The Azaleas at the Hutton home on Main Street have come in to their own. Karl always did have a beautiful yard, both front and back.

## Two Churches Unite Today

DALLAS (UPI) — Two bishops joined hands today in the dramatic ceremony uniting Methodist and Evangelical United Brethren in the largest church merger in U.S. history.

"Lord of the church, we are united in Thee, in Thy church, and now in the United Methodist Church," said Bishop Newton Mueller, and Lloyd C. Wickes in a prayer before some 10,000 persons, completing the merger first proposed 165 years ago.

The new denomination members more than 11 million persons in this country, plus about one million overseas.

United Brethren Bishop Mueller of Indianapolis minutes before had read a declaration of union followed by a similar statement from Methodist Bishop Wickes of New York.

Then they said: "We now jointly declare that the plan of union between the churches has, by its terms and by the terms of the enabling legislation, become effective and henceforth the two denominations shall go further as a single entity to be known as the United Methodist Church." The two bishops then joined hands over the formal plan of union.

The solemn ceremony also included other delegates from some 33 nations bearing flags of their countries.

The Methodist and EUB churches had a quite similar doctrines and theological beliefs, and trace a common history. Three branches of Methodism merged in 1939 and the Evangelical and the United Brethren Churches joined in 1946.

## Rescue Squad, Red Cross, Cooperate In Emergencies

The Murray-Calloway County Civil Defense Rescue Squad and the local chapter of the Red Cross are working on a plan to co-operate during and after local emergencies.

The plan was outlined by the Red Cross chapter which has sold a truck — recently given the chapter — to the squad for a nominal sum.

The Tappan Company donated a 1963 Ford Econoline van to the Red Cross chapter several months ago; but it soon became apparent that upkeep and insurance on the vehicle would be too burdensome for the local Red Cross.

Edwin Jennings, chief of the rescue squad, approached local chapter officials and made an offer for the van and outlined a plan for co-operation. The van was already earmarked for sale because of the need for funds for Red Cross. The Red Cross agreed to sell the vehicle to the squad for substantially less than what it would bring on the open market if the rescue squad would agree to make the vehicle available for Red Cross work.

In the event of local disaster the rescue squad would make first use of the vehicle to give immediate aid in recovering victims or clearing debris from public thoroughfares. The Red Cross would then be given the vehicle for transportation to feed and care for those hit by the catastrophe.

## Shaw's Drama To Be Presented At Methodist Church

George Bernard Shaw's "Saint Joan," a magnificent and important drama, will be given by the Alpha-Omega Players at First Methodist Church on April 30, at 7:30 p.m.

The Alpha-Omega Players, a unique repertory group, presented this play by Shaw, considered by many to be the finest of several plays about Joan of Arc. It begins with Joan's life as a simple farm girl who heard God's commands through her voices, giving her complete faith and purpose.

Staged by the Alpha-Omega Players, Saint Joan finds heightened meaning in its new and vital form; a masterpiece of theatrical excitement that seems, if possible, more significant today than when it first appeared. The Alpha-Omega Players adaptation reveals the essence of the nineteen-year-old girl herself, depicting scenes with Joan and the men who had a key part in her road to total fulfillment.

Saint Joan provides thought-provoking insight into modern times and will be an evening not to be missed.

Production has been directed by Drexel H. Riley, executive producer of the Alpha-Omega Players.

The Alpha-Omega Players will appear in person under the sponsorship of First Christian Church, First Methodist Church, and United Campus Ministry.

There will be no admission charge.

## Garland Home Destroyed By Fire Monday

A home and a stock barn were destroyed in two separate fires in Calloway County. The Murray-Calloway County Civil Defense Rescue Squad responded to both calls but was unable to reach either in time to help.

Monday morning the Kirksey, Route Two home of the Fred Garland family was destroyed by fire. Sunday night a stock barn, corn crib and dairy barn belonging to Leroy Frazier, also of Kirksey, was razed by fire.

At Sunday's fire the rescue squad sent the brush fire truck and watered down the ruins of the shed. The squad was called at 9:30 p.m. when the fire raged so high that it was feared that Mr. Frazier's home might catch fire.

Mrs. Charlene Garland was returning to her home north of Stella shortly before 10 a.m. Monday when she saw smoke pouring from her house. She attempted to get inside but was stopped by the heat. Neighbors assisted in saving a washer and dryer, a freezer and the television. Little else was saved.

