Report of President.

REPORT OF THE PRESIDENT

Murray, Kentucky,
May 15, 1925.

To the Board of Regents,
Murray State Normal School,
Murray, Kentucky.

Honorable Members:

I submit the following for your information and consideration:

Additional Equipment.

In rechecking items for equipment of Administration building, I note a number of minor things which can be done by local carpenters cheaper by far than will be done by jobbers or manufacturers. The chief items are tables and cabinets for agriculture, biology, sewing and additional book cases and tables for library, and shelving, display boards, and book cases for individual class rooms. I, therefore, recommend that the President be authorized to have so much of this work done under the supervision of Campbell Holt as he deems advisable, provided the total expense does not exceed $______.
Insurance.

On investigation, I find that a decided reduction in the premiums on insurance is made provided 60 or 90 per cent of the value of the insurance is carried. A reduction of as much as 30% is made provided 90 per cent of property is insured, and provided further that the property is within the city limits. If the property is outside the city limits, the reduction is 10%.

The rebates to which this Board is entitled on cancellation of builder's risk policies on new buildings follow:

- Long rates $657.16
- Short rates $565.20

I submit the above for your information.

Streets, Walks and Drives.

In order that there may be no delay in providing the necessary walks, streets and drives, I recommend that Board appoint a committee on grounds, and that this committee be directed to make specific recommendations to the Board relative to the improvement of streets, walks and driveways at the next meeting of the Board.

Equipment for Wells Hall.

It will probably require from sixty to ninety days after contracts are awarded to install the equipment in Wells Hall. It is only four months and one week until the opening of the Fall semester. I, therefore, recommend that a date be set for awarding contracts for equipment of Wells Hall.

Vacation of Certain Teachers.

The contract of certain members of faculty who are not reemployed expire June 30, 1925. That is only three weeks after beginning of summer school. It would not be to the best interest of the school to assign them classes for so short a time and then fill their places a little later. I doubt if any of these persons should be employed for the full summer term, as they are not to continue for remainder of school year. These persons would be entitled to three weeks' vacation with pay provided they taught through the summer school. I, therefore, recommend that each be given the regular annual vacation with pay effective at close of the current semester or as soon thereafter as their work is completed, all reports made and property in their possession turned over to the President. As I understand it, such procedure is customary in other similar institutions.

City Limits.

I recommend that the normal school property be taken into the city limits at earliest date possible. There are several reasons why I deem such action advisable.

a. The insurance rate would be lower provided policies covered 90% of value of property.

b. I see no feasible way for getting streets and sidewalks all the way from present city limits to the school unless property is taken into the city. The road west of property should be improved as far as Wells Hall. Mr. Broach and I own most of the property west of this street and we favor improvement.

c. Police protection of the city should be provided for the normal school.

Respectfully submitted,

J. W. Carr,
President.
Report received and ordered made a part of the record and recommendations considered separately.

Moved by Mr. Wilson, seconded by Mrs. Lovett, That the recommendation of the President relative to the installation of additional equipment for the Administration Building by local carpenters be approved and that the President be authorized to make expenditures for same in an amount not to exceed $1000.00.
