. Serves 6.

CURRIED COTTAGE CHEESE DIP
1 c. (1/2 pt.) creamed cottage cheese
1/2 c. sweet pickle relish, drained
1/4 tsp. curry powder
1 tsp. grated onion
Paprika
Sieve cottage cheese; com-

bine with remaining ingredients except paprika. Mix well. Cover; refrigerate about 1 hour. Spoon into serving dish; garnish with paprika. Makes about 1 c.

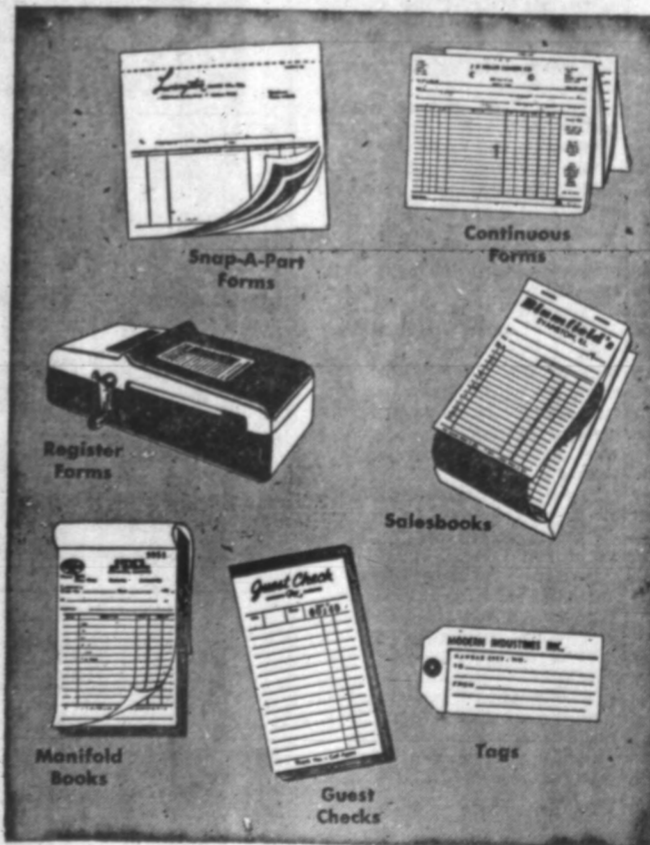

CRUNCHY COTTAGE CHEESE SPREAD
2 c. (1 pt.) creamed cottage cheese
1/2 c. mayonnaise
1/2 c. finely chopped pared cucumber, drained
1/2 c. finely chopped green pepper
1/2 c. finely chopped celery
1/2 tsp. seasoned salt
Combine all ingredients; mix. Chill. Makes 2 1/2 c. spread.

COTTAGE CHEESE CUSTARD
2 c. cream-style cottage cheese
2 large or 3 small eggs or 5 or 6 egg yolks
1/2 tsp. salt
1/2 to 1/4 c. sugar
1/2 tsp. vanilla
1/2 tsp. grated lemon rind
Beat cheese until smooth. Beat eggs only until yolks and white are blended. Add salt and sugar; stir to blend. Add cheese gradually, stirring briskly. Add vanilla and lemon rind. Pour into 4 cups, filling to within 1/2 inch of the top. Sprinkle with nutmeg, if desired, and set in a shallow pan of hot water. Bake in a moderate, 350°F., oven about 20 to 25 min., or until a knife inserted in the center comes out clean. Do not overbake or custard will become watery. Remove from hot water and cool slightly, then chill thoroughly. Serve plain or with any desired fruit sauce. Makes 4 large helpings.

COOK-AHEAD casseroles, which can be prepared before company makes the scene, are a good idea. This one, with its crumb topping, combines salmon, noodles and cottage cheese.