The house is owned by Dan Hutson of Murray. The Garlands have two children who also lost their belongings. Teresa Gail, 8, and Craig Allen, 2.

Several members of the Rescue Squad and the brush fire truck stood by in case the fire spread from the burning home.

## Two Old Books

Mrs. J. C. Outland of Hamilton Avenue, Murray, has in her possession two old books, one of which was published in 1865.

One of the books is entitled "Thomas' Hymns" which contains the words only to songs. The songs are not numbered and they are indexed by the first line of the song. In the preface, the author, Erasmus D. Thomas, says "the object of the compiler of this hymn book has been to supply the wants of a large portion of Regular Baptist Churches who were measurably destitute of a uniform book, and likely to become more so, by the failure of republishing some books that had been in use."

The second book is "Sacred Melodies For Social Worship" by Rev. H. Mattison, A.M., and contains both the words and music. This book was presented to Fannie L. Ladyard of Grand Rapids, Mich., February 21, 1864.

Both the books are in the small size, 3 1/2 x 5 1/2.

## Quotes From The News

By UNITED PRESS INTERNATIONAL

NEW YORK — Vice President Humphrey in a foreign policy address to the Overseas Press Club Monday night: "I believe the power of the free idea will in time infiltrate mainland China as it has infiltrated and is infiltrating the Soviet Union and Eastern Europe."

NEW YORK — Whitney M. Young, Jr., executive director of the National Urban League, proposing a "white march" on Washington to back Negro demands: "Such a march led by people in top leadership roles will say to Congress: 'The time is now... you must now bring economic security and social justice and equality to every person in the land.'"

WASHINGTON — A Pentagon official explaining regulations under which U.S. special forces in South Vietnam may attack elephants: "The rules of engagement for elephants are that an elephant may be attacked when he is carrying a burden, but he may not be attacked when he is not carrying a burden."

WASHINGTON — Sen. Peter H. Dominick, R-Colo., asking civil rights leaders to call a moratorium on marches and demonstrations: "No one wants to limit freedom of assembly, speech or dissent, but we don't permit people to walk around a fire with an open can of gasoline, and masses of people marching in our country can only create the opportunity for emotionally unstable people to limit a similar fuse."

bore all people working directly with people for a common purpose.

To accomplish this end, the Partners of the Alliance Committees and their National Partners Association have set out to add substantially to the international dimensions of our society. The Partners has already reached the citizens of thirty-two states and their counterparts in fifteen Latin American countries. There has been, for the past three years, a constant and practical interchange of persons and their ideas; of techniques to stimulate social change and economic growth; of funds for joint investment and community development; of language and culture — of understanding and lasting friendship.

## B&PW CLUBS

(Continued From Page 1)

one lighted in St. Louis in 1919 by a B&PW Club member.

The speaker said that the opportunity for women is there if we will just take the effort. The United States is behind other countries in the number of women in outstanding public positions such as Mrs. Indira Gandhi, prime minister of India. She said here in the United States that about two percent of the Congress are women, that there are no women in the cabinet, and only three women federal judges.

Miss Carr said women are still in the lower level of jobs even with the high educational level. She said this is due to tradition, that business men want women in the home, that women loath to take responsibility, and that women have low rates of pay.

The Kentucky club woman said that what we need are more first class jobs for women in government, but it is up to each one to accept the responsibility if women are to take higher positions.

Special music was by Mrs. A. L. Bailey of Murray, soloist, accompanied by Miss Lillian Waters, pianist. Miss Linda Corum of Reidland and Miss Mary Sue Seay of Mayfield led in the club collect.

Miss Barbara Hale of Cardinal Club, Paducah, assistant director, presided at the afternoon session.

During the morning session presided over by Mrs. Jessie Shoemaker of Murray, director, officers elected were Mrs. Alida Clemens, Paducah, director, Miss Mary Sue Seay, Embury Club, assistant director, and Mrs. Virginia McCaslin, Princeton, secretary.

Miss Peggy Tripp of the Cardinal Club gave the devotion and Miss Doris Rowland, Murray club president, welcomed the sixty-one persons to the meeting.

Nine clubs in the district represented were Paducah, Cardinal of Paducah, Mayfield, Embury of Mayfield, Reidland, Princeton, Fulton-South Fulton, Marshall County, and Murray. Two visiting clubs represented were Owensboro and Lexington.

the association especially invites all non-members to come for a social period and see the various exhibits which the clubs will have on display at two p.m.

