VI. Acquisition of Fifty or a Lesser Number of Mobile Houses Located at Charlestown, Indiana

The Federal Public Housing Authority has agreed to let us have the use of fifty or a lesser number of mobile houses for a very nominal figure ($1.00 per year or any portion thereof for each dwelling unit).

The houses are of two sizes, 13' x 25', and 13' x 33'. They are constructed of plyboard, inside and out, with walls, ceilings and roof insulated. They are supposed to be equipped with basic furniture which includes a coal stove, beds, springs and mattresses, a table and chairs, an ice box and an electric hot water heater. Closets and cabinets are built in. There is also an electric hot plate. The houses are wired for electricity, and plumbing facilities are installed. The overhead wiring from building to building is also included.

The following items concerning these houses should be considered at this time.

1. Number and size of houses to be secured.
2. Location of houses on the campus.
3. Estimated cost of moving and relocating the houses. (This should include walks, drives, sewers, grading, electrical connections and other expenditures of this nature.)
4. Estimated monthly rent per house to be charged to veterans.
5. Authority to sign lease with Federal Public Housing Authority.
6. Authority to let contract for moving houses.
7. Authority to expend funds to prepare location, build walks and drives, connect plumbing with sewers or build septic tanks and for such other expenses as are necessary to relocate the houses on the campus and have them available for veterans.

VII. Surplus Property Donated to College by Federal Government

Our request to secure a large amount of obsolete and surplus property from Kentucky Ordnance Works, near Paducah, and other places has been approved. The equipment that we have secured from Kentucky Ordnance Works is excellent. Included are machine shop...
equipment, mechanical drawing and drafting equipment and supplies and equipment for the Chemistry Department. This equipment is very badly needed, and is conservatively valued at $75,000.00. The only cost in securing it is that of removing it from Kentucky Ordnance Works to the campus. We are still working to get more of such equipment. Special effort is being directed toward securing hospital and cafeteria equipment.

VIII. Student Recreation Center for All Students Located in the Fine Arts Building Basement

In January of this year, you adopted a resolution stating that, when the basement of the Fine Arts Building was completed and ready for use for recreational purposes, a rental charge of $200.00 per month would be paid out of the college Revolving Fund into the Fine Arts Building Revenue Fund. In my opinion, this college needs a recreational center for all students, and this is the best one available. I, therefore, recommend that, beginning December 1, 1945, a rental charge of $200.00 per month be paid out of the college Revolving Fund into the Fine Arts Building Revenue Fund for the use of a recreation center for all students of the college in the Fine Arts Building basement. I further recommend that the college charge costs for insurance, heat, electricity and water, in addition to the services now being charged to this building.

IX. Fees for Veterans

It was brought out at the meeting of the Council on Public Higher Education, yesterday, that under the provision of the "G. I. bill, an institution which does not charge tuition is entitled to a minimum tuition charge of $15.00 per month or, in our case, $45.00 per quarter. This charge is in addition to the fees already being charged per quarter, which are: Incidental fee, $22.50; Library and Laboratory Fee, $2.00; Health Fee, $1.00; Student Activities Fee, $1.00; and certain course fees. The out-of-state fee will not be charged to veterans. It is my understanding that the other state colleges of Kentucky will make the above minimum tuition charge. I am submitting this for your special consideration.

It may be necessary to itemize the charges included in the incidental fee of $22.50 for students. I am also asking that you give me authority to study and assign charges for specific services included in the over-all incidental fee.

X. Reservation Fee for Rooms in Men's and Women's Dormitories

Dean Weihing and Dean Yancey have recommended that a Reservation Fee of $5.00 for rooms in the men's and women's dormitories be charged, and that such a fee be refunded if the reservation is cancelled any time before two weeks of the opening of a quarter. It is my understanding that thirty-eight girls for whom we had made room reservations failed to enter at the fall quarter, and never informed the college of their change of plans.

XI. Restoration and Reoccupation of Wells Hall as College Dormitory

See Miss Ella Weihing's letter.

XII. Dr. M. G. Carmen Transferred back to College Faculty from Navy

Dr. M. G. Carmen who has been teaching for the Navy in the U. S. Navy Academic Refresher Unit has been transferred back to the regular college faculty, but is doing some Navy work on a part-time basis; his salary status will, however, not be changed until further notice even though he did return to college teaching on October 1, 1945.
XIII. Dr. W. D. Lewis Transferred from Navy back to College Faculty

Dr. W. D. Lewis was also transferred back to regular college teaching on October 1, 1945; and since he is still doing some part-time teaching for the Navy in the U.S. Navy Academic Refresher Unit, his salary, likewise, will not be changed until further notice.

Respectfully submitted,

R. H. Woods
President

RHW:TB

Acquisition of Fifty or a Lesser Number of Mobile Houses, Located at Charlestown, Indiana, from Federal Public Housing Authority

Dr. Woods reported that a plan was under way whereby the college might be permitted to buy outright, for a nominal sum, the houses available through the Federal Public Housing Authority rather than to secure them on the rental basis, as originally offered. He recommended that the execution of the contract for houses available to Murray State Teachers College be delayed until it can be determined whether these houses may be purchased instead of leased.

At this point, and at the request of the President, Mr. R. E. Broach reported on the bids which had been requisitioned by the State Department of Finance for moving the houses from Charlestown, Indiana, to the college.

**Consideration of Employment of Additional Faculty Needed**

Dr. Woods indicated that since the college has acquired this valuable shop equipment from the federal government, an industrial arts course may be offered; and he stated that he had received a request for an additional instructor in the Commerce Department and in the Fine Arts Department.

The President added, also, that requests would be made through the Veterans Bureau for courses of sub-collegiate level, and that the Veterans Bureau representative who was on the campus a few days ago indicated that many veterans would ask for courses in machine shop, woodwork and electric repair work; and he stated that the college curriculum might easily be extended to offer such courses, if it meets the approval of the Board of Regents.
Acceptance of Cannery Equipment and Shop Tools and Equipment from State Board of Education Approved

Motion was made by Dr. Crume that the Board of Regents approve the acceptance of the cannery equipment and the shop tools and equipment from the State Board of Education, as listed in the President's report, and accept the custody of said equipment while it remains in use at the college. This motion was seconded by Mr. Hart, and was unanimously carried.

This motion was seconded by Dr. Crume; and the roll was called on its adoption with the following result: Dr. Crume, aye; Mr. Hart, aye; Judge Ferguson, aye.