Other officers of the county association are Mrs. Alfred Taylor, vice-president, and Mrs. Max Farley, secretary-treasurer.

Mrs. McDaniel said the objectives of the association are to furnish a strong organization of volunteer leaders to assist in strengthening, developing, coordinating and extending the adult education program in home economics of the Extension Service, to provide an opportunity for homemakers to pool their judgment and experience for the progressive improvement of home and community life, and to offer a means for homemakers to interpret and promote programs of national and international importance in the protection and development of the American home.

The programs are open to any full or part-time homemaker, rural or urban, from "brides to senior citizens." Programs are planned on the local level in cooperation with extension staff members and based on the latest research data.

Study subjects are related to home family life and include consumer education, child development, human relations, energy, money and time management, foods and nutrition, housing, home furnishings, home improvement, textiles, and clothing.

Mrs. McDaniel urges the members and public to attend the special event planned for April 30.

HANOI NEGOTIATOR — A Hanoi radio broadcast announcing that Xuan Thuy (above) has been brought out of retirement and given a ministerial post leads to belief that he will be North Vietnam's chief negotiator in any peace talks with the U.S. Thuy, 56, is known as a skilled negotiator. He was foreign minister 1963-65.

## ALMANAC

by United Press International

by United Press International Today is Tuesday, April 23, the 114th day of 1968 with 252 to follow.

The moon is between its last quarter and new phase. The morning star is Venus. The evening stars are Mars and Jupiter.

On this day in history:

In 1898, the U.S. government asked for 125,000 volunteers to fight against Spain in Cuba.

In 1917, George M. Cohan, asked for volunteers to entertain the American Expeditionary Forces overseas. Almost every performer present offered to join the overseas troupe.

In 1941, thousands attending an America First rally in New York City heard noted Charles Lindbergh say, "It is obvious England is losing the war."

In 1968, more than 200 U.S. planes struck North Vietnam in one of the biggest raids of the war.

A thought for the day: Greek poet Horace said, "The brief span of life forbids us to cherish a long hope."

## TAX CHECK

TOKYO (UPI) — The highest-paid hostesses in any Tokyo nightclub averaged \$1,111 a month in tips last year, the Tokyo Tax Administration said today.

The hostesses who got the most tips worked in a cabaret on Tokyo's neon-lit Ginza. But the average hostess reported monthly earnings of only \$138. The tax agency said it got income tax returns from 11,000 women who dance and hold hands with male bar customers.

## Versalles Of Dodgers Gets Nine Hits For Eleven Runs

By FRED MCMAINE

UPI Sports Writer.

Zoilo Versalles is making every hit he gets count for something, which is the result of a man who sees the world through rose-colored glasses.

The 27-year-old Versalles, who came to the Los Angeles Dodgers last winter after eight seasons with Minnesota, has found the transition to the National League a bit rough so far and has managed only nine hits in his first 40 at bats for a .225 average.

But the talented shortstop has made those nine hits good for 11 runs batted in and is fast gaining a reputation as one of the league's top clutch hitters.

**Ninth Inning Win**  
Versalles, who has donned a pair of rose-tinted spectacles this season as sort of an omen, delivered a two-run triple with two out in the ninth inning Monday night to give the Dodgers a 5-3 victory over the Pittsburgh Pirates.

It was the third game that Versalles has won for the Dodgers with his timely hitting and the second in as many days.

In other major league action, Philadelphia beat San Francisco 2-1 in 10 innings, Baltimore topped Minnesota 2-1 in 10 innings, New York defeated Oakland 2-1 and California whipped Washington 4-2.

The Dodger shortstop smacked a fastball on a 2-1 count from rookie Bob Moose for his game-winning triple after Wes

Parker had doubled home the tying run a moment earlier.

Jim Brewer who struck out five batters in a two-inning stint, received credit for the victory, but the Dodgers were more impressed with the sterling performance of starter Jim Grant. Grant went six innings and surrendered only three singles in his first start as a Dodger.

**Phillies Win Fifth**  
Cookie Rojas singled home Richie Allen from third base with one out in the 10th to give the Phillies their fifth straight victory. Rick Wise went all the way for the Phillies to record his first victory of the season.

Andy Etchebarren homered with one out in the 10th to give the Orioles their victory. Dave McNally was credited with his second triumph of the season while Jim Merritt, who went all the way for the Twins, absorbed the loss. Paul Blair also homered for the Orioles.

Tom Freshy's sacrifice fly brought home the winning run for the Yankees in the sixth inning after singles by Horace Clarke and Mike Ferraro, and Dooley Womack preserved the triumph by striking out Sal Bando with the bases loaded in the eighth inning. Fritz Peterson was the winner while Lew Krausse was the loser.

Jack Hamilton pitched a three-hitter and drove in the deciding run with a single as the angels beat the Senators. Roger Repox scored three

runs for the Angels, including one on his third homer of the season. Dick Bosman took the loss for Washington.

# Scientist Thinks Venus Has Temperate Zone

IRVINE, Calif. (UPI)—Conditions permitting some form of life may exist on Venus despite surface temperatures as high as the 540 degrees reported by the Soviet Union's Venus probe, says a University of California Nobel Laureate. Dr. Willard P. Libby, UCLA chemistry professor, says his theory is based on the premise that oven-like temperatures exist only in the equatorial belt on Venus.

Ice caps, similar to those on earth, cover Venus' poles and may extend over as much as half the planet, he says.

Consequently, explains Libby, temperatures between the hot equatorial belt and icy polar regions must grade off into an area of moderate warmth where some form of life could exist.

Although the gaseous cloud cover on Venus does not permit animal life as known on earth, the areas of moderate temperatures might permit plant life, says Libby.

## Only Took Small Stuff

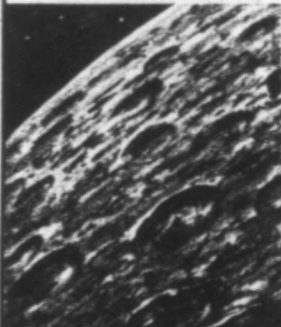

TOKYO (UPI)—The young est members of a gang of shoplifters broken up here were, according to police, two years old. The ringleaders were two sisters of Urawa City who apparently trained their four children in their profession. Besides the two year olds, the ages of the other children are 12, 9 and 4.

## Smoking And Behavior

BERKELEY, Calif. (UPI)—Non-smoking adults were usually self-controlled as adolescents, lacked strong aggressions and had modest views of themselves, according to a University of California sociologist. Heavy smokers now in their middle years showed overt aggressive behavior, a tendency to escape unpleasant situations and little "need for achievement" as teenagers. Professor John A. Clausen drew these profiles from studies begun in 1931 of approximately 200 Oakland, Calif. junior high school boys and girls.

The wandering albatross does not need to beat its wings until the wind speed at sea level becomes less than 11.5 m.p.h.

## SCIENCE SPOTLIGHT

LUNAR IMPACT—NASA scientists analyzing 100,000 Moon crater photos returned by Orbiter and Surveyor spacecraft have established that a majority of the craters and much of the soil are the results of meteorite impacts.

CUP RUNNETH OVER—Dorothy Deniken, 3, must be the happiest little girl in the world after being admitted to the Children's Zoo in Philadelphia before the official opening. She is hugging a quizzical baby goat.

## 'Naive' Babysitter Has Much to Learn

By Abigail Van Buren

DEAR ABBY: I have a strange problem for age 14. While babysitting one night, a man called and asked for my employer. I told him she would be out quite late, but I would give her his message. He started talking to me and we got into a rather interesting conversation. Then he asked if he could come over. At first I said I didn't think it would be right, but he talked and talked and finally talked me into it. He is nice looking and about my father's age.

Well, he made a couple of passes at me and I told him to leave, but he promised to behave himself so I let him stay.

Later on, he made another advance, and I got mad, but he apologized and said he wouldn't do it again and he talked me into letting him stay.

Now he comes over whenever I am babysitting there. I keep telling him not to come over anymore, but he talks me into it. I need your help, Abby. I don't have any intentions of giving up this babysitting job because it is my only source of income.

TROUBLED

DEAR TROUBLED: This man is bad news, with a capital "B." You seem to be too easily "talked into" things for your own good. You are so much for him. I urge you to TELL YOUR EMPLOYER about this man's visits, and never let him into the house again while you are babysitting.

DEAR ABBY: First, let me explain that I have been happily married to a wonderful woman for 18 years. We have two fine children. Now, the problem:

I received a telephone call recently from a friend of mine who informed me that a girl I used to go with [20 years ago] was moving back to town. It was a real serious thing between us at the time. In fact we nearly ran off and got married. It seems she is separated from her husband and has set herself up in an apartment here. Her husband is in Texas. My curiosity about her appearance, feelings, etc., after 20 years is most intriguing.

My alternatives: (1) Call her just to say "hello." (2) Take the bull by the horns, and ask my wife if she would have any objections if I saw her. (3) Forget the whole thing.

PERPLEXED

DEAR PERPLEXED: Forget the whole thing. Why look for trouble?

DEAR ABBY: For our 45th wedding anniversary, I surprised my husband with a wedding band because he never had one. When I gave it to him, I could tell by his expression that he wasn't too happy with it. My heart sank today when he came home from work and told me that he hoped I wouldn't mind if he didn't wear it as it kept hitting his desk and made him nervous.

Am I wrong to let it bother me? M. Y.

DEAR M. Y.: Yes. Many men (and not just the swingers) find that wedding rings make them "nervous." You could have saved yourself much disappointment if you had found out first whether your husband really wanted a wedding ring before "surprising" him with one.

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 6706, Los Angeles, Cal. 90069 and enclose a stamped, self-addressed envelope.

## Mrs. H. A. Newport Leader At Meet Of Arra Dunn Circle

The regular meeting of the Arra Dunn Circle of the Woman's Society of Christian Service of the Hazel Methodist Church met Wednesday, April 17, at two o'clock in the afternoon at the church.

Mrs. H. A. Newport presided in the absence of the chairman, Mrs. J. R. Herning. Psalms 117 was read and The Lord's Prayer were used by Mrs. John McCullough, spiritual life leader.

The program topic was "Residence Homes Find A Way" which was led by Mrs. Newport, assisted by Mrs. Claude Anderson and Mrs. McCullough.

The purpose of the program was to explore the residential centers that are projects of the Board of Missions and Woman's Division of the Methodist Church. The church and related agencies helped in this pioneer movement by establishing "homes away from home" for women of all races and creeds.

The ladies on program discussed the past, present and future of these residence homes which are located in most large cities, the first one being established in New York City in 1889. The most recent one was built in Los Angeles, California.

Mrs. D. N. White closed the meeting with prayer. During the social hour, delightful refreshments were served by Mrs. McCullough and Mrs. Ralph Edwards.

CALL FOR DEATH

ALGIERS (UPI) — H. Rap Brown, the American black power militant, said in a magazine published Friday that in his country "for each black dead, we must kill 100 whites." Brown, writing in the magazine Revolution Africaine, said "Death should not stop our fight for liberation."

MRS. KENNETH BUCY

Miss Joyce Ann Mahoney and SP/4 Kenneth Bucky were married Saturday, April 13, at the Mt. Hope Church in Livonia, Mich. The bride is the daughter of Mr. and Mrs. Harold Mahoney of Livonia. She is a student at Bentley School and will graduate in June.

Mr. Bucky is the son of Mr. and Mrs. Hawley Bucky of Detroit, Mich., former residents of Calloway County. He was graduated from Redford Union in Detroit, Mich., and is at present stationed with the U.S. Army at Fort Knox.

Following the ceremony the couple left for a week's wedding trip in Northern Michigan.

## Tennessee Hot For Tamales

KNOXVILLE, Tenn. (UPI) — You hanker for a hot tamale and you go to Mexico, or a Mexican cafe in your vicinity. You do, that is, unless you happen to live here in Smoky Mountain country where the hot tamale is a hot seller in ice cream shops.

Kay's Ice Cream Co., with 10 locations in Knoxville, sells 700 to 800 dozen tamales a week. The Smoky Mountain Market sells about 200 dozen a week. Sally's, also in the tamale business, sells around 3,000 dozen a week to restaurants, ice cream shops and markets throughout East Tennessee.

Why the hot tamale came to Smoky Mountain country — and when — is a matter of some dispute. No one quite knows for sure. But the favorite story is this:

A local restaurateur visited the Chicago World Fair around the turn of the century, tasted a tamale there for the first time, liked them and brought the recipe back to Knoxville.

True or not, tamales have been selling like hot cakes — if you'll pardon the comparison — ever since.

Muddled Waters EAST LANSING, Mich. (UPI) — The greatest single cause of water pollution in the United States is soil, scientists say.

Russell G. Hill of Michigan State University, a soil conservation expert, said nearly 4 billion tons of soil and related sediment is dumped every year into rivers and lakes. Most of it is washed by rain from farm fields, gullies and construction sites. The Mississippi River, Hill said, alone delivers more than 500 million tons of soil every year into the Gulf of Mexico.
